Phone: (888) 788-0099

Webinar ID: 930 0493 5592

NOTES:

1. Unless and until the Governor issues a Directive or Order requiring a physical location be designated for meetings of public bodies where members of the public are permitted to attend and participate, no members of the public will be allowed in the TMWA's Corporate Office due to concerns for public safety resulting from the COVID-19 emergency and pursuant to the Governor of Nevada's Declaration of Emergency Directive 006 Section 1 which suspends the requirement in NRS 241.023(1)(b) that there be a physical location designated for meetings of public bodies where members of the public are permitted to attend and participate and subsequent directives related to social distancing. This meeting will be held by teleconference only.
2. The announcement of this meeting has been electronically posted in compliance with NRS 241.020(3) and Directive 006 at <http://www.tmwa.com>, and NRS 232.2175 at <https://notice.nv.gov/>.
3. Pursuant to Directive 006, the requirement contained in NRS 241.020(3)(c) that physical locations be available for the public to receive supporting material for public meetings has been suspended. Staff reports and supporting material for the meeting are available on the TMWA website at <http://www.tmwa.com/meeting/> or you can contact Sonia Folsom at (775) 834-8002. Supporting material is made available to the general public in accordance with NRS 241.020(6).
4. The Committee may elect to combine agenda items, consider agenda items out of order, remove agenda items, or delay discussion on agenda items. Arrive at the meeting at the posted time to hear item(s) of interest.
5. Asterisks (*) denote non-action items.
6. Pursuant to Directive 006, public comment, whether on action items or general public comment, may be provided without being physically present at the meeting by submitting written comments online on TMWA's Public Comment Form (tmwa.com/SACPublicComment) or by email sent to boardclerk@tmwa.com prior to the Committee opening the public comment period during the meeting. In addition, public comments may be provided by leaving a voicemail at (775)834-0255 prior to 4:00 p.m. the day before the scheduled meeting. Voicemail messages received will be noted during the meeting and summarized for entry into the record. Public comment is limited to three minutes and is allowed during the public comment periods. The Committee may elect to receive public comment only during the two public comment periods rather than each action item. Due to constraints of TMWA's videoconference system, public comment must be provided by voicemail, email or online comment as indicated above.
7. In the event the Chairman and Vice-Chairman are absent, the remaining SAC members may elect a temporary presiding officer to preside over the meeting until the Chairman or Vice-Chairman are present (**Standing Item of Possible Action**).

1. Roll call*

2. Public comment — limited to no more than three minutes per speaker*

3. Approval of the agenda (**For Possible Action**)
4. Approval of the minutes of October 6, 2020 meeting (**For Possible Action**)
5. Water Supply Update — Bill Hauck*
6. Presentation on the Comprehensive Annual Financial Report for Fiscal Year ended June 30, 2020 — Matt Bowman*
7. Presentation of Financial Performance for First Quarter Fiscal Year 2021 — Matt Bowman*
8. Update on Standing Advisory Committee Membership — Sonia Folsom*
9. Presentation and possible approval of 2021 meeting schedule — Sonia Folsom (**For Possible Action**)
10. Election of Chair and Vice Chair for 2021 — Michael Pagni (**For Possible Action**)
11. Discussion and possible direction to staff regarding agenda items for future meetings (**For Possible Action**)
12. Staff Items* (Unless otherwise listed with a topic description, this portion of the agenda is limited to announcements)
13. Committee Items* (Unless otherwise listed with a topic description, this portion of the agenda is limited to announcements)
14. Public Comment — limited to no more than three minutes per speaker*
15. Adjournment (**For Possible Action**)

STANDING ADVISORY COMMITTEE

DRAFT MINUTES

October 6, 2020

The Standing Advisory Committee (SAC) met via Zoom. Chair McGuire called the meeting to order at 3:02 p.m.

1. ROLL CALL

Primary Members and Voting Alternates Present: Kristine Brown, Robert Chambers, Harry Culbert, Jordan Hastings, Colin Hayes, Don Kowitz, Carol Litster, Neil McGuire, **Ken McNeil, *Chris Melton, Jonnie Pullman, and Jerry Wager.

Alternates Present: Fred Arndt, Ken Becker, Susan Hoog, John Krmptotic, Dale Sanderson, and Jim Smith.

Primary Members and Alternates Absent: Karl Katt, Mike Schulewitch, and Ann Silver.

Staff Present: Matt Bowman, John Enloe, Scott Estes, Sonia Folsom, Mark Foree, Danny Rotter, Michele Sullivan, Sandra Tozi, John Zimmerman, and Legal Counsel Michael Pagni (McDonald Carano).

*Member Melton arrived at 3:08 p.m.

**Member McNeil arrived at 3:21 p.m.

2. PUBLIC COMMENT

There was no public comment.

3. APPROVAL OF THE AGENDA

Upon motion duly made by Member Kowitz, and seconded by Member Wager, and carried by unanimous consent of the members present, the Committee approved the agenda.

4. APPROVAL OF THE MINUTES OF THE AUGUST 4, 2020 MEETING

Upon motion duly made by Member Chambers and seconded by Member Wager, and carried by unanimous consent of the members present, the Committee approved the August 4, 2020 meeting minutes.

5. PRESENTATION OF TMWA LEGISLATIVE SESSION ACTIVITIES

John Zimmerman, TMWA Water Resources Manager, introduced Leo Drozdoff, TMWA Lobbyist, who has been lobbying on behalf of TMWA and legislative affairs and is the former Director of State of Nevada Department of Conservation & Natural Resources. Mr. Zimmerman explained the TMWA Board, at the end of the 2019 Legislative Session, directed staff to be more involved in the Nevada Legislature (since there were a few bills during that session that were considered which could have negatively affected TMWA and were due to legislatures not knowing about TMWA operations), and so they set up a TMWA Legislative Subcommittee for the interim session. Staff, and a member of the Subcommittee, met with Senators Julia Ratti and Ben Kieckhefer and Assemblywoman Sarah Peters to give them a broad overview of TMWA's operations and discuss the outcome of key bills from the 2019 Session; in particular AB 62 and AB 30. Currently, there are almost 500 bill draft requests (BDRs), nine of which involve water right and water resource issues. Staff is continually monitoring the BDR list.

Chair McGuire inquired about being more involved in legislative activities and what that meant in terms of time and money. Mr. Zimmerman replied the Board directed staff to be more engaged during the interim session and it was not much more with regards to cost and time than is usually spent.

6. PRESENTATION OF POTENTIAL FUTURE AGREEMENT(S) WITH CITY OF RENO FOR IMPLEMENTATION OF AMERICAN FLAT ADVANCED PURIFIED WATER DEMONSTRATION PROJECT AND STAFF AND COST SHARING FOR WATER RESOURCE DEVELOPMENT WORK

John Enloe, TMWA Natural Resources Director, updated the Committee on TMWA's involvement in OneWater Nevada, a collaborative effort with regional governmental entities, regarding the progress made in the A+ Feasibility Study Project at Reno-Stead Water Reclamation Facility. The feasibility Study pilot project allows for recharge of 10 gallons per minute of advanced purified water. A full-scale demonstration project is under consideration at American Flat, with a potential capacity of up to 2 million gallons per day (MGD). The project would treat effluent water to drinking water standards and inject it to the ground to be stored for other uses TMWA and the City of Reno, to continue this effort, will work together on technical, staffing and financial considerations. A final report will be provided to Nevada Department of Environmental Protection (NDEP) by April 2021.

Member Wager inquired what the cost of the finished water produced per gallon would be. Mr. Enloe replied he does not know the final cost at this time, but it would be more expensive than producing drinking water at TMWA. Initially, the water would be used for irrigation purposes, and eventually, it could be used for potable purposes. He anticipates a new water right would be created, revenue generated would be used to help pay for the capital improvements and treatment process; and yes, the injection process would continue as it acts as buffer and provides additional treatment in the aquifer.

7. PRESENTATION OF TMWA'S PRELIMINARY, UNAUDITED FINANCIAL PERFORMANCE FOR FISCAL YEAR ENDED JUNE 30, 2020

Matt Bowman, TMWA Financial Controller, informed the Board that total operating revenues came in at \$1.6m (within 1%) lower than budget; water sales revenue came within \$200k (1%) of budget; TMWA had a strong fourth quarter of FY 2020 due to an increase in residential and irrigation revenues, despite a decrease (about 25%) in commercial water sales, although commercial water sales make up only about 12% of overall revenue; overall operating expenses was \$7.6m (8%) lower than budget; salaries and wages were down from budget due vacant positions; services and supplies were lower by about \$3.9m; non-operating expenses were \$4.0m under budget (which is attributed to increased investment earnings); and lower interest expense of \$0.4m which is mostly due to our commercial paper program having lower rates (which is down to \$14.5m and expect to pay it off within the next three years).

Member Jordan inquired about the \$2m in grants and what it was used for. Mr. Bowman replied it was for the Glendale Diversion from the 2017 flooding.

8. PRESENTATION OF PRELIMINARY FUNDING PLAN FOR FISCAL YEARS 2021 THROUGH 2025, DISCUSSION AND POSSIBLE RECOMMENDATION TO THE BOARD

Michele Sullivan, TMWA Chief Financial Officer, stated they do a strategic plan projecting out 5 years, which is not a budget, because it is more conservative. The funding plan is used to decide if a rate increase(s) is necessary since customer rates should cover cost of service. In 2016, the 5-year funding plan presented requested for rate increases over a five year period. The first two increase of 3% were implemented in May 2017 and 2018; the remaining three increases of 2.5% were to be presented to the SAC and Board for reconsideration prior to implementation. The final three rate increases were deferred to 2020 through 2022. In January, the Board approved May 2020 implementation of the first 2.5% rate increase. This was revisited in April due to the COVID-19 pandemic to postpone for reconsideration in August. At its August meeting, the Board approved deferring the three remaining increases until May 2021, May 2022 and May 2023; two years after it was supposed to go into effect.

Member Hasting confirmed the unrestricted cash was not in bank, but rather short-term securities, Ms. Sullivan replied yes, and the majority of cash is managed by Wells Fargo and PFM.

Upon motion duly made by Member Becker and seconded by Member Wager, and carried by unanimous consent of the members present, the Committee accepted the report and recommended to the TMWA Board of Directors of preliminary funding plan for fiscal years 2021 through 2025.

9. DISCUSSION AND POSSIBLE DIRECTION TO STAFF REGARDING AGENDA ITEMS FOR FUTURE MEETINGS

Next meeting:

1. Legislative Session Update
2. Comprehensive Annual Financial Report for Fiscal Year ended June 30, 2020
3. Presentation of Financial Performance for First Quarter Fiscal Year 2020
4. 2021 SAC Membership
5. Water Supply Update
6. Election of Chair and Vice Chair (or first of the year)

Upon motion duly made by Member Hayes and seconded by Member Kowitz, and carried by unanimous consent of the members present, the Committee approved the following agenda items for future meetings.

Upon motion duly made by Member Hayes and seconded by Member Melton, and carried by unanimous consent of the members present, the Committee approved to cancel the November 3, 2020 meeting.

10. STAFF ITEMS

Sonia Folsom, TMWA Standing Advisory Committee Liaison, informed the Committee she will be reaching out to members whose terms are expiring December 31, 2020 to confirm those who wish to continue serving on the Committee.

11. COMMITTEE ITEMS

Member Chambers announced it was his 91st birthday on October 7th. The Committee and staff wished him a happy birthday.

12. PUBLIC COMMENT

There was no public comment.

13. ADJOURNMENT

With no further items for discussion, Chair McGuire adjourned the meeting at 4:20 p.m. Approved by the Standing Advisory Committee in session on _____.

Sonia Folsom, Recording Clerk

**Member Melton was present for agenda items 5 thru 13 only.*

***Member McNeil was present for agenda items 6 thru 13 only*

To: TMWA Board of Directors
Thru: Mark Foree, General Manager
From: Matt Bowman, Financial Controller
Date: November 23, 2020
Subject: **Presentation on the Comprehensive Annual Financial Report for Fiscal Year ended June 30, 2020**

Recommendation

TMWA staff will present the Comprehensive Annual Financial Report (CAFR) to the Board for the fiscal year ended June 30, 2020 for approval by resolution and request direction to the Chief Financial Officer to forward the appropriate documentation to the State of Nevada Department of Taxation within the prescribed deadline.

Summary

Pursuant to NRS 354.624, TMWA is required to conclude an audit before November 30, 2020, and submit the audit report to the governing body not later than six months after the close of the fiscal year for which the audit is conducted.

The CAFR for the fiscal year ended June 30, 2020, includes the letter of transmittal, management's discussion and analysis, the audit report, the financial statements, required supplementary information, statistical schedules and the compliance section.

The financial statements include the Statement of Net Position (Balance Sheet) for June 30, 2020 and June 30, 2019, related Statements of Revenues, Expenses and Changes in Net Position (Income Statement), and the Statements of Cash Flows.

Audit Results

Of particular importance to TMWA is the auditor's opinion on the financial statements that TMWA was in compliance with *Generally Accepted Accounting Principles (GAAP)*, and Nevada Revised Statutes for the year ended June 30, 2020. The auditors had no findings in the financial statement audit.

Financial Performance

This staff report presents a summary of overall financial performance. Complete information is shown in the financial statements and the notes supporting the financial statements. Management's Discussion and Analysis (MD&A) in the financial section provides a detailed discussion of comparative financial performance with FY 2019.

TMWA experienced a solid financial year with a change in net position of \$51.6 million. Net cash flow reflected an increase of \$7.9 million. Cash balance at the end of the year was \$205.8 million. Preliminary results were presented to the Board in August, reflecting a change in net position of \$34.1 million. A handful of adjustments were made after that, most notably including \$20.1 million of developer infrastructure contributions.

TMWA ended the year with a senior lien debt service coverage ratio of 1.82x compared to 2.90x for FY 2019.

Fiscal Year 2020 Actual to Budget comparison

Operating revenue was \$1.6 million lower than budget primarily due to lower hydroelectric and other operating sales revenues. Water sales finished the year less than 1% under budget due to higher water consumption in the 4th quarter. Through the first three quarters, water sales were down 3% from budget due to mild summer/fall temperatures during the first half of the year, which led to lower water use. Hot and dry temperatures during the 4th quarter led to higher water usage, most notably reflected in residential water sales which were up approximately 15% during the quarter. This increase was offset slightly by a decrease in commercial water sales which were down approximately 25% during the 4th quarter due to COVID-19 related business closures. Although commercial water sales were down, these sales only account for approximately 12% of TMWA's overall water sales revenue, so the overall impact was minimal. Hydroelectric sales were lower due to lower river flows early in the year followed by the shutdown of the Washoe hydro plant due to a flume failure in April 2020. Other operating sales were lower due to lower than budgeted business service inspection fees.

Operating expenses for the year were \$5.6 million less than budget. Salaries and wages and employee benefits were both underbudget by \$1.7 million and \$0.8 million, respectively. These were lower primarily due to position vacancies during the year. There were six open positions at the end of the fiscal year. Additionally, TMWA had more labor-intensive capital projects ongoing during the year which drove more labor costs (both salaries/wages and benefits) to capital. Service and supplies expenses were \$3.3 million under budget, which was due to capitalizing rather than expensing a project and delaying another a project until FY2021. Also contributing to lower services and supplies costs were lower chemical and power costs during the year. Power consumption was lower due to continued energy optimization of TMWA's treatment plants, pump stations and well operations. Chemical costs were lower due to less turbidity events in the Truckee River during the year, which required less chemicals to treat the raw water. Lastly, all essential maintenance was performed, and there were no major unplanned expenses incurred during the year.

Net nonoperating revenue and expenses was \$3.3 million favorable to budget. This is primarily due to higher investment income. Investment earnings, which reflects interest and amortization of investment premiums and discounts, was higher than budget due to higher cash balances invested during the period and slightly higher invested rates. Net increase in fair value of investments is due to investments in securities at higher rates than current market rates. Market rates have dropped drastically in the second half of the fiscal year with the 10-year Treasury yield starting at 1.88% in January then ending June 30 at 0.66%.

