Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>	<u>105</u>
A 70 1 C	107

Auditor's Comments <u>107</u>

November 21, 2023

To the Board of Directors, Our Customers, and Bondholders:

We are pleased to submit the Annual Comprehensive Financial Report (Annual Report) for the Truckee Meadows Water Authority (TMWA) for the fiscal year ended June 30, 2023. The purpose of the report is to provide the Board of Directors (Board), our customers, and bondholders as well as other interested parties with reliable financial information about TMWA. TMWA's Finance Department has prepared the Annual Report in accordance with Generally Accepted Accounting Principles (GAAP).

Management assumes full responsibility for the completeness and reliability of the information contained in this Annual Report, based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements.

Nevada Revised Statutes and bond covenants require that an independent certified public accounting firm selected by the Board audit TMWA's financial statements on an annual basis. Eide Bailly LLP, a firm of licensed certified public accountants, has audited TMWA's basic financial statements as of and for the fiscal years ended June 30, 2023 and 2022. The independent auditor's report is presented in the Financial Section of this report. TMWA complies with the Local Government Budget and Finance Act as embodied in Chapter 354 and Public Investments as embodied in Chapter 355 of the Nevada Revised Statutes.

The Annual Report consists of four sections:

Introduction Section - This section is comprised of the letter of transmittal which contains information relative to TMWA's background, a listing of TMWA's principal officers, organizational chart, and other relevant information to assist the reader in understanding TMWA's operations, financial condition, and accomplishments.

Financial Section - This section consists of TMWA's basic financial statements, supplementary financial information, and independent auditor's report on the basic financial statements. This section also includes Management's Discussion and Analysis (MD&A), which provides a narrative overview and explanation of the results reflected in the basic financial statements. The financial statements presented in this section were prepared in accordance with GAAP. TMWA's financial activities are reported as an enterprise fund (proprietary fund type).

Statistical Section - This section is comprised of selected financial, operational and demographic information presented annually and including statistics for the past ten years.

Compliance Section - This section consists of information regarding TMWA's compliance with state statutes, in particular, conformance with the Local Government Finance Act.

