

2020 TOURS & WORKSHOPS

TMWA conducts FREE water and landscaping tours and workshops. From irrigation start-up to winterization, and everything in between, TMWA's workshops help you understand your landscaping and irrigation system's needs. At our tours, learn about water quality at the Chalk Bluff Water Treatment Plant, or hear all about clean renewable energy at our Verdi Hydroelectric Power Plant. Our Walking Tours cover how to create more biodiverse gardens and water-resilient landscapes.

All **WORKSHOPS** and **TOURS** are **FREE**.