Capital contributions were \$5.3 million above budget. This variance is mostly attributable to non-cash developer contributed assets which were \$4.4 million higher than budget. The

remaining \$0.9 million variance was due to higher developer cash contributions related to proceeds for the water resource sustainability program, facility charges, and contributions from other governments, offset by lower grant revenue and will-serve sales.

Total capital spending was approximately \$43.9 million for FY 2020, which was approximately \$14.6 million less than the \$58.5 million planned in the final capital budget. The underspend is due to various projects having been deferred to future years.

Total cash and investments as of June 30, 2020 was \$205.8 million or \$23.4 million more than budget. Net cash provided by operating activities was \$5.3 million higher than budget due to lower personnel costs and services and supplies expenses. Net cash used by capital and related financing activities was more favorable than budget by \$13.2 million. This is primarily due to \$14.6 million less in capital spending as discussed above, offset by \$2.5 million more in commercial paper note redemptions.

Fiscal Year 2020 Actual to Prior Year Comparison

Operating revenue ended the year \$1.0 million higher in FY 2020 compared to the prior year. This was driven by higher water sales and hydroelectric sales revenues offset by lower other operating sales. Water sales were slightly higher than last year due to several factors. First, active retail water services grew about 2% in FY 2020. This was offset by slightly less water use. Although the Washoe hydro plant was down for more than two months during FY 2020, hydroelectric revenue was still higher than the prior year due to the Fleish plant being offline in FY 2019 for the replacement of the tailrace. Other operating sales are lower due to lower inspection fee revenue and lower late fee revenue since TMWA did not charge late fees during the pandemic.

Operating expenses were \$1.6 million higher in FY 2020 compared to the previous year. Salaries and wages were slightly higher due to budgeted step and cost of living increases that occurred at the start of the fiscal year. Employee benefits saw the same trend, as expected. Offsetting those increases was a decrease in services and supplies costs resulting primarily from costs incurred in FY 2019 for dredging the outlet channel at Donner Lake and lower chemical and power costs in FY 2020. Lower chemical costs were due to better water quality as discussed above. Lower power costs were the result of efficiency gains in water delivery throughout the service territory. Offsetting these decreases were other various increases including an increase in insurance costs resulting from renewed policies and higher insurance rates.

Net nonoperating revenue and expenses was higher than prior year by \$117 thousand. This is mostly due to higher unrealized investment income. As discussed above, investment rates have dropped leading to unrealized gains in investments held at higher rates. Interest expense is also lower as expected due to lower variable interest on outstanding commercial paper and also lower principal balances on fixed rate debt due to scheduled principal payments.

Capital contributions were \$2.0 million higher in FY 2020 compared to the prior year. Increased contributions totaling \$3.4 million were recognized from developer infrastructure contributions, area fees, facilities fees, contributions from other governments and an insurance settlement. The developer fee increases were due to continued high volume of projects and increased area fees which were implemented in October 2019. Offsetting these increases were decreases of \$1.4 million from decreased grant revenue, water resource sustainability

(2020/2019) / water meter retrofit (2019) proceeds, and will-serve sales. The decrease in grant revenue is due to the timing of pending FEMA awards, and the decrease in resource sustainability/water meter retrofit and will-serve sales are due to a slightly lower volume of water resources sold/dedicated during fiscal year 2020 than the prior year.

Total cash and investments were \$7.9 million higher at June 30, 2020 compared to June 30, 2019. Unrestricted cash decreased \$4.4 million due primarily to an increase in restricted cash for current bond debt service related to the upcoming principal payment of \$10.5 million on TMWA's 2017 refunding bonds due in fiscal year 2021. See Note 6 to the financial statements for additional information TMWA's outstanding debt. This decrease was offset by overall net positive cash flows from TMWA's operations.

November 25, 2020

To the Board of Directors
Truckee Meadows Water Authority
Reno, Nevada

We have audited the financial statements of Truckee Meadows Water Authority (TMWA) as of and for the years ended June 30, 2020 and 2019, and have issued our report thereon dated November 25, 2020. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit under Generally Accepted Auditing Standards and *Government Auditing Standards*

As communicated in our letter dated September 15, 2020, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the TMWA's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of TMWA solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and other firms utilized in the engagement, if applicable, have complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the TMWA's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by TMWA is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during fiscal year 2020. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements are:

- Liability and related disclosures for postemployment benefits other than pensions (OPEB)
- Liability and related disclosures for pension benefits
- Receivable for delivered but unbilled water sales revenue
- Allocation of administrative costs to capital assets
- Valuation of developer dedicated infrastructure and other donated capital assets

Management's estimate of the actuarial accrued liability for OPEB is based on third party actuarial valuation. Management's estimate of the pension liability is based on actuarial valuation; which are calculated based on the employee information submitted by TMWA to the Public Employees' Retirement System of the State of Nevada (PERS). Management's estimate of the delivered but unbilled water sales revenue is based upon number of days in the cycle and water usage. Management's estimate of the allocation of administrative costs to capital assets is based upon the year-to-date construction salaries and wages relative to total construction and indirect salaries and wages. Management's estimate of the value of the developer dedicated infrastructure and other donated capital assets is based on acquisition value (as defined under GASB Statement No. 72) using engineering cost indices at the time of dedication or donation. We evaluated the key factors and assumptions used to develop these sensitive estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting TMWA's financial statements relate to:

- Long term debt obligations
- Obligations for pensions and other postemployment benefits

The financial statement disclosures are neutral, consistent, and clear.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. There were no uncorrect or corrected misstatements identified as a result of ur audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the financial statements or the auditor’s report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management that are included in the management representation letter dated November 25, 2020.

Management’s Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with TMWA, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting TMWA, and operating plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as TMWA’s auditors.

This report is intended solely for the information and use of the Truckee Meadows Water Authority Board of Directors and management of Truckee Meadows Water Authority and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>	<u>97</u>
Auditor's Comments	<u>99</u>

November 25, 2020

To the Board of Directors, Our Customers, and Bondholders:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) for the Truckee Meadows Water Authority (TMWA) for the fiscal year ended June 30, 2020. The purpose of the report is to provide the Board of Directors (Board), our customers, and bondholders as well as other interested parties with reliable financial information about TMWA. TMWA's Finance Department has prepared the CAFR in accordance with Generally Accepted Accounting Principles (GAAP).

Management assumes full responsibility for the completeness and reliability of the information contained in this CAFR, based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements.

Nevada Revised Statutes and bond covenants require that an independent certified public accounting firm selected by the Board audit TMWA's financial statements on an annual basis. Eide Bailly LLP, a firm of licensed certified public accountants, has audited TMWA's basic financial statements as of and for the fiscal years ended June 30, 2020 and 2019. The independent auditor's report is presented in the Financial Section of this report. TMWA complies with the Local Government Budget and Finance Act as embodied in Chapter 354 and Public Investments as embodied in Chapter 355 of the Nevada Revised Statutes.

The CAFR consists of four sections:

Introduction Section - This section is comprised of the letter of transmittal which contains information relative to TMWA's background, a listing of TMWA's principal officers, organizational chart and other relevant information to assist the reader in understanding TMWA's operations, financial condition, and accomplishments.

Financial Section - This section consists of TMWA's basic financial statements, supplementary financial information and independent auditor's report on the basic financial statements. This section also includes Management's Discussion and Analysis (MD&A), which provides a narrative overview and explanation of the results reflected in the basic financial statements. The financial statements presented in this section were prepared in accordance with GAAP. TMWA's financial activities are reported as an enterprise fund (proprietary fund type).

Statistical Section - This section is comprised of selected financial, operational and demographic information generally presented annually and includes statistics for the past ten years.

Compliance Section - This section consists of information regarding TMWA's compliance with state statutes, in particular, conformance with the Local Government Finance Act.

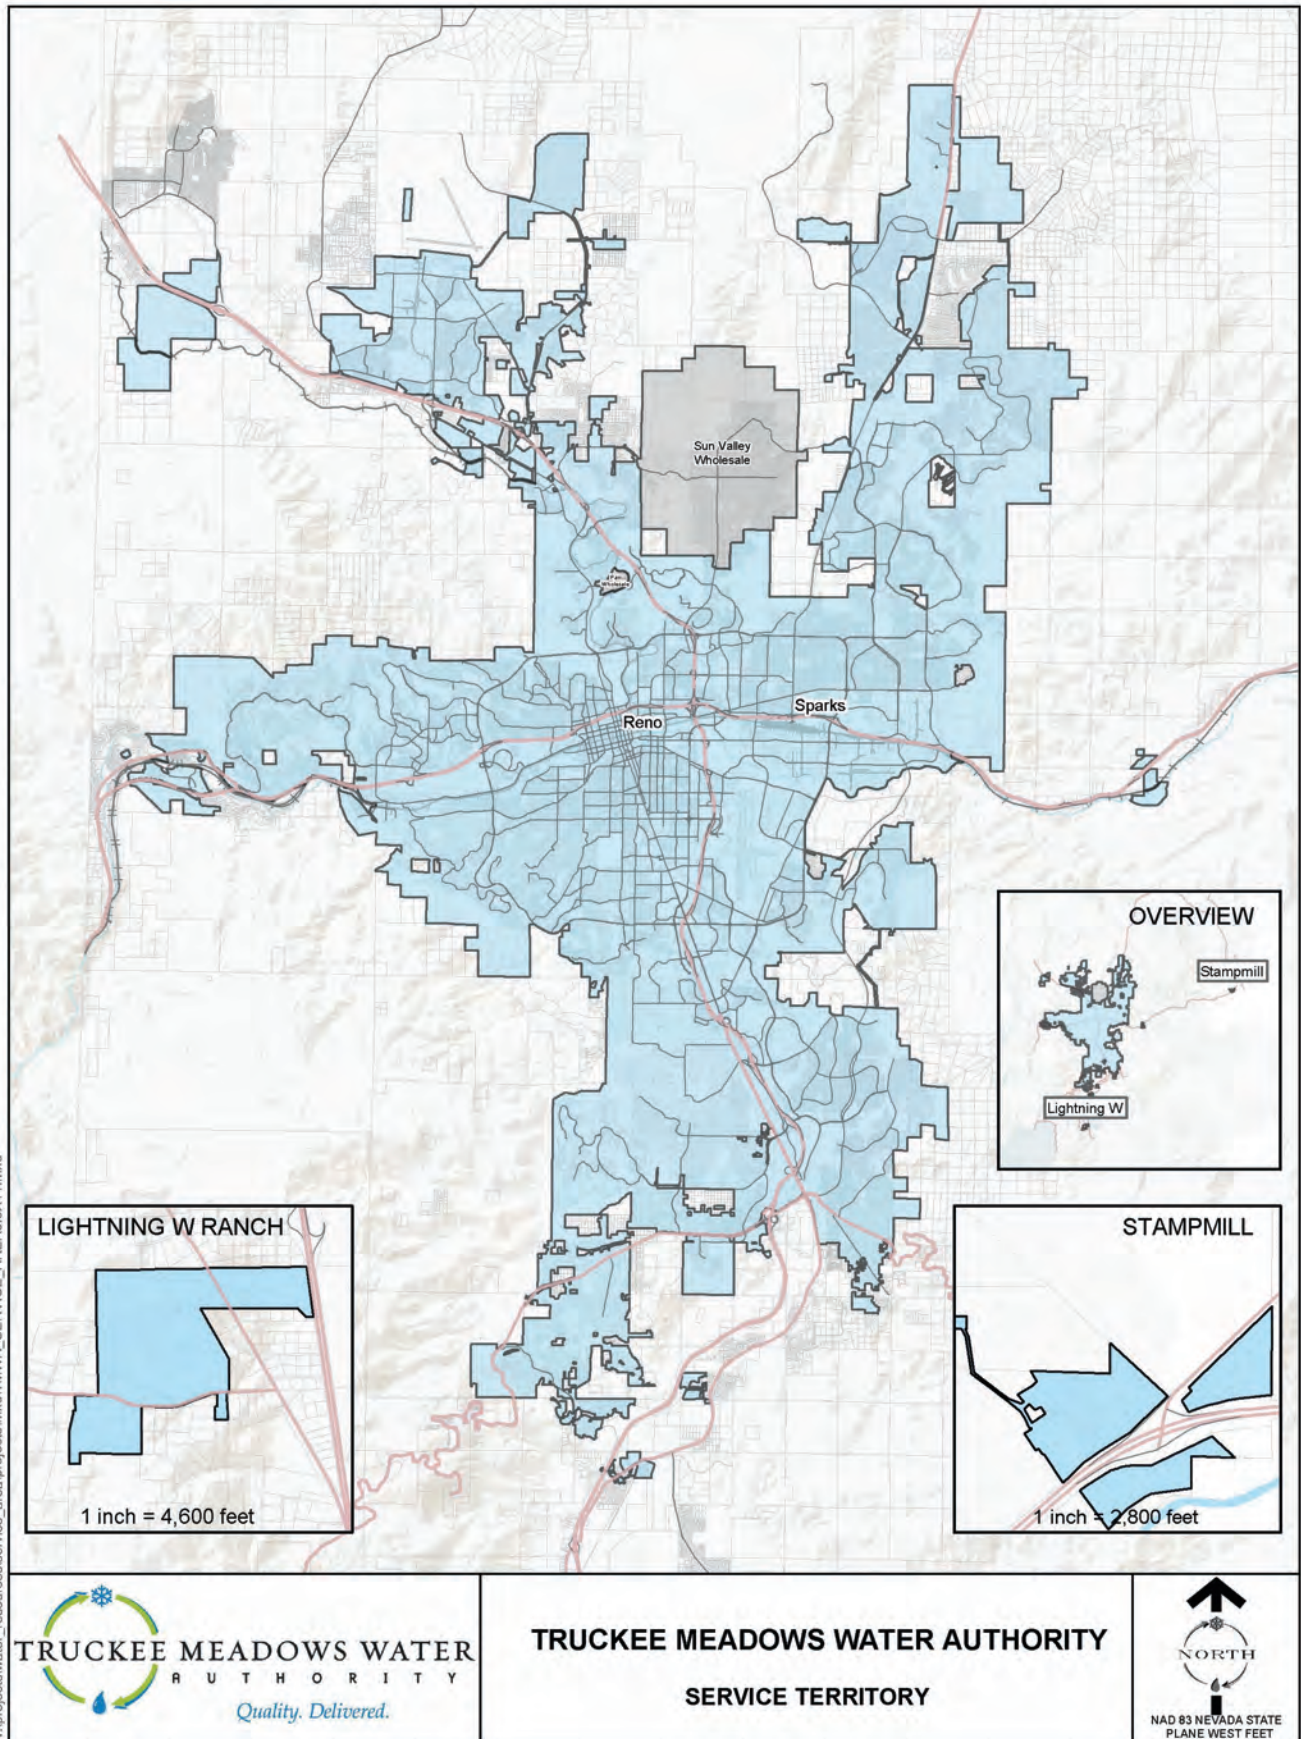

REPORTING ENTITY

TMWA was formed as a Joint Powers Authority (JPA) pursuant to Chapter 277 of the Nevada Revised Statutes and is a political subdivision of the State of Nevada. TMWA is separate from its member agencies: City of Reno, City of Sparks and Washoe County. TMWA was formed in November 2000 for the purpose of acquiring the assets of the water division of Sierra Pacific Power Co. (SPPCo), a subsidiary of Sierra Pacific Resources, now known as NV Energy, with the goal of retaining local control over the water resources of the area. TMWA took over the water system assets on June 11, 2001. Amendments to the JPA were approved by the Attorney General's Office of the State of Nevada effective February 3, 2010. The amendments were made in anticipation of the consolidation of TMWA, Washoe County's water utility and another water utility named South Truckee Meadows General Improvement District (STMGID). The consolidation of the water utilities occurred on January 1, 2015 with TMWA as the continuing entity. There are no component units associated with this financial reporting entity.

TMWA has no financial interdependence with its member agencies. TMWA has broad powers to finance, construct and operate the water system, for the diversion, treatment, distribution, and sale of treated water to retail and wholesale customers. TMWA has full authority to set water rates for services subject to the approval of the TMWA Board, without approval by other entities. TMWA is a tax-exempt entity for purposes of federal taxes and State of Nevada property and sales and use taxes, as well as other state taxes. TMWA pays property taxes in Nevada and Sierra Counties of California for the privilege of storing water in private and federal reservoirs. TMWA has no taxing authority.