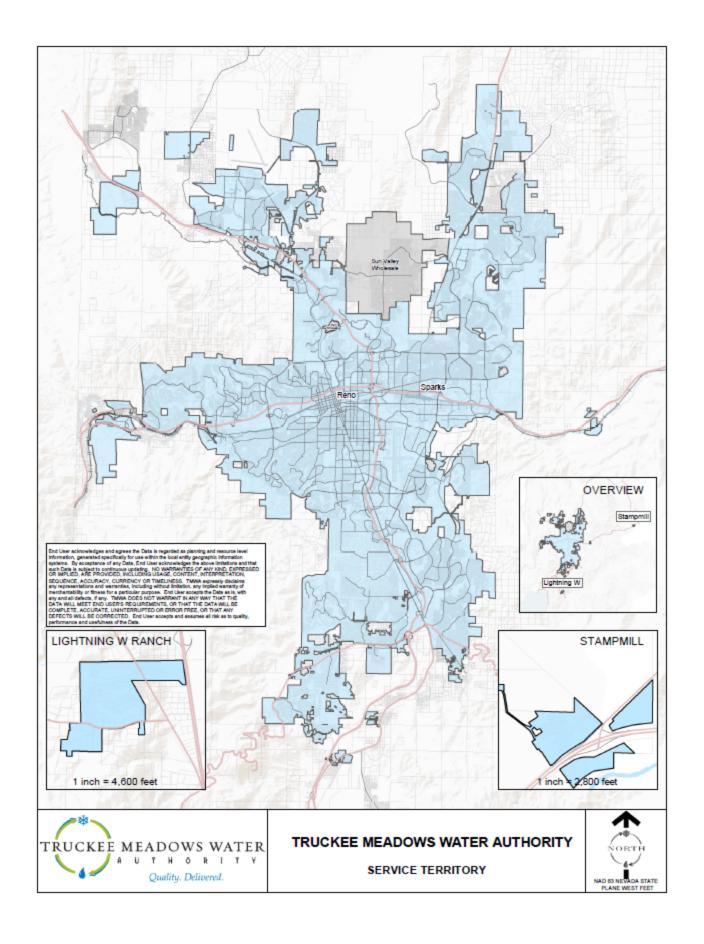

#### **REPORTING ENTITY**

TMWA was formed as a Joint Powers Authority (JPA) pursuant to Chapter 277 of the Nevada Revised Statutes and is a political subdivision of the State of Nevada. TMWA is separate from its member agencies: City of Reno, City of Sparks and Washoe County. TMWA was formed in November 2000 for the purpose of acquiring the assets of the water division of Sierra Pacific Power Co. (SPPCo), a subsidiary of Sierra Pacific Resources, now known as NV Energy, with the goal of retaining local control over the water resources of the area. TMWA took over the water system assets on June 11, 2001. Amendments to the JPA were approved by the member agencies and the Attorney General's Office of the State of Nevada effective February 3, 2010. The amendments were made in anticipation of the consolidation of TMWA, Washoe County's water utility and another water utility named South Truckee Meadows General Improvement District (STMGID). The consolidation of the water utilities occurred on January 1, 2015 with TMWA as the continuing entity. There are no component units associated with this financial reporting entity.

TMWA has no financial interdependence with its member agencies. TMWA has broad powers to finance, construct and operate the water system, for the diversion, treatment, distribution, and sale of treated water to retail and wholesale customers. TMWA has full authority to set water rates for services subject to the approval of the TMWA Board, without approval by other entities. TMWA is a tax-exempt entity for purposes of federal taxes and State of Nevada property and sales and use taxes, as well as other state taxes. TMWA pays property taxes in Nevada and Sierra Counties of California for the privilege of storing water in private and federal reservoirs. TMWA has no taxing authority.

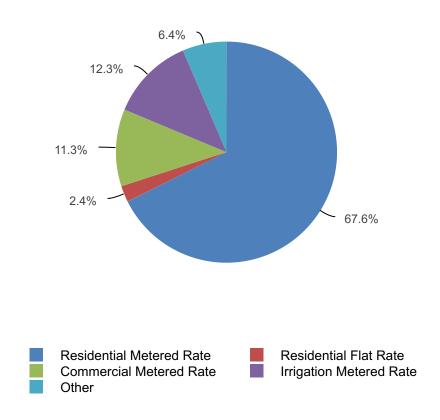

TMWA has over 135,000 service connections and two wholesale customers. TMWA operates within the Truckee Meadows Service Area. TMWA has only one significant wholesale customer, the Sun Valley General Improvement District (SVGID) located north of the Reno-Sparks main metropolitan area. SVGID is wholly dependent upon TMWA water deliveries since this district has no source of water supply. There is one water delivery contract associated with this wholesale connection.

The map on the following page reflects the TMWA service territory.

The following graph depicts the proportion of operating revenues by class for fiscal year 2023:

The metering of the water system, which began under Sierra Pacific in 1995, presents various operational solutions for TMWA. These solutions present the opportunity to collect accurate data on water usage by customer class. This allows TMWA to make more accurate cost of service analyses, to make water rates more equitable across customer classes, and to better anticipate future water resource and water facility requirements. Since the acquisition of the water system, TMWA has metered nearly 100% of water services. Currently, there are approximately less than 650 water services that do not have a meter installed and are billed on a flat rate. These are problematic and relatively expensive services to convert to meters with multiple customers on a single service line.

The Board adopted a goal in August 2003 of maintaining a senior lien debt coverage ratio of at least 1.5 times recurring revenues less operating expenses divided by annual senior lien debt service. This calculation excludes developer facility charges and other fees associated with new development. This target is sufficient to meet minimum debt service coverage requirements, fund reconstruction of the water system on a pay-go basis, and manage TMWA's senior lien bonding capacity to allow for potential future senior lien bond sales if necessary. These measures were deemed necessary to maintain water system infrastructure in a prudent manner and ensure that

TMWA's bondholders are adequately protected. There are no other restrictions, commitments, or other limitations that would restrict the unrestricted cash assets for use in meeting TMWA's obligations. TMWA's senior lien debt coverage was approximately 1.33x and with certain developer fees and charges was approximately 1.92x as of June 30, 2023. The senior lien debt coverage ratio dipped below the Board adopted goal of 1.5 primarily due to lower water consumption in the spring paired with inflation, particularly in electric power and chemical costs.

