Questions/Clarifications:

Question No. 1: The “only issue is line item #4. We can do this as a HT product, but doing a KD_HT might be difficult.

Kiln Drying a 6x6 will make it twist pretty bad. Unless it is FOHC, then it might be OK. Or requesting this one item as KD might be in error.”

Response to Question No. 1: The observation is correct. All lumber is to be green; no KD or KD HT is required for this bid.