TMWA has over 125,000 service connections and one wholesale customer. TMWA operates within the Truckee Meadows service area. TMWA has only one wholesale customer, the Sun Valley General Improvement District (SVGID) located north of the Reno-Sparks main metropolitan area. SVGID is wholly dependent upon TMWA water deliveries since this district has no source of water supply. There is one water delivery contract associated with this wholesale connection.

The map on the following page reflects the TMWA service territory.

The following graph depicts the proportion of operating revenues by class for fiscal year 2020:

TMWA Operating Revenues \$108.1 Million

The metering of the water system, which began under Sierra Pacific in 1995, presents various operational solutions for TMWA. These solutions present the opportunity to collect accurate data on water usage by customer class. This allows TMWA to make more accurate cost of service analyses, to make water rates more equitable across customer classes, and to better anticipate future water resource and water facility requirements. Since the acquisition of the water system, TMWA has metered nearly 100% of water services. Currently, there are less than 275 water services that do not have a meter installed and are billed on a flat rate. These represent problematic services with multiple customers on a single service line.

The Board adopted a goal in August 2003 of maintaining a senior lien debt coverage ratio of at least 1.5 times recurring revenues less operating expenses divided by annual debt service. This calculation excludes developer facility charges and other fees associated with new development. This coverage target is sufficient to meet minimum debt service coverage requirements, fund reconstruction of the water system on primarily a pay-as-you-go basis and manage TMWA’s senior lien bonding capacity to allow for potential future senior lien bond sales if necessary. These measures were deemed necessary to maintain water system infrastructure in a prudent manner and insure that TMWA's bondholders are adequately protected. There are no other

restrictions, commitments, or other limitations that would restrict the unrestricted cash assets for use in meeting TMWA's obligations. TMWA's senior lien coverage (excluding developer fees and charges) was approximately 1.82x and with certain developer fees and charges was approximately 2.44x as of June 30, 2020.

ECONOMIC OUTLOOK AND WATER RESOURCES

The Reno-Sparks metropolitan area enjoys a moderate climate, offers a wide variety of year-round recreational opportunities, and has a favorable tax structure. It is also centrally located in the Pacific region affording efficient distribution of goods throughout the western United States. Northern Nevada's favorable business tax environment nurtures steady growth in TMWA's service area and nearby communities in manufacturing, distribution, warehousing and industrial businesses. TMWA's service area has experienced steady growth since TMWA's inception in 2001, with overall population gains in Washoe County of nearly 40% percent.

On March 12, 2020, the Governor of the State of Nevada declared a state of emergency related to the COVID-19 pandemic. Following this initial declaration, from March 15th through March 20th, the Governor issued several Emergency Directives which required the closure of all public schools and non-essential business in the state until further notice to help mitigate the ongoing outbreak of the COVID-19 virus. In the weeks following the shutdown, as the spread of the virus slowed, non-essential businesses were permitted to re-open under certain guidelines including reduced capacity. The re-opening culminated with casinos permitted to resume modified operations on June 4th. The shutdown caused by the pandemic lead to layoffs and increased unemployment in Washoe County and across the state. Although the shutdown was lifted in June, continued restrictions on business operations aimed at limiting the spread of the virus have led to continued unemployment. As of the date of issuance of this CAFR, the pandemic is ongoing and future impacts to TMWA are unknown; however, future implications from the pandemic are not expected to be material to TMWA's financial statements.

Despite the economic hardships resulting from the pandemic, taxable sales in Washoe County continued to grow in fiscal year 2020 with an increase of 13.2 % from the prior year. Prior to fiscal year 2020, Washoe County experienced taxable sales increases of 3.5% and 6.8% in fiscal years 2019 and 2018, respectively. Prior to the COVID-19 pandemic and related shut-downs, unemployment rates had decreased significantly since the recession, from highs in 2011 of over 13% to an unemployment rate of 3.2% in February 2020 (before the economic shutdown).

TMWA's service area also continues to expand. The Board voted in October 2018 to approve annexation of a planned development north of the current service area for retail water service. If the development is completed as planned, it will add over 5,000 service connections. The developer will pay for all water line extensions and infrastructure needed to complete the project. In fiscal year 2019, TMWA completed the acquisition of West Reno Water Company's water system. This expanded TMWA's service area to the west where development is planned for over 3,500 service connections. Developer contributions and federal grants will pay for this expansion.

To ensure appropriate and responsible water resource availability for current and future water demands, TMWA prepares and frequently updates a detailed Water Resources Plan (WRP). In October 2020, the TMWA Board approved the most recent iteration of the WRP for the years 2020-2040. The WRP was previously updated in fiscal year 2016 and covered years 2016-2035. The WRP addresses current water resources, future water resources and water rights availability, defined drought standards and most recently, impacts of climate change. These analyses performed in the most recent WRP conclude that TMWA can utilize the aforementioned water resources to meet incremental water demands required by growth for the next twenty years and beyond. The focal point of the WRP is the population and water demand forecasts for the TMWA consolidated water utility service territory.

To complement this water resource planning effort, a comprehensive Water Facility Plan (WFP) for the years 2015-2035 was developed and adopted by the TMWA Board in October, 2019. For the first time, this WFP included detailed planning for the water systems formerly operated by Washoe County that were merged into TMWA on January 1, 2015. The original WFP was adopted by the TMWA Board in December 2004 and updated in 2010. The WFP evaluates the infrastructure required to supply, treat and deliver water to customers over the life of the plan and determines infrastructure requirements needed in the Capital Improvement Plan to serve growth based upon population and water demand forecasts in the WRP.

Since inception, TMWA has made and will continue to make strategic water rights acquisitions to ensure sufficient inventory of water rights are available to issue will-serve commitments for the foreseeable future. Any given year, as much as 80% or more of the water supply to TMWA's service area is supplied from surface water from the Truckee River. As such, TMWA played a critical role in negotiating and implementing the Truckee River Operating Agreement (TROA). TMWA is a primary signatory to the TROA along with the Pyramid Lake Paiute Tribe (PLPT), the States of Nevada and California, and the Federal Government. TROA is intended to provide TMWA customers with benefits regarding a new, revised operation of the Truckee River system that provides additional drought supplies for existing as well as new customers. These lengthy and complex negotiations, which include interstate allocations of Truckee River water rights, were concluded when TROA was signed by the aforementioned parties on September 6, 2008 at a signing ceremony in Reno. TMWA made available to the PLPT certain water rights that met requirements to put TROA into effect in October 2015. In November 2015, remaining related lawsuits were dismissed and TROA became effective December 1, 2015 providing significant additional drought resources for TMWA's service area and completing a multi-decade effort.

TMWA owns and operates 27,000 acre-feet of reservoir storage comprised of 9,500 and 17,500 acre-feet in Donner Lake and Independence Lake, respectively (both owned and controlled by TMWA). In addition to the owned storage, as a result of TROA, TMWA can access additional storage capacity in certain federal lakes and reservoirs, including Lake Tahoe. Currently, TMWA has a total of approximately 35,000 acre feet stored in these TMWA owned and federally operated reservoirs. Additionally, in August 2020, the TMWA Board approved a Memorandum of Understanding (MOU) between TMWA, Carson City and Storey County regarding TMWA having access to surplus water resources from the State of Nevada's Marlette Lake Water System. If this MOU results in a definitive agreement it would provide further water storage and resource availability for TMWA.

To further drought resiliency for the community that TMWA serves, TMWA constructed the North Valley's Integration Project which ties in the Fish Springs Ranch infrastructure into TMWA's North Valleys water system thereby providing access to approximately 8,000 acre feet of groundwater resources in the Honey Lake ground water basin which is located approximately 35 miles north of the Reno-Sparks metropolitan area. This project was completed in fiscal year 2017.

Since the implementation of TROA, TMWA's Privately Owned Stored Water (POSW) has more than doubled. Higher than average precipitation in Western Nevada during the winter of 2018/2019 allowed for TMWA's reservoirs to fill to near maximum capacity, which essentially guarantees normal river flows and water supply for the next two to three years. When combining TMWA's existing POSW surface water resources, the groundwater resources of the Honey Lake basin, the extensive drought storage benefits of TROA and the expansion of Aquifer Storage and Recovery (ASR) groundwater recharge efforts, the TMWA service area is well positioned with regards to drought resiliency.

Advanced Purified Water Program

TMWA is confident in its ability to meet the community's potable water needs for decades to come. Regardless, staff and leadership are dedicated to preparing for potential needs that are currently beyond the horizon. In this spirit, TMWA is participating in a multi-organizational effort to study the feasibility of producing Category A+ Advanced Purified Water (APW). This research collaboration is known as OneWater Nevada and includes TMWA; City of Reno; City of Sparks; Washoe County; the University of Nevada, Reno; Truckee Meadows Water Reclamation Facility; the Western Regional Water Commission, and the Northern Nevada Planning Commission.

The OneWater Nevada Study is evaluating the feasibility of using treated effluent from regional water reclamation facilities and applying a combination of advanced water treatment steps with natural groundwater purification processes to allow for aquifer storage and recovery of the APW. The treatment approach is regulated to rigorous state and federal drinking water standards and may potentially create a future supplemental water supply for potable or other high-quality uses.

TMWA has contributed to the operation and funding of OneWater Nevada since the effort began in 2016. This participation includes the construction and operation of a small-scale pilot treatment facility at the Reno Stead Water Reclamation Facility (RSWRF), hydrogeological studies at Bedell Flat and American Flat, management of groundwater recharge and recovery facilities, and overall technical and operational support. TMWA and City of Reno staff both have received Board direction to move forward with developing a Basis of Design Report for the RSWRF American Flat APW Aquifer Storage and Recovery Project. This initial effort is the first step in the demonstration project planning and design process and will further inform Reno and TMWA decision-makers of the overall project feasibility.

Water Resource Sustainability Program

In fiscal year 2019, the TMWA Board established the Water Resource Sustainability Program. This program provides funding for projects benefiting TMWA's water resources. Such projects would include expanded conjunctive use, aquifer storage and recovery, demonstration and validation of exceptional quality reclaimed water uses and any other project that enhances water resource sustainability and drought resiliency. This program is funded by a fee charged to new development of \$1,600 for every acre-foot of new surface water demand, replacing a prior fee (of \$1,830 per acre-foot of demand) formerly used to fund the Water Meter Retrofit Program.

WATER QUALITY

TMWA's highest priority is the protection of public health through modern water treatment techniques and water quality monitoring efforts. TMWA's primary source of water is the Truckee River, which sources at Lake Tahoe and other tributaries to the Truckee River, travels into Nevada through the Reno-Sparks Metropolitan area with the terminus of the river at Pyramid Lake, a distance of approximately 120 miles. The river's natural water quality is excellent; however, additional steps are taken to purify the water to meet safe drinking water standards that were set forth by the United States Department of Environmental Protection in the early 1990's. TMWA owns and operates the 90 million gallons per day (MGD) Chalk Bluff Water Treatment Plant and the 34.5 MGD Glendale Water Treatment Plant. In order to further diversify the water supply, TMWA is in the process of constructing a 4 MGD surface water treatment plant in the Southern service area. Attesting to TMWA's commitment to the protection of public health, TMWA's Chalk Bluff Water Treatment Plant received the Presidents Award from the Partnership for Safe Water in 2015. This prestigious recognition places the Chalk Bluff plant as one of 57 surface water treatment plants in the United States that have been so recognized. This recognition exemplifies TMWA staff's experience, passion, and commitment to producing and delivering outstanding water quality to customers. TMWA has since requalified for this award on an annual basis.

TMWA spends approximately \$1 million annually monitoring water quality by analyzing nearly 15,000 samples covering approximately 20,000 constituents at over 270 locations throughout the TMWA water system to insure compliance with all current drinking water standards promulgated by the United States Environmental Protection Agency and administered by the Nevada Department of Environmental Protection, Bureau of Safe Drinking Water.

WATER CONSERVATION

Efficient use of water within the Truckee Meadows extends this vital resource through periods of drought in this high desert climate. Therefore, water conservation has been, and will continually be, a high-priority at TMWA. Not only does conservation promote water-efficient behavior, such efforts also reduce peak-day demand and help defer future investments in costly improvements to infrastructure. The purpose of water conservation at TMWA is to promote smart use of water through several programs. During a drought, TMWA enhances its conservation efforts to ensure drought storage is sufficient over the drought period.

Water-Efficiency Codes

TMWA's Rule 2 provides water-efficiency codes to which customers must adhere. First, customers must not use water excessively (i.e., no waste). Second, TMWA requires that its customers adhere to a three-day-a-week irrigation schedule. This watering restriction helps prevent overwatering, as well as, reduces peak-day demand. Next, TMWA also requires no irrigation on Mondays to allow its system to recharge. Finally, TMWA requires no irrigation between noon and 6 p.m. from Memorial Day to Labor Day. These water-efficiency codes have been successful in managing customer demands over time.

The Water Meter Retrofit Program

Under TMWA's Water Meter Retrofit Program, unmetered services were retrofitted with a meter. Customers without meters pay a flat, monthly water rate: thus, they have no simple way to know their water usage and have less monetary incentive to conserve. Through a charge of \$1,830 for every acre-foot of new surface water demand, developers and others have provided funding for this program. Due to the success of this program, TMWA estimates less than 275 water services do not have a meter installed. In fiscal year 2019, the Water Meter Retrofit Program was replaced by the Water Resource Sustainability Program.

Water Pricing Structure

TMWA has an inverted, tiered-rate billing structure in which customers are charged increasing rates based on the amount of water they use. This billing structure provides a "price signal" to customers who cross into a higher tier, thereby encouraging efficient use of water.

Water Usage Review Program

The Water Usage Review Program assists TMWA customers with issues with their water meter or their water delivery system. When a water usage review is requested, TMWA staff will go onsite to check meter accuracy as well as detect for leaks in the customer's system. If a leak is detected, staff will work with the customer to attempt to identify the leak source. Staff will also review the usage history of the service to determine water usage behavior. Once completed, staff will notify the customer regarding any leaks that were detected, make recommendations on how to reduce water consumption, and teach customers how to check for leaks in the future.

Water Watcher Program

During the irrigation months (April to October), TMWA ramps up its conservation efforts by hiring additional seasonal conservation consultants. These consultants are trained to monitor the TMWA service territory and ensure its water-efficiency codes are being adhered to. They also respond to water waste reports by the public. They provide customers with information about TMWA's water-efficiency codes and identify any leaks or sources of water waste in outdoor irrigation. This program not only promotes efficient use of water, but also facilitates lower monthly bills.

Landscape Retrofit Program

The Landscape Retrofit Program promotes water-efficiency measures on municipal landscapes. The program includes financial support of landscape augmentation projects by institutional irrigators. Projects supported under this program promote replacement of turf grass with drought-tolerant vegetation, tree conservation, and smart landscaping educational programs.

Water Conservation Education Program

TMWA has a strong educational program designed to teach customers about the benefits of conservation and techniques that can help them use water responsibly. Educational initiatives include a free workshop series, direct communication (bill inserts, emails, in-person, etc.), public presentations and events, as well as, a multi-media campaign. TMWA also partners with other local organizations to provide grade school students in the Truckee Meadows with information regarding our water sources, water quality and watershed protection.

FINANCIAL INFORMATION

Internal Controls

TMWA employs various internal controls for the safeguarding of assets against losses from unauthorized use or disposition. TMWA's management is responsible for establishing and maintaining a system of internal controls designed to meet these objectives. Internal controls are also used to ensure that accounting data are compiled to allow for the preparation of financial statements in accordance with generally accepted accounting principles. The internal control structure is designed to provide reasonable assurance that these objectives are met. When establishing or reviewing internal controls, management weighs the cost to implement such controls over the benefits derived from implementing such controls. TMWA's management is constantly looking for opportunities to improve or redesign internal controls. A key component of TMWA's internal controls is its budgetary controls.

Budgetary Controls

TMWA is legally required to prepare, present to the TMWA Board, and adopt an annual budget in conformance with Chapter 354 of the Nevada Revised Statutes. These statutes comprise the Administration of Local Government Finance Act, which stipulates that the Board be presented with a tentative budget by April 15 of each year, with formal adoption of the budget after a public hearing in May of each year. The adopted budget is then filed with the Nevada Department of Taxation.

