Addendum No. 1

MARSH AVENUE WATER MAIN

PWP Bid No. WA-2014-230

June 6, 2014

The following information, clarifications, changes and modifications are by reference incorporated into the bid documents for the above referenced project. Any work item or contract provision not changed or modified will remain in full force and effect. The bid date and time and construction schedule remain the same.

1. Project Drawings: For Detail 2 of Drawing Sheet D1, please add the following Note

5. Should insufficient 6-in minus native material result from the Contractors' on-site processing of excavated material (so as to provide adequate backfill), the Contractor shall import, place and compact Class E Backfill (per Section 200.03.06 of the SSPWC, Orange Book, 2012) as necessary to complete the installation.

2. Bid Item Change:

Bid item numbers have been included and Bid Item No. 8 has been added to the revised Bid Schedule to account for possible importation and placement of backfill. The quantity provided in the Bid Schedule reflects an approximate 100% backfill importation based upon the use of trench shields and no slope layback methods. No additional payment shall be made for import backfill beyond that provided in the bid item. See attached Revised Pages 3 and 4, which need to be substituted for the old pages 3 and 4 and submitted with your bid submittal package.