TMWA is also required to prepare a Capital Improvement Plan for review and formal acceptance by the TMWA Board. This plan is a comprehensive compilation of all capital projects and capital outlays expected during the ensuing five fiscal years. TMWA's Board is kept informed of TMWA's financial performance throughout the fiscal year at scheduled Board meetings. The General Manager, as the chief administrative officer, is authorized to approve all expenses that are within the approved budget. This authority is conferred upon the General Manager by virtue of the TMWA Cooperative Agreement between the City of Reno, City of Sparks, and the County

of Washoe. This arrangement allows for the efficient operation of TMWA. TMWA routinely prepares five-year financial forecasts in conjunction with the Capital Improvement Plan.

BUDGET ANALYSIS AND VARIANCES

Actual total operating revenues of \$108.1 million were \$1.6 million or 1.5% below the final budget for fiscal year ended June 30, 2020. Charges for water sales were \$102.5 million or 0.2% lower than budget. TMWA's water sales can fluctuate from budget based on weather conditions, especially during the spring and fall. During fiscal year 2020, water sales were lower than budget through the first three quarters due to a mild, cooler summer and fall. However, during the fourth quarter, weather conditions were warmer and dry which led to more water use by customers. Ultimately, fourth quarter water sales made up the deficit from the first three quarters and total water sales ended the year close to budget.

Total operating expenses of \$94.1 million were approximately \$5.6 million under the budget of \$99.8 million. Operating expenses before depreciation were \$5.8 million under budget or approximately 8.8% lower. Salaries and wages and employee benefits were both under budget by \$1.7 million and \$0.8 million or 7.5% and 6.5%, respectively. These were lower primarily due to position vacancies during the year. There were six open positions at the end of the fiscal year. Additionally, TMWA had more labor intensive capital projects ongoing during the year which drove more labor costs (both salaries/wages and benefits) to capital. Service and supplies expenses were \$3.3 million under budget, a variance of 10.7%. This was due to several factors, including two large project related expenses included in the budget. One of these projects was completed during the year but all costs were capitalized in accordance with appropriate accounting standards. The other project's expenses were delayed until fiscal year 2021. Also contributing to lower services and supplies costs were lower chemical and power costs during the year. Power consumption was lower due to continued optimization of TMWA's pump stations and well operations. Chemical costs were lower due to less turbidity events in the Truckee River during the year, which required less chemicals to treat the raw water. Lastly, all essential maintenance was performed, and there were no major unplanned expenses incurred during the year.

Total net nonoperating revenues and expenses were \$3.3 million favorable to budget. This variance was primarily due to higher investment earnings. TMWA maintained higher invested principal during the year due to lower capital spending and lower operating expenses. This gain was offset by losses on disposals of fixed assets.

Capital contributions of \$44.2 million were \$5.3 million above budget. This variance is mostly attributable to non-cash developer contributed assets which were \$4.4 million higher than budget. The remaining \$0.9 million variance was due to higher developer cash contributions related to proceeds for the water resource sustainability program, facility charges and contributions from other governments, offset by lower grant revenue and will-serve sales.

Total capital spending was approximately \$43.9 million for fiscal year 2020, which was approximately \$14.6 million less than the \$58.5 million planned in the final capital budget. The underspend is due to various projects having been deferred to future years.

As reflected in the Statement of Cash Flows, TMWA funded the operating budget, debt service requirements and capital spending from operating revenues, capital contributions and investment income. As of June 30, 2020, TMWA has approximately \$148.7 million of unrestricted cash and investments to fund future operations and capital projects.

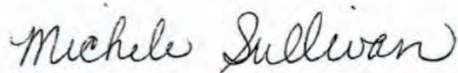

TMWA complied with bond covenants during fiscal year 2020 with respect to funding cash reserves. TMWA's renewal and replacement reserve is fully funded at \$10 million. The operations and maintenance reserve fund, which TMWA is required to maintain at a balance equal to one-sixth of TMWA's revised final operating budget, contained \$11.1 million as of June 30, 2020. As of June 30, 2020, TMWA retained a \$10.3 million water rate stabilization reserve of which \$0.5 million is restricted and \$9.8 million is included as a reservation of unrestricted net position.

ACKNOWLEDGEMENTS

The timely preparation of this report could not be done without the assistance of TMWA finance personnel, the management team and employees of TMWA. We would like to thank the Board, TMWA customers, and the development community for their commitment to the long-term operational and financial stewardship of TMWA.

Independent Auditor's Report

To the Board of Directors
Truckee Meadows Water Authority
Reno, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of Truckee Meadows Water Authority (TMWA), which comprise the statements of net position as of June 30, 2020 and 2019, and the related statements of revenues, expenses and changes in net position and statements of cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of TMWA, as of June 30, 2020 and 2019, and the respective changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 18 through 28, the schedules of changes in net OPEB liability and related ratios on pages 65 through 66, the schedules of contributions - OPEB on pages 67 through 68, the schedules of TMWA's share of net pension liability on page 69, and the schedules of TMWA contributions – Pension on page 70 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise TMWA's basic financial statements. The introductory section, the schedules of revenues, expenses and changes in net position – budget and actual, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules of revenues, expenses and changes in net position – budget and actual are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of revenues, expenses and changes in net position – budget and actual are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2020, on our consideration of TMWA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of TMWA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering TMWA's internal control over financial reporting and compliance.

The image shows a handwritten signature in black ink that reads "Eide Sully LLP". The signature is written in a cursive, flowing style.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of TMWA's Comprehensive Annual Financial Report presents management's discussion and analysis of TMWA's financial performance during the fiscal years ended June 30, 2020, June 30, 2019, and June 30, 2018. This section should be read in conjunction with the transmittal letter at the front of this report and TMWA's financial statements following this section.

Financial Position

Fiscal Year 2020 Summary

In the fiscal year ended June 30, 2020, total net position increased by approximately \$51.6 million, the result of operating income and capital contributions offset by nonoperating expenses.

Unrestricted current assets decreased by \$2.4 million from June 30, 2019. Unrestricted cash decreased \$4.4 million due primarily to an increase in restricted cash for current bond debt service related to the upcoming principal payment of \$10.5 million on TMWA's 2017 refunding bonds due in fiscal year 2021. See Note 6 to the financial statements for additional information TMWA's outstanding debt. This decrease was offset by overall net positive cash flows from all of TMWA's operations. See the Statement of Cash Flows for additional information.

In fiscal year 2020, TMWA booked a long-term asset related to its other post-employment benefit (OPEB) plans. This was the result of an actuarial analysis. Additional information on TMWA's OPEB plans can be found in Note 11 to the financial statements.

Most of TMWA's net position is in capital assets. Capital assets, net of accumulated depreciation increased by \$27.0 million in fiscal year 2020 as increases in capital assets from capital expenditures and contributions were greater than depreciation expense. Assets built by developers and contributed to TMWA were \$20.1 million. These assets are built to TMWA's standards and specifications. TMWA continued construction of a new treatment plant during fiscal year 2020. The Mt. Rose Water Treatment Plant is expected to be operational in fiscal year 2021. TMWA spent \$12.5 million on the project in fiscal year 2020 and \$23.5 million total through June 30, 2020. Depreciation expense was \$33.3 million.

Total current liabilities increased by \$0.8 million. The primary increase was due to an increase in the current portion of long-term debt for the first principal payment on the 2017 refunding bonds of \$10.5 million due July 1, 2020. Offsetting this increase were decreases due to the pay down of commercial paper of \$7.5 million and a \$2.3 million decrease in short term contracts and retention payable due to timing differences in the accounts payable cycle year over year.

Long term debt decreased \$18.4 million, mainly due to the reclass to current portion of debt discussed above. Additionally, long term debt decreased due to amortization of bond premiums of \$4.9 million and principal payments on debt of \$2.8 million.

Fiscal Year 2019 Summary

In the fiscal year ended June 30, 2019, total net position increased by \$50.0 million, the result of operating income, net nonoperating income and capital contributions.

Unrestricted current assets increased by \$7.0 million from June 30, 2018. Unrestricted cash increased \$5.4 million due to increases in investment income, higher operating revenues, and continued growth in the service area which increases cash contributions from developers. Total cash and investment balances, both restricted and unrestricted increased by \$4.4 million in fiscal year 2019.

During fiscal year 2019, TMWA booked additional liabilities of \$1.4 million related to retirement benefits. These accruals are based on an actuarial analysis. Detailed information about TMWA's postretirement benefits can be found in Notes 10 and 11 to the financial statements.

Most of TMWA's net position is in capital assets. Capital assets, net of accumulated depreciation increased by \$28.0 million in fiscal year 2019 as increases in capital assets from capital expenditures and contributions were greater than depreciation expense. Assets built by developers and contributed to TMWA were \$19.1 million. These assets are built to TMWA's standards and specifications. TMWA began construction in fiscal year 2019 on a new treatment plant and spent \$9.1 million on construction. Construction on this project should be complete in fall of 2020. Depreciation expense was \$32.8 million.

Current liabilities payable from unrestricted current assets decreased by \$9.8 million mainly due to decreases in commercial paper. TMWA paid off \$6.5 million of its commercial paper. Other current liabilities, including vendor accounts payable and due to other governments were \$4.8 million lower than prior year due to timing of payments. Offsetting these decreases was an increase of \$0.7 million in contacts and retention payable and an increase of \$0.7 million in interest payable at year end.

Long term debt decreased \$7.5 million, mainly due to amortization of bond premiums of \$4.7 million, and principal payments on debt of \$2.7 million.

Total Revenues for the Year Ended June 30, 2020

Total Revenues for the Year Ended June 30, 2019

Total Revenues for the Year Ended June 30, 2018

Results of Operations-Revenues

Fiscal Year 2020 Summary

For fiscal year 2020, total operating revenues increased \$1.0 million from fiscal year 2019. Water Sales were \$102.5 million, \$0.7 million or 0.7% greater than in fiscal year 2019. Water sales were higher year over year due to growth in the service area of approximately 2% offset by slightly lower water usage per capita. Hydroelectric Sales were \$0.7 million or 26.9% higher than fiscal year 2019, due to downtime for repairs at the hydroelectric plants in fiscal year 2019. Other operating revenue was \$0.4 million or 14.8% lower than the prior year due to inspection fees and late fee revenue. Inspection fees were lower due primarily to timing, as these fees can fluctuate with larger or smaller developer projects. Late fee revenue was lower due to TMWA stopping late fee assessments during the fourth quarter as a result of the COVID-19 pandemic. The assessment of late fees was continued in fiscal year 2021.

Investment earnings were \$4.1 million in fiscal year 2020, \$0.3 million lower than fiscal year 2019 due to lower invested rates during the year. Other nonoperating revenues increased \$0.6 million due to higher unrealized investment income.

For fiscal year 2020, capital contributions increased by \$2.0 million. Increased contributions totaling \$3.4 million were recognized from developer infrastructure contributions, area fees, facilities fees, contributions from other governments and an insurance settlement. The developer fee increases were due to continued high volume of projects and increased area fees which were implemented in October 2019. Offsetting these increases were decreases of \$1.4 million from decreased grant revenue, water resource sustainability (2020/2019) / water meter retrofit (2019)

proceeds, and will-serve sales. The decrease in grant revenue is due to the timing of pending FEMA awards and the decrease in resource sustainability/water meter retrofit and will-serve sales are due to a slightly lower volume of water resources sold/dedicated during fiscal year 2020 than the prior year.

Fiscal Year 2019 Summary

For fiscal year 2019, total operating revenues increased \$5.3 million from fiscal year 2018. Water Sales were \$101.8 million, \$6.3 million or 6.6% greater than in fiscal year 2018. Water Sales were higher mainly due to a 3% rate increase implemented in the first billing cycle of May 2018. Growth in the service area and higher usage per customer account for the additional increase. Hydroelectric Sales were \$1.20 million or 31.6% less than fiscal year 2018, due to downtime for repairs at the hydroelectric plants.

Investment earnings were \$4.4 million in fiscal year 2019, \$2.1 million higher than fiscal year 2018. This is mainly due to investments made at higher yields and higher cash balances. Other nonoperating revenues increased \$2.7 million from an increase in fair value of investments of \$2.8 million. In 2018, there was a gain on disposal of assets of \$0.1 million.

For fiscal year 2019, capital contributions increased by \$4.8 million. Increased developer contributed infrastructure at \$19.1 million, resulted in an increase of \$4.1 million due to a continued upward trend in construction in the service area. Contributions to the water meter retrofit program were \$1.4 million lower than 2018 due to decreased sales of surface water will-serve rights by \$2.0 million, as well as phase out of this fee for a new water sustainability fee implemented in January 2019. This new sustainability fee related to surface water will-serve rights resulted in \$0.7 million in contributions. Contributions from developer facility charges increased \$2.7 million. Grants income increased by \$0.5 million, and other capital contributions increased by \$0.2 million.

The table above and the graphs that follow represent the makeup of total operating and non-operating expenses for the years ended June 30, 2020, 2019 and 2018:

Total Expenses for the Year Ended June 30, 2020

Total Expenses for the Year Ended June 30, 2019

Total Expenses for the Year Ended June 30, 2018

Results of Operations-Expenses

Fiscal Year 2020 Summary

Operating expenses were \$94.1 million, \$1.6 million or 1.7% higher than fiscal year 2019. Spending on salaries and wages was \$0.5 million or 2.4% higher, due to a wage increase of approximately 3%, offset by a higher allocation to capital due to more labor intensive capital projects. Employee benefits were \$1.3 million or 12.7% higher than prior year due mainly to pension expense related to Nevada Public Employees' Retirement System (PERS). Higher pension expense was recognized as a result of prior year deferred outflows being recognized in fiscal year 2020. Spending on services and supplies was \$0.7 million or 2.5% less than prior year due primarily to one-time expenses incurred in fiscal year 2019 related to maintenance at the Donner Lake outlet channel.

Nonoperating expenses were \$0.1 higher compared to prior year. Lower interest expense was offset by higher asset disposal costs as more projects came into service during the year requiring more disposals/demolition of existing assets.

Fiscal Year 2019 Summary

Operating expenses were \$92.5 million, \$2.3 million or 2.5% higher than fiscal year 2018. Spending on salaries and wages was \$2.3 million or 12.3% higher, due to a wage increase of approximately 3%, additional employees of 7%, and promotions. Employee benefits were \$2.7 million or 20.9% lower mainly due to a \$4.6 million adjustment to pension expense related to GASB Statement No. 82 in 2018, offset by higher expenses related to increased headcount and wages. Spending on services and supplies was \$2.7 million or 10.5% more than prior year, mainly due to \$0.7 million in higher chemical costs, \$0.5 million in higher power costs, a \$0.4 million increase in donations to the Truckee River Fund, and general price increases in other operating supplies.

Net nonoperating expenses were unfavorable \$0.4 million as compared to prior year. Higher interest expense in 2019 by \$1.6 million was due to the 2018 bond refunding, which replaced a portion of TMWA's commercial paper with fixed rate bonds. TMWA refunded this commercial paper because bond rates were low, providing an opportunity to fix rates on balances in commercial paper that were not expected to be paid off in the next five years. Other nonoperating expenses were \$1.2 million favorable mainly due to decreases in fair value of investments in 2018 of \$0.9 million, higher amortization expense by \$0.7 million in 2018, offset by a loss on disposal off assets of \$0.2 million in 2019 and a \$0.2 million increase in other nonoperating expenses in 2019.

CAPITAL ASSETS

At June 30, 2020, TMWA's total capital assets were \$1,495.3 million before accumulated depreciation of \$487.6 million, for a net book value of \$1,007.7 million. Included in the total capital assets reported on the Statement of Net Position was \$58.3 million in construction work in progress.

At June 30, 2019, TMWA's total capital assets were \$1,435.0 million before accumulated depreciation of \$454.3 million, for a net book value of \$980.7 million. Included in the total capital assets reported on the Statement of Net Position was \$56.4 million in construction work in progress.

Detailed information about TMWA's capital assets can be found in Note 5 to TMWA's financial statements.

LONG-TERM DEBT

At June 30, 2020, TMWA had \$412.8 million in total reported debt outstanding. This amount reflects \$370.3 million in total outstanding principal indebtedness, and \$42.4 million net bond premium. Of the \$370.3 million in total reported debt outstanding, \$29.5 million was due within in one year and is classified as short term indebtedness. Included in short term debt is TMWA's tax exempt commercial paper notes (TECP). TMWA intends to re-market the \$16.0 million in outstanding tax-exempt commercial paper notes as maturities come due, but all the TECP is classified as a short term indebtedness since the TECP notes mature in less than or equal to 270 days.

Total outstanding principal indebtedness of \$370.3 million as of June 30, 2020 reflects a decrease of \$10.3 million or 2.7% from total outstanding principal of \$380.7 million as of June 30, 2019. Total outstanding principal indebtedness of \$380.7 million as of June 30, 2019 reflects a decrease of \$9.2 million or 2.4% from total outstanding principal of \$389.9 million as of June 30, 2018.

During fiscal years 2020 and 2019, TMWA maintained credit ratings from Standard and Poor's of AA+, outlook Stable, from Moody's of Aa2, outlook Stable, and from Fitch of AA-, outlook Positive. Subsequent to year end, in August 2020, Fitch upgraded TMWA's rating to AA, and maintained the outlook Positive.

Detailed information about TMWA's indebtedness can be found in Note 6 to TMWA's financial statements.

CONTACTING TMWA'S FINANCIAL MANAGEMENT

This financial report was prepared for the benefit of the customers, bond investors, and the Board of Directors of the Truckee Meadows Water Authority. The Comprehensive Annual Financial Report was prepared to provide interested parties with a general overview of the Truckee Meadows Water Authority's accountability for the financial resources it manages. For questions or additional information, please contact the Truckee Meadows Water Authority's Finance Department at P.O. Box 30013, Reno, Nevada 89520-3013.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the Truckee Meadows Water Authority (TMWA) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental entities. A summary of the more significant accounting policies applied in the preparation of the accompanying basic financial statements follows.

Reporting Entity and Purpose

TMWA is a Joint Powers Authority (JPA) formed in November 2000 under the Joint Powers Legislation of the State of Nevada, pursuant to a Cooperative Agreement among the City of Reno, Nevada, the City of Sparks, Nevada, and Washoe County, Nevada. TMWA was formed to purchase water assets (the Water System), undertake the water utility operations, and to develop, manage, and maintain supplies of water for the benefit of the Truckee Meadows communities. TMWA purchased the existing water system originally operated by Sierra Pacific Power Company (SPPCo), now known as NV Energy, Inc.

TMWA is governed by a seven-member Board of Directors (Board) appointed by:

- Reno City Council (3 seats)
- Sparks City Council (2 seats)
- Washoe County Commissioners (2 seats)

The cities and county representatives are not required to be elected officials. Modifications to the JPA were approved by the governing bodies in December 2009 which changed the at-large seat into a second seat for Washoe County. The amendments to the JPA were approved by the Attorney General's Office of the State of Nevada (State) effective February 3, 2010. The amendments were made in anticipation of the consolidation of TMWA and Washoe County's Community Services Department's water utility (WCWU) and the merger of another water utility named South Truckee Meadows General Improvement District (STMGID). The transfer of operations of WCWU and the merger of STMGID occurred on January 1, 2015 with TMWA as the continuing entity.

Basis of Accounting

TMWA's activities are accounted for as an enterprise fund (proprietary fund type). A fund is an accounting entity with a self-balancing set of accounts established to record the financial position and results of operations of the governmental entity. Activities of enterprise funds resemble activities of business enterprises; the purpose is to obtain and use economic resources to meet its operating objectives. The financial statements for TMWA are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recognized at the time they are earned, and expenses are recognized when the related liabilities are incurred.

A proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from an exchange transaction such as providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Nonoperating revenues and nonoperating expenses result from nonexchange transactions or ancillary services.

TMWA applies all applicable Governmental Accounting Standards Board (GASB) pronouncements in accounting and reporting for proprietary activities.

When both restricted and unrestricted resources are available for use, it is TMWA's policy to use unrestricted resources first, then restricted resources as required.

Budgets and Budgetary Accounting

TMWA adheres to the Local Government Budget and Finance Act (Act) incorporated within the Statutes of the State of Nevada. The Act and TMWA policy include the following major procedures to establish budgetary data:

- On or before April 15, the General Manager of TMWA submits to the Board a tentative budget for the fiscal year commencing the following July 1.
- Public hearings on the tentative budget are held in May.
- Prior to June 1, at the public hearing, the Board indicates changes, if any, to be made to the tentative budget and adopts a final budget by the favorable vote of a majority of the members of the Board. The final budget must then be forwarded to the Nevada Department of Taxation for final approval.
- Any revisions that alter total appropriations must be approved in advance by the Board. Formal budgetary integration is employed as a management control device during the year.
- Budgets are adopted on a basis consistent with GAAP. Appropriations lapse at year-end.
- In accordance with State statute, actual expenses may not exceed the sum of operating and nonoperating appropriations.

Cash and Investments

Cash balances are, to the extent practical, invested as permitted by law. Monies that are not required for immediate obligations are invested.

Investments authorized by State statutes and TMWA's bond resolutions include, but are not limited to, U.S. Treasury instruments, U.S. government agency securities, agency issued mortgage backed securities (FNMA, FHLMC, GNMA), corporate notes meeting certain rating standards, money market mutual funds meeting certain criteria, certificates of deposit, repurchase agreements, commercial paper meeting certain standards, bankers acceptances, long-term forward sale contracts and guaranteed investment contracts meeting certain rating standards, the State's Local Government Investment Pools (LGIP), medium-term obligations of municipal issuers in the State that meet certain rating standards, and asset backed securities that meet certain rating standards. Investments are reported at fair value, including the investment with LGIP which is the same as TMWA's proportionate share of the pool's fair value.

Restricted cash and investments are monies that are restricted by legal or contractual requirements.

Cash Equivalents

Cash equivalents include short-term highly liquid investments (3 months or less at time of purchase) that are both readily convertible to known amounts of cash, and so near their maturity that they present insignificant risk of changes of value. Based on the nature of the investment policies, all amounts are available on demand and are therefore, classified as cash equivalents on the Statements of Cash Flows.

Accounts Receivable

Accounts receivable is comprised of amounts due from TMWA's customers, net of an allowance for uncollectible accounts. Amounts due from TMWA's customers are comprised of amounts billed and an estimate of amounts earned but unbilled for water deliveries prior to fiscal year-end.

Restricted Assets

Certain proceeds of TMWA's water revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statements of Net Position because their use is limited by applicable bond covenants as follows:

- Current bond debt service - used to segregate resources accumulated for debt service payments over the next twelve months.
- Future bond debt service - used to report resources set aside to make up potential future deficiencies in the current bond debt service.
- Operations and maintenance - used to report resources set aside to subsidize potential deficiencies from TMWA's operation that could adversely affect debt service payments.
- Renewal and replacement - used to report resources set aside to subsidize potential deficiencies in cash flow for replacement of water facilities.
- Water rate stabilization - used to report resources set aside to stabilize customer rates if significant water revenue fluctuations occur.

Certain assets of TMWA are classified as restricted assets on the Statements of Net Position because they were derived from contributions from developers to fund the water meter retrofit and water resource sustainability programs adopted under Title II of Public Law 101-618.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items have been classified as current.

Capital Assets

All purchased property, plant, and equipment is stated at cost. TMWA capitalizes all assets with a cost of at least \$5,000 and a useful life greater than one year. The cost of maintenance and repairs that do not increase productive capacity or materially extend the life of an asset are not capitalized. Developer contributed capital assets are recorded at acquisition value in the year of contribution to TMWA.

Depreciation is computed using the straight-line method over the assets' estimated useful lives (in years) as follows:

	Years		Years
Distribution mains	60-75	Canals	15-50
Plants	15-50	Reservoirs	20-75
Services	15-60	Vehicles	5-10
Pump stations	10-60	Furniture and fixtures	10
Tanks	65-75	Computer hardware and software	3-5
Wells	7-50	Equipment	5-10
Pressure reducing stations	25	Administration buildings	50
Hydroelectric facilities	20-80		

Deferred Outflows/Inflows of Resources

In addition to assets, the Statements of Net Position report a separate section for deferred outflows of resources. This separate financial statement element represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. TMWA’s deferred outflows of resources is its deferred charge on refunding which results from the difference in the carrying value of refunded debt and its acquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. In addition, TMWA has deferred outflows of resources related to pensions and other post-employment benefits.

In addition to liabilities, the Statements of Net Position report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. TMWA has deferred inflows of resources related to bond refundings, pensions and other post-employment benefits.

Pensions

For purposes of measuring the net pension liability, deferred outflows and deferred inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees’ Retirement System of the State of Nevada (PERS) Base Plan (Base Plan) and additions to/deductions from Base Plan’s fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring TMWA's OPEB liability, deferred outflows and deferred inflows of resources, and OPEB expense, information about the fiduciary net position of TMWA's OPEB Plans and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by TMWA's OPEB Plans. For this purpose, TMWA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Compensated Absences

Employees are permitted to accumulate earned but unused vacation and sick pay benefits. The liability for compensated absences is accrued as amounts are earned by employees to the extent it is likely TMWA will ultimately pay those benefits. The liability is included in current and noncurrent liabilities in the accompanying Statements of Net Position.

Long-Term Debt

Long-term debt is reported at face value, net of any premium or discounts, in the Statements of Net Position. Premiums and discounts are amortized using the effective interest method over the life of the related debt. Debt issuance costs are expensed in the period incurred.

Classification of Revenues

Operating revenues consist of water sales, hydroelectric sales, and miscellaneous fee income. Nonoperating revenues consist essentially of income derived from investments and reimbursement for nonoperating activities. Developer facility charges, will-serve contributions, and other contributions reflect payments primarily for water service. Developer infrastructure contributions are an estimation of the value of infrastructure built by developers and permanently dedicated to TMWA.

Net Position

Net Position is displayed in three classifications:

- Net investment in capital assets. This component represents TMWA's net position in its capital assets. It reflects the cost of capital assets, less accumulated depreciation and less the outstanding principal of related debt, excluding unspent proceeds.
- Restricted. This component reflects the carrying value of assets, less related liabilities, that are restricted by law or by other externally imposed restrictions, such as bond covenants. Assets restricted only by TMWA or Board imposed limitations are not included in the calculation.
- Unrestricted. This component represents the remaining net position balance that is available to support TMWA's operations and capital asset acquisition/construction.

Reclassifications

Certain amounts in the prior year statements have been reclassified for comparison purposes to conform to current year presentation.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, which is effective for fiscal years beginning after June 15, 2019. Earlier application is encouraged. The objective of this Statement is to provide financial statement users with information about asset retirement obligations that were not addressed in GASB standards by establishing uniform accounting and financial reporting requirements for these obligations. The implementation of Statement No. 83 in fiscal year ended June 30, 2019 resulted in no impact to TMWA's financial statements.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*, which is effective for fiscal years beginning after December 15, 2019. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. TMWA does not expect the adoption of Statement No. 84 to have a material effect on TMWA's financial position, results of operation or cash flow.

In June 2017, the GASB issued Statement No. 87, *Leases*, which is effective for fiscal years beginning after June 15, 2021. Earlier application is encouraged. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases; enhancing the comparability of financial statements between governments; and also enhancing the relevance, reliability (representational faithfulness), and consistency of information about the leasing activities of governments. TMWA does not expect the adoption of Statement No. 87 to have a material effect on TMWA's financial position, results of operations or cash flow.

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interests - An Amendment of GASB Statements No. 14 and No. 61*, which is effective for fiscal years beginning after December 18, 2019. The primary objective of this Statement is to provide users of financial statements with essential information related to presentation of majority equity interests in legally separate organizations and requiring reporting of certain information about component units of the government. The implementation of Statement No. 90 in fiscal year ended June 30, 2020 resulted in no impact to TMWA's financial statements.

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*, which is effective for fiscal years beginning after December 15, 2021. Earlier application is encouraged. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. TMWA does not expect the adoption of Statement No. 91 to have a material effect on TMWA's financial position, results of operations or cash flow.

In March 2020, the GASB issued Statement No. 94, *Public-private and public-public partnerships and availability payment arrangements*, which is effective for fiscal years beginning after June 15, 2022. The primary objective of this Statement is to improve financial reporting concerning public-private and public-public partnerships by addressing certain accounting issues with these arrangements. TMWA does not expect the adoption of Statement No. 94 to have a material effect on TMWA's financial position, results of operations or cash flow.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, which is effective for fiscal years beginning after June 15, 2022. The primary objective of this Statement is to improve financial reporting concerning subscription-based information technology arrangements. This Statement will require governments to report such arrangements as intangible assets and corresponding liabilities in their statements of net position. TMWA is evaluating the impact of Statement No. 96, and does expect the adoption to have a material effect on TMWA's financial position, results of operations or cash flow.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

In June 2020, the GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. Certain aspects of the Statement are effective immediately and other aspects are effective for fiscal years beginning after June 15, 2021. The primary objective of this Statement is to improve reporting and comparability related to fiduciary component units, OPEB and Section 457 deferred compensation retirement plans. TMWA does not expect the adoption of Statement No. 97 to have a material affect on TMWA's financial position, results of operations or cash flow.

Note 2 - Compliance with Nevada Revised Statutes and the Nevada Administrative Code

TMWA conformed to all significant statutory constraints on its financial administration during the year.

Note 3 - Accounts Receivable, Net

Accounts receivable, net consisted of the following:

	June 30, 2020	June 30, 2019
Billed amounts	\$ 6,264,640	\$ 6,829,381
Earned, but unbilled amounts	9,062,242	8,149,678
	15,326,882	14,979,059
Allowance for uncollectible accounts	(396,971)	(341,817)
Accounts receivable, net	\$ 14,929,911	\$ 14,637,242

Note 4 - Cash and Investments

In accordance with State statutes, TMWA's cash is deposited with insured banks. All money deposited by TMWA that is not within the limits of insurance must be secured by collateral. TMWA's deposits are collateralized by the Office of the State Treasurer/Nevada Collateral Pool.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

As of June 30, 2020, TMWA had the following investments and maturities:

	Less than 1 Year	1 - 3 Years	4 - 5 Years	Total
Investments

Total Cash and Investments	\$ 80,696,149	\$ 64,413,606	\$ 52,708,815	\$ 197,818,570

Nevada Revised Statutes (NRS 355.170) set forth acceptable investments for Nevada governments. On September 20, 2017, the TMWA Board adopted an investment policy which extended TMWA's investment period from two years to five years. Nevada Revised Statutes and TMWA's investment policy set portfolio component thresholds to further limit its exposure to certain risks as set forth below.

Interest Rate Risk

Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from a rise in interest rates. This risk can be mitigated by diversification of durations of fixed rate investments held in the investment portfolio. As a means of limiting TMWA's exposure to this risk, TMWA constantly monitors the bond futures market and ladders investments accordingly to maximize investment returns while balancing the investment maturities with spending requirements. TMWA follows State statute limits of investment in obligations of an agency of the United States or a corporation sponsored by the United States government to those maturing within five years from the date of purchase.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations and is a function of the credit quality ratings of investments. TMWA follows State statute for reducing exposure to investment credit risk by investing in U.S. Agencies securities; “AAA” rated money market mutual funds that invest in securities issued by the U.S. Government or agencies of the U.S. Government, and the State of Nevada Local Government Pooled Investment Fund (LGIP). TMWA has a debt reserve fund with LGIP, which is an unrated external investment pool with investment duration of 130 days at June 30, 2020, and 116 days at June 30, 2019. Investments in U.S. Agencies are rated “AAA” and when investments are made in corporate commercial paper these investments are rated “A-1+”/“P-1”. Investments in corporate notes are rated “A” or better.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer. Securities held by TMWA or by TMWA’s custodians are diversified to eliminate risk of loss from over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities.

At June 30, 2020 and 2019, the following investments by issuer exceeded 5% of TMWA’s total investments:

	June 30, 2020	
U.S. Treasuries	\$ 43,097,910	22 %
Federal Home Loan Bank	31,658,081	16 %
Federal National Mortgage Association	30,960,843	16 %
Federated Hermes Treasury Obligations	20,042,429	10 %
Federal Home Loan Mortgage Corporation	17,278,214	9 %
Federal Farm Credit Bank	10,986,030	6 %
	June 30, 2019	
U.S. Treasuries	\$ 52,650,704	27 %
Federal Home Loan Bank	41,143,051	21 %
Federal National Mortgage Association	17,759,156	9 %
Federal Home Loan Mortgage Corporation	15,843,376	8 %
Federal Farm Credit Bank	15,184,737	8 %

Investments Measured at Fair Value

TMWA categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. TMWA does not have any investments that are measured using Level 3 inputs.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

TMWA has the following recurring fair value measurements as of June 30, 2020:

	Fair Value	Fair Value Measurements Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments by fair value level			
U.S. Treasuries	\$ 43,097,910	\$ 43,097,910	\$ —
U.S. Agencies	94,068,191	—	94,068,191
Money Market Mutual Funds	29,054,454	29,054,454	—
Certificates of Deposit	11,541,810	—	11,541,810
Corporate Commercial Paper	2,529,545	—	2,529,545
Corporate Notes	18,799,389	—	18,799,389
	199,091,299	\$ 72,152,364	\$ 126,938,935
LGIP*	2,423,505		
	<u>\$ 201,514,804</u>		

TMWA has the following recurring fair value measurements as of June 30, 2019:

	Fair Value	Fair Value Measurements Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments by fair value level			
U.S. Treasuries	\$ 52,650,705	\$ 52,650,705	\$ —
U.S. Agencies	93,953,197	—	93,953,197
Money Market Mutual Funds	22,617,511	22,617,511	—
Certificates of Deposit	16,542,868	—	16,542,868
Corporate Commercial Paper	7,834,444	—	7,834,444
	193,598,725	\$ 75,268,216	\$ 118,330,509
LGIP*	2,376,329		
	<u>\$ 195,975,054</u>		

*LGIP is reported at Net Asset Value. TMWA is able to withdraw funds on a daily basis and has no outstanding, unfunded commitments as of June 30, 2020 and 2019.

The following is a description of the valuation methodologies used by TMWA for its Level 2 assets:

U.S. Agencies – Valued using matrix pricing and market corroborated pricing models.

Corporate commercial paper – Valued based on cash flow models that maximize the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issues with similar credit ratings.

Certificates of deposit - Valued using interactive date pricing and reference data.

Corporate Notes - Valued using institutional bond quotes based on various market and industry inputs.

Note 6 - Long-Term Debt

On June 8, 2005, TMWA entered into a loan contract with the State of Nevada Drinking Water State Revolving Fund (DWSRF) to fund TMWA's Arsenic Mitigation Project. TMWA made draws on this contract as construction proceeded, totaling \$4,669,565. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan will be payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds, and any future senior lien bonds.

On August 15, 2006, TMWA began an inaugural Tax-Exempt Commercial Paper (TECP) program that originally authorized the issuance of up to \$160,000,000 in TECP notes. The first draw was on August 16, 2006 for \$30,000,000, and a second draw was on December 5, 2006 for \$13,000,000. The proceeds from the first two draws were used solely to purchase water rights for future sale of will-serve commitments to developers. A third draw was made on February 15, 2008 for \$25,000,000 to fund certain construction projects on an interim basis. A fourth draw was made on June 28, 2011 for \$11,400,000 for the purpose of redeeming the remaining outstanding Series 2001A Bonds which were callable on July 1, 2011. TMWA redeemed the \$11,400,000 issued in the fourth draw on December 10, 2012. TMWA issued a fifth draw for \$27,000,000 on December 17, 2014 to refund, on an advanced basis, \$26,100,000 in Washoe County water obligations to effect the water utility consolidation between Washoe County and TMWA with proceeds transferred to escrow on the date of issuance. The funds in escrow were distributed to the Washoe County bondholders as of July 1, 2015, the call date of the bonds. On various dates in fiscal year 2016, TMWA redeemed \$7,200,000. On September 7, 2016, TMWA redeemed \$4,400,000. On September 5, 2017, TMWA redeemed \$9,200,000, and on May 15, 2018 TMWA redeemed \$44,200,000 as part of the Series 2018 Water Revenue Refunding (see below). This left an outstanding balance of \$30,000,000 as of June 30, 2018. On September 4, 2018, TMWA redeemed \$6,500,000. This left an outstanding balance of \$23,500,000 as of June 30, 2019. On October 2, 2019, TMWA redeemed \$5,000,000. On March 3, 2020, TMWA redeemed \$2,500,000. This left an outstanding balance of \$16,000,000 as of June 30, 2020. TMWA intends to pay off this balance over the next three years using proceeds from will-serve sales. Subsequent to fiscal-year end 2020, in the first quarter of fiscal year 2021, TMWA paid off \$1,500,000 of the \$16,000,000 outstanding. TMWA has remaining authorization to issue \$53,600,000 as of June 30, 2020 and 2019. The TECP program is facilitated by a direct pay letter of credit (Liquidity Facility) between TMWA and Wells Fargo Bank. The stated amount of the Liquidity Facility as of June 30, 2020 is \$17,420,274 reduced from \$32,663,014 on March 4, 2020. The average interest rate on the outstanding balance of TECP as of June 30, 2020 was 0.15% and June 30, 2019 was 1.44%. As of June 30, 2020, the total TECP notes outstanding were comprised of three tranches ranging from \$2,000,000 to \$8,318,000 with maturities ranging from 62 to 63 days. As of June 30, 2019, the total TECP notes outstanding were comprised of five tranches ranging from \$412,000 to \$12,870,000 with maturities ranging from 28 to 93 days.

On July 25, 2009, TMWA entered into a loan contract with the DWSRF, the 2009A DWSRF Loan, to partially fund TMWA's Mogul Bypass Siphon Project. The loan was provided through the American Recovery and Reinvestment Act (ARRA) stimulus funding provided by the federal government. TMWA made draws on this contract as construction proceeded, totaling \$2,401,120. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan will be payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the senior lien 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds, and any future senior lien bonds.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

On February 11, 2010, TMWA entered into a loan contract with DWSRF, the 2010A DWSRF Loan, to fund TMWA's Glendale Water Treatment Plant Diversion Project. Total construction costs for the Glendale Diversion Project were less than expected. Consequently, TMWA requested and was granted that the remaining loan authorization be able to fund final improvements on the Highland Canal. During fiscal year 2013, the loan was finalized in the total amount of \$4,381,614. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan are payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the, senior lien 2015A Refunding Bonds the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds as well as any future senior lien bonds.

On December 31, 2014, TMWA entered into a loan contract with the DWSRF, to transfer the remaining loan balance of the Washoe County Water Utility 2005 DWSRF loan to TMWA. The transfer was in conjunction with the transfer of operations of the Washoe County Water Utility into TMWA on January 1, 2015. The loan contract was entered into by the Washoe County Water Utility to construct the Longley Lane Water Treatment Facility, a facility that was transferred to TMWA. The loan balance of \$9,109,437 was transferred to TMWA under the same terms that existed with Washoe County as the TMWA 2014 DWSRF loan. The original balance of the loan was \$14,162,268. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan are payable solely from and secured by an irrevocable pledge of the net revenues, derived from the operation of the Water System. When it was transferred this loan had a remaining term of 10 years. This loan is subordinate to the senior lien 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds as well as any future senior lien bonds.

On April 14, 2015, TMWA issued \$28,750,000 in Series 2015A Refunding Bonds which constitute special limited obligations of TMWA. These bonds were sold to refund on a current basis \$33,050,000 in maturities of the Series 2005A Bonds. The proceeds of the refunding bond issue were placed in an irrevocable trust for the purpose of generating financial resources to defease the callable portion of the Series 2005A Bonds. The Series 2005A refunded bonds are considered to be defeased and the liability has been removed from TMWA's Statement of Net Position. The net carrying amount of the old debt exceeded the reacquisition price by \$140,645. The unamortized balance is being amortized as a component of interest income over the remaining life of the old and new debt, which has the same remaining life. This current refunding was undertaken to reduce total debt service payments over approximately 21 years by \$6,563,813 and resulted in an economic gain of \$4,575,309. The funds held in the irrevocable trust were distributed to 2005A bondholders as of July 1, 2015, the call date of the 2005A Bonds.

On July 30, 2015, TMWA entered into a loan contract with the DWSRF, the 2015B DWSRF Loan, to fund TMWA's surface and groundwater supplies in the North Valleys particularly the Stead area, Lemmon Valley area, and North Virginia Corridor. TMWA made draws on this contract as construction proceeded, totaling \$8,971,562. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan are payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the senior lien 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds as well as any future senior lien bonds.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

On April 12, 2016, TMWA issued \$124,790,000 in Series 2016 Water Revenue Refunding Bonds which constitute special limited obligations of TMWA. These bonds were sold to refund \$148,015,000 in maturities of the Series 2006 Bonds. The proceeds of the refunding bond issue were used to purchase U.S. Government securities that were placed in an irrevocable trust for the purpose of generating financial resources for the future debt service payments of the refunded Series 2006 Bonds. As a result, the refunded bonds were considered to be defeased and the liability has been removed from TMWA's Statements of Net Position. The reacquisition price exceeded the net carrying amount of the old debt by \$3,092,808. The unamortized balance is being amortized as a component of interest expense over the original life of the old debt, which has a shorter remaining life in comparison to the remaining life of the refunding bonds. This current refunding was undertaken to reduce total debt service payments over 22 years by \$4,332,501, and resulted in an economic gain of \$15,025,124. The funds in the irrevocable trust were distributed to 2006 bondholders as of July 1, 2016, the call date of the 2006 Bonds.

On April 11, 2017, TMWA issued \$147,415,000 in Series 2017 Water Revenue Refunding Bonds which constitute special limited obligations of TMWA. These bonds were sold to refund \$214,290,000 in maturities of the Series 2007 Bonds. The proceeds of the refunding bond issue along with \$32,865,308 from TMWA's cash balances were used to purchase U.S. Government securities that were placed in an irrevocable trust for the purpose of generating financial resources for the future debt service payments of the refunded Series 2007 Bonds. As a result, the refunded bonds were considered to be defeased and the liability has been removed from TMWA's Statements of Net Position. The reacquisition price exceeded the net carrying amount of the old debt by \$289,903. The unamortized balance is being amortized as a component of interest income over the remaining life of the old and new debt, which has the same remaining life. This current refunding was undertaken to reduce total debt service payments over 14 years by \$15,301,534, and resulted in an economic gain of \$15,948,105. The funds in the irrevocable trust were distributed to 2007 bondholders as of July 1, 2017, the call date of the 2007 Bonds.

On May 15, 2018, TMWA issued \$38,835,000 in Series 2018 Water Revenue Refunding Bonds which constitute special limited obligations of TMWA. The proceeds of the bond issue of \$44,601,977 were used to refund or redeem \$44,200,000 in maturities of TECP (see above). This transaction was executed to provide a fixed rate of interest expense over the life of the refunding, which was effected by replacing variable rate TECP debt with fixed rate bonds.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

Annual debt service requirements to maturity for TMWA's bonds and commercial paper are as follows:

Year Ending June 30,	Direct Borrowings		Bonds and TECP		Total Debt Service
	Principal Payment	Interest Payment	Principal Payment	Interest Payment	
2021	\$ 1,955,868	\$ 464,854	\$ 27,504,999	\$ 16,460,150	\$ 46,385,871
2022	2,009,193	411,528	11,590,001	15,950,000	29,960,722
2023	2,064,081	356,640	12,615,000	15,344,875	30,380,596
2024	2,120,578	300,143	13,245,000	14,698,375	30,364,096
2025	2,178,730	241,991	13,920,000	14,019,250	30,359,971
2026-2030	4,584,917	734,019	79,740,000	58,892,500	143,951,436
2031-2035	2,827,456	247,455	127,175,000	33,713,375	163,963,286
2036-2040	303,515	3,976	66,510,000	7,817,250	74,634,741
Total	\$ 18,044,338	\$ 2,760,606	\$ 352,300,000	\$ 176,895,775	\$ 550,000,719

Because commercial paper notes have a maturity of less than 270 days, they are presented as maturing in the current year. It is the intent of TMWA that as TECP matures, the interest and principal will be remarketed into new commercial paper notes.

Note 7 - Net Position

Restricted Net Position

TMWA records the following restrictions of net position:

Restricted in accordance with bond covenants: TMWA's bond covenants require certain restrictions of TMWA's net position for operations and maintenance, debt service, renewal and replacement, and water rate stabilization.

Restricted for water meter retrofit program: This restriction was created to segregate the portion of net position derived from contributions made by developers to fund the water meter retrofit program.

Restricted for water resource sustainability: Adopted by the TMWA Board in January 2019, this restriction replaced the water meter retrofit program and was created to segregate the portion of net position derived from contributions made by developers to fund certain projects that are intended to benefit TMWA's long-term water resources sustainability.

Restricted in accordance with the STMGID merger agreement: The merger agreement with STMGID required that certain funds transferred to TMWA by STMGID may only be used for three purposes: a) payment of contingent liabilities b) construction of facilities to move surface water into the STMGID water utility, and c) replacement, rehabilitation and/or repair of the STMGID facilities. The restricted amount of \$5,299,289 and \$6,214,654 as of June 30, 2020 and 2019, respectively, is included in the amount restricted for renewal and replacement.

Board Designation

On September 19, 2018, the Board adopted a resolution to designate 3% of total projected water sales for the most recent three year forecast as a rate stabilization fund. This amount was \$9,764,911 and \$9,544,274 as of June 30, 2020 and 2019, respectively. This designation is not reflected as restricted net position but is considered a designated portion of unrestricted net position.

Note 8 - Contingent Liabilities

Mt. Rose Fan Domestic Well Program: As part of the transfer of operations with the Washoe County water utility, TMWA also agreed to continue Washoe County's Mt. Rose-Galena Fan Domestic Well Mitigation Program, which provides for the reimbursement of specific well deepening costs or water system connection charges, incurred by property owners within the program area, whom experienced or will experience an "unreasonable adverse effect" as a result of municipal groundwater pumping. TMWA's continuation of the program provides continuity for domestic well owners in the specific program and provides protection of shared groundwater resources in the program area. TMWA's budget includes projected costs for administering the domestic well mitigation plan.

Note 9 - Risk Management

TMWA is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. TMWA is responsible for group health insurance premiums payable to the City of Reno for coverage in the City's self-funded health insurance program. All other risks are covered by commercial insurance purchased from independent third parties. There have been no settlements in excess of insurance coverage for the past three years.

Note 10 - Defined Benefit Pension Plan and Other Employee Benefits**Defined Benefit Pension Plan***Plan Description*

TMWA contributes to the Public Employees' Retirement System of the State of Nevada (PERS). PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system. PERS was established by the Nevada Legislature in 1947, effective July 1, 1948. PERS is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits Provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering PERS on or after January 1, 2010 and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering PERS on or after January 1, 2010, there is a 2.5% multiplier. Members entering PERS on or after July 1, 2015 have a 2.25% multiplier. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting

Members entering PERS prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, or at any age with thirty years of service. Members entering PERS on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with ten years of service, or any age with thirty years of service. Members entering PERS on or after July 1, 2015 are eligible for retirement at age 65 with five years of service, or at age 62 with ten years of service, or at age 55 with thirty years of service, or at any age with thirty-three and a third years of service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Members become fully vested as to benefits upon completion of five years of service.

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans.

Contributions are shared equally by employer and employee. Employees can take a reduced salary and have contributions made by the employer (EPC) or can make contributions by a payroll deduction matched by the employer. TMWA contributes under the employer-pay option.

PERS' basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund PERS on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

The employer-pay contribution (EPC) rate was 29.25% and 28.00% for fiscal years June 30, 2020 and 2019, respectively.

TMWA's contributions were \$3,156,332 and \$2,865,963 for the years ended June 30, 2020 and 2019, respectively.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

PERS Investment Policy

PERS’ policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of PERS.

The following was the PERS Board adopted policy target asset allocation as of June 30, 2019:

	<u>Target Allocation</u>	<u>Long-Term Geometric Expected Real Rate of Return</u>
Domestic Equity	42%	5.50%
International Equity	18%	5.50%
Domestic Fixed Income	28%	0.75%
Private Markets	12%	6.65%

The following was the PERS Board adopted policy target asset allocation as of June 30, 2018:

	<u>Target Allocation</u>	<u>Long-Term Geometric Expected Real Rate of Return</u>
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed Income	30%	0.25%
Private Markets	10%	6.80%

Net Pension Liability

At June 30, 2020, TMWA reported a liability for its proportionate share of the net pension liability of \$40,582,611. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

At June 30, 2019, TMWA reported a liability for its proportionate share of the net pension liability of \$37,658,701. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

TMWA’s proportion of the net pension liability was based on TMWA’s share of contributions in PERS pension plan relative to the total contributions of all participating PERS employers and members. At June 30, 2019 and 2018, TMWA’s proportion was 0.2976 and 0.2761 percent, respectively, representing an increase of 0.0215 percent and a decrease of 0.0045 percent from its proportion measured at June 30, 2018 and 2017, respectively.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

Pension Liability Discount Rate Sensitivity

The following presents the net pension liability of TMWA measured as of June 30, 2019 and 2018, calculated using the discount rate of 7.50% and what TMWA’s net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the discount rates used in each year's valuation:

	1% Decrease in Discount Rate (6.50%)	Discount Rate (7.50%)	1% Decrease in Discount Rate (8.50%)
Net Pension Liability, June 30, 2019	\$ 62,837,262	\$ 40,582,611	\$ 22,083,349
	1% Decrease in Discount Rate (6.50%)	Discount Rate (7.50%)	1% Decrease in Discount Rate (8.50%)
Net Pension Liability, June 30, 2018	\$ 57,427,995	\$ 37,658,701	\$ 21,231,569

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website, www.nvpers.org.

Actuarial Assumptions

TMWA’s June 30, 2020 net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. TMWA’s June 30, 2019 net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	June 30, 2019	June 30, 2018
Inflation Rate	2.75%	2.75%
Payroll Growth	5.50% including inflation	5.00% including inflation
Investment Rate of Return	7.50%	7.50%
Productivity Pay Increase	0.50%	0.50%
Projected Salary Increases	4.25% to 9.15%, depending on service. Rates include inflation and productivity increases	4.25% to 9.15%, depending on service. Rates include inflation and productivity increases
Consumer Price Index	2.75%	2.75%
Other Assumptions	Same as those used in the June 30, 2019 funding actuarial valuation	Same as those used in the June 30, 2018 funding actuarial valuation

Mortality rates for non-disabled regular members were based on the RP-2014 Combined Healthy Annuitant Table projected to 2020 with Scale MP-2016, set forward one year for spouses and beneficiaries. The mortality table used in the actuarial valuation to project mortality rates for all disabled regular members is the RP-2014 Disabled Retiree Table, set forward four years.

Actuarial assumptions used in the June 30, 2019 and 2018 valuations were based on the results of the experience review issued October 16, 2017.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan’s current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019 and June 30, 2018.

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the years ended June 30, 2020 and 2019, TMWA recognized pension expense of \$9,031,335 and \$6,571,967, respectively.

At June 30, 2020, TMWA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,521,853	\$ 1,170,593
Changes in assumptions or other inputs	1,651,600	—
Net difference between projected and actual earnings on pension plan investments	—	2,018,907
Changes in TMWA’s proportion and differences between TMWA's contributions and TMWA's proportionate contributions	5,551,365	402,532
TMWA contributions subsequent to the measurement date	3,156,332	—
	\$ 11,881,150	\$ 3,592,032

Deferred outflows of resources of \$3,156,332 resulted from TMWA contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

At June 30, 2019, TMWA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,179,759	\$ 1,748,035
Changes in assumptions or other inputs	1,984,404	—
Net difference between projected and actual earnings on pension plan investments	—	179,295
Changes in TMWA’s proportion and differences between TMWA's contributions and TMWA's proportionate contributions	4,516,811	497,918
TMWA contributions subsequent to the measurement date	2,865,963	—
	\$ 10,546,937	\$ 2,425,248

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

Deferred outflows of resources of \$2,865,963 resulted from TMWA contributions subsequent to the measurement date, and was recognized as a reduction of the net pension liability in the year ended June 30, 2020.

The average of the expected remaining service lives of all employees that are provided with pensions through PERS (active and inactive employees) determined at July 1, 2018 (the beginning of the measurement period ended June 30, 2019) is 6.18 years.

Other estimated amounts reported by TMWA as deferred outflows of resources and deferred inflows of resources related to pensions at June 30, 2020 will be recognized in pension expense as follows:

Year ending June 30,	
2021	\$ 1,935,972
2022	831,224
2023	1,212,376
2024	526,989
2025	522,880
Thereafter	103,345

Additional Information

The PERS Comprehensive Annual Financial Report is available on the PERS website at www.nvpers.org under Quick Links – Publications.

Deferred Compensation Plans

All employees of TMWA are eligible to participate in a Section 457 Deferred Compensation Plan, monies of which are maintained in a trust, separate from the general assets of TMWA. In addition to the Section 457 Deferred Compensation Plan, all employees are eligible to participate in a Section 401(a) Money Purchase Retirement Plan, monies of which are maintained in a trust, separate from the general assets of TMWA. For the years ended June 30, 2020 and June 30, 2019, TMWA had matching contributions totaling \$1,408,776, and \$1,322,978, respectively.

Note 11 - Other Post-Employment Benefit (OPEB) Plans

TMWA has two Other Post-Employment Benefit (OPEB) Plans referred to as the §501(c)(9) and §115 plans. The §501(c)(9) plan was established for the benefit of transferred employees from Sierra Pacific Power Company and all new hires. The §115 Plan plan was formed to provide post-employment benefits for employees who transferred from Washoe County as a result of the water utility consolidation. Both plans reference the Internal Revenue Code sections that the plans were formed under. Both plans' investments are held by the Nevada Retirement Benefits Investment Board.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

Census data as of June 30, 2020 for both plans is as follows:

	§501(c)(9) Plan	§115 Plan
Retirees currently receiving benefits	45	6
Retirees entitled to, but not yet receiving benefits	1	—
Active plan members	187	16
Total	233	22

Census data as of June 30, 2019 for both plans is as follows:

	§501(c)(9) Plan	§115 Plan
Retirees currently receiving benefits	40	6
Retirees entitled to, but not yet receiving benefits	1	—
Active plan members	197	16
Total	238	22

Plan Descriptions, Eligibility Information and Funding Policies

§501(c)(9) Plan

Plan Description. The §501(c)(9) plan known as the Truckee Meadows Water Authority Post-Retirement Medical Plan and Trust (Plan), is a single-employer defined benefit OPEB plan that was established to provide eligible TMWA employees with post-employment health benefits. The Plan was amended to provide post-retirement life insurance benefits in July 2011. Pursuant to Nevada State Administrative Regulations, adopted in September 2008, the Plan is governed by not less than three, but not more than five trustees. Four trustees were appointed by the TMWA Board, two from non-represented employees and two from represented employees. The Plan issues a financial report that includes the financial statements and required supplementary information. That report may be obtained by contacting TMWA in writing at P.O. Box 30013, Reno, NV 89520-3013.

Eligibility. Effective December 13, 2018, the Board adopted a resolution to close the Plan to employees hired on or after December 13, 2018. Existing employees and plan participants currently receiving benefits were not impacted by this resolution. There are three employee classifications eligible for benefits: a pre-January 1, 1998 collective bargaining unit group, a post-December 31, 1997 collective bargaining unit group, and a group for management, professional, and administrative (MPAT) personnel hired prior to December 13, 2018. Eligibility requirements benefit levels, employee contributions, and employer contributions are amended through TMWA’s collective bargaining agreements for its represented employees and by the TMWA Board with respect to MPAT employees.

Employees must have at least ten years of service to be eligible for benefits and must be at least 55 years of age. The pre-January 1, 1998 group of represented employees will receive a subsidy as a percentage of the total health premium, dependent upon years of service and age of retirement, with a maximum subsidy of 85% with 20 years of credited service. Employees with 20 or more years of service electing the Medicare Risk Contract would pay nothing towards health premiums. For this group, dependents are also covered. The post-December 31, 1997 group of represented employees will receive a total subsidy of \$1,250 times years of service towards health care premiums. This amount does not grow with interest and once exhausted a retiree may convert to COBRA, but only for the 18 month continuation period.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

For MPAT employees, the annual subsidy is \$235 times years of service, up to 30 years, prorated for each month of retirement while under the age of 65. On or after the age of 65, the subsidy is \$105 times years of service prorated for each month of retirement while age 65 and older. If an MPAT employee retires and draws benefits before age 62, the subsidy is reduced by 5% for each full year retirement precedes age 62.

There is no extra subsidy for spousal or dependent coverage except continuation benefits provided for under COBRA. Retirees are responsible for the remaining portion of premiums.

Funding Policy. Beginning in fiscal year 2011, the plan has funded retiree benefits through its Voluntary Employee Benefit Association (VEBA) that TMWA established as an irrevocable trust for funding of the post-employment health benefits. TMWA funds the plan based on the actuarially determined contribution (ADC) each year.

§115 Plan

Plan Description. On December 17, 2014, TMWA formed The Truckee Meadows Water Authority OPEB Trust Fund (§115 Plan), a single-employer defined benefit OPEB plan that was established to provide certain eligible TMWA employees with post-employment health benefits. This specific plan was formed to provide post-employment benefits to qualified transferred Washoe County employees as a result of the water utility transfer of operations. STMGID had no employees and was contractually operated by Washoe County. The §115 Plan is a closed plan that will provide future benefits to the remaining eligible transferred employees and no new beneficiaries can be enrolled in this plan.

Eligibility. There are two employee classifications eligible for benefits in this plan: Tier I and Tier II classifications.

For Tier I retirees that have at least ten years but less than 15 years of combined full-time employment with Washoe County and/or TMWA the maximum benefits payable by the §115 Plan will be 50% of the premium for coverage of such retiree under the benefit plans. For Tier I employees that have at least fifteen years but less than twenty years of combined full-time employment with Washoe County and/or TMWA the maximum benefits payable by the §115 Plan will be 75% of the premium for coverage of such retiree under the benefit plans. For Tier I employees that have at least twenty years of combined full-time employment with Washoe County and/or TMWA the maximum benefits payable by the §115 Plan will be 100% of the premium for coverage of such retiree under the benefit plans.

For Tier I retirees who have attained the Medicare Eligibility Age (currently age 65) during a plan year must enroll in and pay the cost of Medicare Part “A” and Medicare Part “B” or Medicare Part “C” coverage and the §115 Plan will become the secondary payer regardless of whether the retiree enrolls in the Medicare program or not. The Medicare Eligibility Age is currently defined as age 65 but will be changed if Medicare changes the eligibility age.

For Tier II retirees the maximum benefits to be paid by the §115 Plan who have not attained Medicare Eligibility Age (currently age 65) is to be the same amount as the premium paid for group health coverage by an employer for coverage of non-state employees under the Nevada State Public Employee Benefit Plan (PEBP) Retiree Health Insurance plan. The 2003 Nevada Legislature passed legislation (AB 286) that afforded public employees of Nevada political subdivisions the opportunity to enroll, upon their retirement in the PEBP Retiree Health Insurance Plan and obligated public employers of enrolled retirees to pay a portion of the medical premium on the retiree’s behalf (the Subsidy). Tier II Retirees are entitled to receive the Subsidy from the §115 Plan towards their coverage under the employer Benefit Plans rather than the PEBP Retiree Health Plan.

Truckee Meadows Water Authority
Notes to Financial Statements
June 30, 2020 and 2019

For Tier II retirees who have attained the Medicare Eligibility Age (currently age 65) or older will instead receive benefits equal to the equivalent of the State of Nevada’s Medicare Exchange Retiree HRA Contribution Subsidy based upon the combined years of service with Washoe County and/or TMWA and must elect Medicare. The Medicare Eligibility Age is currently defined as age 65 but will be changed if Medicare changes the eligibility age.

In order to receive the benefits described, the Tier II employee must be an employee of TMWA immediately prior to drawing their retirement benefits.

Funding Policy. The plan funds retiree benefits through an irrevocable trust for funding of the post-employment health benefits. TMWA funds the §115 Plan based on the ADC each year.

OPEB Expense and Net Position

Total OPEB Expense (Benefit) recognized for fiscal years June 30, 2020 and 2019 is below:

	§501(c)(9) Plan	§115 Plan	Total
2020	\$ (82,879)	\$ 87,384	\$ 4,505
2019	\$ 362,331	\$ 133,768	\$ 496,099

Thereafter	615,770	13,216

Actuarial Valuation Assumptions

The total OPEB liability as of December 31, 2019 was determined using the following actuarial assumptions.

Healthcare trend rate (both plans) - TMWA plan medical premiums and per capita claims costs are assumed to increase at the following rates:

Effective January 1	Premium Increase	Effective January 1	Premium Increase
2020	Actual	2050-2053	5.0%
2021	7.0%	2054-2059	4.9%
2022	6.5%	2060-2066	4.8%
2023	6.0%	2067	4.7%
2024	5.9%	2068	4.6%
2025	5.8%	2069	4.5%
2026	5.6%	2070-2071	4.4%
2027	5.5%	2072	4.3%
2028	5.4%	2073-2074	4.2%
2029-2046	5.3%	2075	4.1%
2047	5.2%	2076	4.0%
2048-2049	5.1%	Thereafter	4.0%

Mortality	<p><i>Non-disabled life rates for Regular & Safety employees: Males and Females: Headcount-weighted RP-2014 Healthy Annuitant Table set forward 1 year.</i></p> <p><i>Pre-retirement life rates for Regular & Safety employees: Males and Females: Headcount-weighted RP-2014 Employee Table.</i></p> <p>The mortality rates above were adjusted to anticipate future mortality improvements by applying MacLeod Watts Scale 2018 on a generational basis from 2015 forward.</p>	<p><i>Non-disabled life rates for Regular & Safety employees: Males and Females: Headcount-weighted RP-2014 Healthy Annuitant Table set forward 1 year.</i></p> <p><i>Pre-retirement life rates for Regular & Safety employees: Males and Females: Headcount-weighted RP-2014 Employee Table.</i></p> <p>The mortality rates above were adjusted to anticipate future mortality improvements by applying MacLeod Watts Scale 2018 on a generational basis from 2015 forward.</p>
Long-Term Return on Assets and Discount Rate	6.0% net of plan investment expenses and including inflation	6.0% net of plan investment expenses and including inflation
Participants Valued	Only current active employees and retired participants and covered dependents are valued, excluding those who transferred to TMWA from Washoe County. No future entrants are considered in this valuation.	Only current active employees and retired participants who transferred to TMWA from Washoe County and covered dependents are valued. This plan is closed to new members.
Salary Increase	3.0% per year; since benefits do not depend on salary, this is used to allocate the cost of benefits between service years.	3.0% per year; since benefits do not depend on salary, this is used to allocate the cost of benefits between service years.
General Inflation Rate	2.5% per year	2.5% per year
Medicare Eligibility	All individuals are assumed to be eligible for Medicare Parts A and B at age 65.	All individuals are assumed to be eligible for Medicare Parts A and B at age 65.
Employer Cost Sharing	<p>IBEW Pre - 1998 Hires: Increases in the PRMPT-paid portion of healthcare premiums are assumed to increase at the same rates as medical trend (described above).</p> <p>IBEW Post-1997 Hires: The \$1,250 service multiplier is assumed to remain fixed at its current level in all future years. Retirees are expected to exhaust the lifetime allowance 4 years following retirement.</p> <p>MPAT: The \$235 (pre-65) and \$105 (post-65) service multipliers are assumed to remain fixed at their current level in all future years.</p>	<p>Tier 1: Increases in the Trust-paid portion of healthcare premiums are assumed to increase at the same rates as medical trend (described above).</p> <p>Tier 2: The TMWA subsidy provided prior to age 65 is assumed to increase at the same rates as medical trend. The subsidy provided at ages 65 and above is assumed to increase by 4.5% per year.</p>

GASB Statement No. 75 allows reporting liabilities as of any fiscal year end based on: (1) a *valuation date* no more than 30 months plus 1 day prior to the close of the fiscal year end; and (2) a *measurement date* up to one year prior to the close of the fiscal year. The following dates were used for this report:

Fiscal Year End	June 30, 2020
Measurement Date	December 31, 2019
Measurement Period	December 31, 2018 to December 31, 2019
Valuation Date	December 31, 2019

The discount rates used for the measurement periods ended December 31, 2019 and 2018 is 6.0%. Medical Cost Inflation was assumed to start at 7.0% and grade down to 4.0% for years 2076 and thereafter. The impact of a 1% increase or decrease in these assumptions is shown in the charts below for the two measurement periods.

OPEB Plans Fiduciary Net Position

Detailed information about the OPEB plans fiduciary net position are available in separately issued financial statements and can be requested by contacting TMWA's Finance Department at P.O. Box 30013, Reno, NV 89509-3013.

Note 12 - Commitments

TMWA has committed \$650,000 as a contribution to the Truckee River Fund of the Community Foundation of Western Nevada, for the purposes of water shed protection and enhancements to the Truckee River that will benefit the water customers of TMWA. This payment was made in July 2020.

Note 13 - Subsequent Events

In August 2020, TMWA reduced its outstanding commercial paper balance from \$16,000,000 to \$14,500,000 with a payment from unrestricted cash of \$1,500,000.

Statistical Section

Truckee Meadows Water Authority

This part of the Truckee Meadows Water Authority comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the TMWA's overall financial health.

<u>Section Contents</u>	<u>Schedule No.</u>
<p>Financial Trends These schedules contain trend information to help the reader understand how TMWA's financial performance and well-being have changed over time.</p>	1-6
<p>Revenue Capacity These schedules contain information to help the reader assess the factors affecting the TMWA's ability to generate its water sales and other revenues.</p>	7-8
<p>Debt Capacity These schedules present information to help the reader assess the affordability of the TMWA's current levels of outstanding debt, and its ability to issue additional future debt.</p>	9
<p>Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the TMWA's financial activities take place and to help make comparisons over time and with other utilities.</p>	10-12
<p>Operating Information These schedules contain information about the TMWA's operations and resources to help the reader understand how the TMWA's financial information relates to the services it provides and the activities it performs.</p>	13-17
<p>Debt Ratios These schedules contain information about changes in the TMWA's debt and its debt in relation to service connections.</p>	18-19

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

* Fiscal Year 2015 reflects the first year of the water utility consolidation as discussed in Note 1 of the Financial Statements.

⁽¹⁾ Includes retail residential, commercial, irrigation water sales, and wholesale water sales net of bad debt expense.

⁽²⁾ Reflects hydroelectric revenues, other miscellaneous operating revenues from fees and charges, as well as gross investment income.

⁽³⁾ Includes water supply, treatment, distribution, hydroelectric power plant maintenance, customer service, water resource planning, conservation programs, administration, and inspection services. Wages and salaries, employee benefits, and services and supplies comprise these expenses.

⁽⁴⁾ The Authority is required to pay property taxes on water rights and storage facilities located in California. During the reported fiscal years TMWA paid various counties in California for hydroelectric facilities, and water storage rights in California.

⁽⁵⁾ This schedule does not include the payments on the DWSRF loan or the tax-exempt commercial paper, which are subordinate to the 2015-A, 2016, 2017 and 2018 Refunding Bonds.

⁽⁶⁾ TMWA's bond covenants require a minimum coverage of 1.25x total principal and interest payments. In fiscal year 2012, TMWA defeased the remaining 2001-A bonds. This resulted in a one-time increase in the senior lien debt coverage ratio. Without this defeasance, the senior lien debt coverage ratio would be 1.52x. In fiscal years 2017, 2018 and 2019, TMWA deferred principal payments on debt which increased the debt coverage ratio.

Compliance Section
Truckee Meadows Water Authority

**Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

To the Board of Directors
Truckee Meadows Water Authority
Reno, Nevada

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Truckee Meadows Water Authority (TMWA), as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise TMWA's basic financial statements, and have issued our report thereon dated November 25, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered TMWA's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of TMWA's internal control. Accordingly, we do not express an opinion on the effectiveness of TMWA's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether TMWA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Auditor's Comments

To the Board of Directors
Truckee Meadows Water Authority
Reno, Nevada

In connection with our audit of the financial statements of the Truckee Meadows Water Authority (TMWA) as of and for the year ended June 30, 2020, and the related notes to the financial statements, nothing came to our attention that caused us to believe that TMWA failed to comply with the specific requirements of Nevada Revised Statutes cited below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding TMWA's noncompliance with the requirements of Nevada Revised Statutes cited below, insofar as they relate to accounting matters.

Statute Compliance

The required disclosure on compliance with Nevada Revised Statutes and the Nevada Administrative Code is contained in Note 2 to the financial statements.

Progress on Prior Year Statute Compliance

There were no potential statute violations reported in the June 30, 2019 audit report.

Prior Year Recommendations

There were no findings for the year ended June 30, 2019.

Current Year Recommendations

We noted no material weaknesses and reported no significant deficiencies in internal control for the current year.

November 25, 2020

TO: Board of Directors
THRU: Mark Foree, General Manager
FROM: Michele Sullivan, Chief Financial Officer
 Matt Bowman, Financial Controller
DATE: November 23, 2020
SUBJECT: **Presentation of Financial Performance for First Quarter Fiscal Year 2021**

Summary

Please refer to Attachments A-1 and A-2 for full Statements of Revenues, Expenses and Changes in Net Position for both actual to budget and year-over-year comparisons as discussed in the report below.

Budget to Actual

	Actual YTD 2021	Budget YTD 2021	Variance \$	Variance %
CHANGE IN NET POSITION	\$ 22,799,050	\$ 19,042,308	\$ 3,756,742	20 %

Change in net position was \$3.8m or 20% higher than budget for the first quarter fiscal year 2021. This was due to higher operating income of \$3.7m and higher capital contributions of \$0.7m, offset by higher nonoperating expenses of \$0.6m.

Year over Year

	Actual YTD 2021	Actual YTD 2020	Variance \$	Variance %
CHANGE IN NET POSITION	\$ 22,799,050	\$ 22,724,861	\$ 74,189	— %

Change in net position was \$0.07m or 0.3% higher than prior year for the first quarter fiscal year 2021. This was due to higher operating income of \$1.2m, offset by lower capital contributions of \$0.3m and higher nonoperating expenses of \$0.8m.

RevenueBudget to Actual

	Actual YTD 2021	Budget YTD 2021	Variance \$	Variance %
OPERATING REVENUES				
Charges for Water Sales	41,276,508	38,998,848	2,277,660	6 %
Hydroelectric Sales	769,978	780,045	(10,067)	(1)%
Other Operating Sales	524,260	700,029	(175,769)	(25)%
Total Operating Revenues	42,570,746	40,478,922	2,091,824	5 %

Operating revenue was \$2.1m or 5% higher than budget for the first quarter of the fiscal year due to higher water sales offset by lower hydroelectric and other operating sales revenue. Water sales revenue was higher by \$2.3m or 6% due to higher usage than budgeted in the residential and irrigation categories. This was due to the continued dry weather during the summer months. Other operating sales are lower due to lower late fee revenue (late fees were suspended for two months during the quarter) and lower customer service call charges due to lower volume of calls.

Year over Year

	Actual YTD 2021	Actual YTD 2020	Variance \$	Variance %
OPERATING REVENUES				
Charges for Water Sales	41,276,508	38,624,282	2,652,226	7 %
Hydroelectric Sales	769,978	1,069,464	(299,486)	(28)%
Other Operating Sales	524,260	832,757	(308,497)	(37)%
Total Operating Revenues	42,570,746	40,526,503	2,044,243	5 %

Total operating revenues were \$2.0m higher than prior year due to higher water sales offset by lower hydroelectric and other operating sales revenue. Water sales revenue was higher by \$2.7m or 7% due to more consumption as discussed above. Hydroelectric revenue was lower due to the Washoe plant being out of service for the entire quarter for the rebuilding of the damaged flume. Other operating sales were lower than prior year for the same reasons discussed above (lower late fee and service call revenue).

Operating ExpensesBudget to Actual

	Actual YTD 2021	Budget YTD 2021	Variance \$	Variance %
OPERATING EXPENSES				
Salaries and Wages	5,764,424	6,233,432	(469,008)	(8)%
Employee Benefits	2,553,203	2,738,994	(185,791)	(7)%
Services and Supplies	8,820,353	9,655,362	(835,009)	(9)%
Total Operating Expenses Before Depreciation	17,137,980	18,627,788	(1,489,808)	(8)%
Depreciation	8,280,262	8,379,713	(99,451)	(1)%
Total Operating Expenses	25,418,242	27,007,501	(1,589,259)	(6)%

Total operating expenses were \$1.6m lower than budget due to all categories. Salaries and wages and employee benefits are lower due to position vacancies and labor charged to capital projects. Services and supplies expenses are lower primarily due to timing of certain expenses (temporary), and also lower training/travel expenses which are expected to continue throughout the year due to the pandemic. Services and supplies expenses are expected to "catch up" to budget through the remaining three quarters.

Year over Year

	Actual YTD 2021	Actual YTD 2020	Variance \$	Variance %
OPERATING EXPENSES				
Salaries and Wages	5,764,424	5,760,051	4,373	— %
Employee Benefits	2,553,203	2,495,410	57,793	2 %
Services and Supplies	8,820,353	8,066,985	753,368	9 %
Total Operating Expenses Before Depreciation	17,137,980	16,322,446	815,534	5 %
Depreciation	8,280,262	8,290,967	(10,705)	— %
Total Operating Expenses	25,418,242	24,613,413	804,829	3 %

Year over year for the first quarter, operating expenses were \$0.8m higher than budget due primarily to higher services and supplies expenses. There are not any significant changes within any one category in services and supplies, but the main drivers in the year over year change are higher chemical, power, and TROA administrative costs. Chemical and power costs increased due to higher water consumption and price increases and the TROA administrative costs commenced in October 2019, so the first three months of the prior fiscal year had no costs.

Non-Operating ExpensesBudget to Actual

	Actual YTD 2021	Budget YTD 2021	Variance \$	Variance %
NONOPERATING REVENUES (EXPENSES)				
Investment Earnings	738,928	966,276	(227,348)	(24)%
Net Increase (Decrease) in FV of Investments	(386,631)	—	(386,631)	— %
Gain (Loss) on Disposal of Assets	—	—	—	— %
Amortization of Bond/note Issuance Costs	(52,484)	(47,700)	(4,784)	10 %
Interest Expense	(3,066,607)	(3,047,044)	(19,563)	1 %
Other Nonoperating Revenue	—	—	—	— %
Other Nonoperating Expense	—	—	—	— %
Total Nonoperating Revenues (Expenses)	(2,766,794)	(2,128,468)	(638,326)	30 %

Nonoperating expenses were \$0.6m higher than budgeted. This is due mostly to lower investment income and a net decrease in the fair value of investments due to continued low interest rates on invested cash balances. The ten-year US Treasury Yield was at 0.69% at September 30, 2020, down from 1.88% on January 2, 2020.

Year over Year

	Actual YTD 2021	Actual YTD 2020	Variance \$	Variance %
NONOPERATING REVENUES (EXPENSES)				
Investment Earnings	738,928	1,044,527	(305,599)	(29)%
Net Increase (Decrease) in FV of Investments	(386,631)	470,475	(857,106)	(182)%
Gain (Loss) on Disposal of Assets	—	(168,898)	168,898	(100)%
Amortization of Bond/note Issuance Costs	(52,484)	(71,199)	18,715	(26)%
Interest Expense	(3,066,607)	(3,193,572)	126,965	(4)%
Other Nonoperating Revenue	—	—	—	— %
Other Nonoperating Expense	—	—	—	— %
Total Nonoperating Revenues (Expenses)	(2,766,794)	(1,918,667)	(848,127)	44 %

Nonoperating expenses were higher than prior year in the first quarter by \$0.9m or 44%. Similar to the reasons above, this variance is primarily due to lower investment earnings and a decrease in the fair value of investments. Offsetting decreases in those categories were lower gain/loss on disposal of assets (timing related) and lower interest expense (lower rates on commercial paper).

Capital ContributionsBudget to Actual

	Actual YTD 2021	Budget YTD 2021	Variance \$	Variance %

Grants	—	475,000	(475,000)	(100)%
Water Resource Sustainability Program	137,148	217,425	(80,277)	(37)%
Developer Infrastructure Contributions	3,520,843	2,806,637	714,206	25 %
Developer Will-serve Contributions (Net of Refunds)	362,645	1,046,352	(683,707)	(65)%
Developer Capital Contributions - Other	1,899,175	1,585,539	313,636	20 %
Developer Facility Charges (Net of Refunds)	2,318,928	1,499,652	819,276	55 %
Contributions from Others	174,601	68,750	105,851	154 %
Net Capital Contributions	8,413,340	7,699,355	713,985	9 %

Capital contributions were \$0.7m higher than budget for the first quarter. Increases from budget related to developer infrastructure contributions, area fees and facility charges were offset by lower grant revenue, proceeds from the water resource sustainability program and will-serve sales. Developer contributions and will-serve sales can fluctuate due to large project contributions coming in from time to time. Given the project activity in the region, it's expected that will-serve sales will make up the first quarter's budget variance throughout the year. Similarly, the area fees and facility charges are not expected to be over budget for the year. Grant revenue is lower due to timing of receiving grant awards for two outstanding FEMA grants which are still expected to be received during the year.

Year over Year

	Actual YTD 2021	Actual YTD 2020	Variance \$	Variance %
CAPITAL CONTRIBUTIONS				
Grants	—	—	—	— %
Water Resource Sustainability Program	137,148	481,640	(344,492)	(72)%
Developer Infrastructure Contributions	3,520,843	84,627	3,436,216	4,060 %
Developer Will-serve Contributions (Net of Refunds)	362,645	1,818,433	(1,455,788)	(80)%
Developer Capital Contributions - Other	1,899,175	2,853,471	(954,296)	(33)%
Developer Facility Charges (Net of Refunds)	2,318,928	3,492,267	(1,173,339)	(34)%
Contributions from Others	174,601	—	174,601	— %
Net Capital Contributions	8,413,340	8,730,438	(317,098)	(4)%

Year over year, capital contributions are \$0.3m or 4% lower in the first quarter. For the first time in FY 2021, TMWA is recognizing developer infrastructure contributions on a quarterly basis, which is why there is a large variance in this category. This represents non-cash water infrastructure constructed by developers. Other categories of developer related contributions are all lower than prior year in the first quarter. As discussed above, through one quarter there can be significant variances due to timing of large contributions. However, TMWA's internal tracking of total new business projects has shown that project volume has decreased over the last six months.

Capital Spending

Spending on capital outlays and construction projects during the first quarter was approximately \$5.7m. Total budgeted capital spend for fiscal year 2021 is \$54.7m. Projected capital spending for the year is \$40m - \$45m. Top project spend through the first quarter is below -

- | | |
|---|--------|
| • Mount Rose Water Treatment Plant | \$1.3m |
| • Customer Information System Replacement | \$0.5m |
| • Boomtown to TMWA Connection | \$0.5m |

Cash Position

At September 30, 2020 total cash on hand was \$209.0m or \$3.2m higher than at the beginning of the fiscal year. Of the total cash on hand, \$152.1m was unrestricted to be used to meet upcoming and future operating & maintenance expenses, principal & interest payments and construction project payments. The remaining \$56.9m was restricted to pay for scheduled bond principal and interest payments as well as maintaining required reserves as stipulated in our bond covenants.

STAFF REPORT

TO: Standing Advisory Committee
FROM: Sonia Folsom, SAC Liaison
DATE: November 24, 2020
SUBJECT: **Presentation and possible approval of 2021 meeting schedule**

The TMWA Standing Advisory Committee meets the first Tuesday of each month at 3:00 p.m. The schedule of proposed meeting dates for 2021 is:

- Tuesday, January 5
- Tuesday, February 2
- Tuesday, March 2
- Tuesday, April 6
- Tuesday, May 4
- Tuesday, June 1
- Tuesday, July 6
- Tuesday, August 3
- Tuesday, September 7
- Tuesday, October 5
- Tuesday, November 2
- Tuesday, December 7

Meetings that appear on this schedule may be cancelled or changed due to lack of agenda items or other considerations.