#### ECONOMIC OUTLOOK AND WATER RESOURCES

The Reno-Sparks metropolitan area enjoys a moderate climate, offers a wide variety of year-round recreational opportunities, and has a favorable tax structure. It is also centrally located in the Pacific region affording efficient distribution of goods throughout the western United States. Northern Nevada's favorable business tax environment nurtures steady growth in TMWA's service area and nearby communities in manufacturing, distribution, warehousing and industrial businesses. TMWA's service area has experienced steady growth since TMWA's inception in 2001. With a population of approximately 353,000 in 2001, Washoe County's population has grown 41% to almost 497,000 in 2022.

Reflecting a diverse and strong regional economy, taxable sales in Washoe County remained steady in fiscal year 2023 with an increase of 1% from the prior year. Prior to fiscal year 2023, Washoe County experienced taxable sales increases of 11% and 19% in fiscal years 2022 and 2021, respectively. Despite a brief commercial shut-down due to COVID, Washoe County's unemployment rate has remained stable and is only about one percent greater than the national unemployment rate. At June 30, 2023, Washoe County's unemployment rate was 4.5% compared to the national unemployment rate of 3.6%.

To ensure appropriate and responsible water resource availability for current and future water demands, TMWA prepares and frequently updates a detailed Water Resource Plan (WRP). In October 2020, the TMWA Board approved the most recent iteration of the WRP for the years 2020-2040. The WRP was previously updated in fiscal year 2016 and covered years 2016-2035. The WRP addresses current water resources, future water resources and water rights availability, defined drought standards and most recently, impacts of climate change. These analyses performed in the most recent WRP conclude that TMWA can utilize the aforementioned water resources to meet incremental water demands required by growth for the next twenty years and beyond. The focal point of the WRP is the population and water demand forecasts for the TMWA consolidated water utility service territory.

To complement this water resource planning effort, a comprehensive Water Facility Plan (WFP) for the years 2015-2035 was developed and adopted by the TMWA Board in October 2019. For the first time, this WFP included detailed planning for the water systems formerly operated by Washoe County and STMGID that were merged into TMWA on January 1, 2015. The original WFP was adopted by the TMWA Board in December 2004 and updated in 2010. The WFP evaluates the infrastructure required to supply, treat and deliver water to customers over the life of the plan and determines infrastructure requirements needed in the Capital Improvement Plan to serve growth based upon population and water demand forecasts in the WRP.

Since inception, TMWA has made and will continue to make strategic water rights acquisitions to ensure sufficient inventory of water rights are available to issue will-serve commitments for

the foreseeable future. Any given year, as much as 80% or more of the water supply to TMWA's service area is supplied from surface water from the Truckee River. As such, TMWA played a critical role in negotiating and implementing the Truckee River Operating Agreement (TROA). TMWA is a primary signatory to the TROA along with the Pyramid Lake Paiute Tribe (PLPT), the States of Nevada and California, and U.S. Department of the Interior. TROA provides TMWA customers with benefits regarding a new, revised operation of the Truckee River system that provides additional drought supplies for existing as well as new customers. These lengthy and complex negotiations, which include interstate allocations of Truckee River water rights, were concluded when TROA was signed by the aforementioned parties on September 6, 2008 at a signing ceremony in Reno. TMWA made available to the PLPT certain water rights that met requirements to put TROA into effect in October 2015. In November 2015, remaining related lawsuits were dismissed and TROA became effective December 1, 2015 providing significant additional drought resources for TMWA's service area and completing a multi-decade effort.

TMWA owns and operates 27,000 acre-feet of Privately Owned Stored Water (POSW) reservoir storage comprised of 9,500 and 17,500 acre-feet in Donner Lake and Independence Lake, respectively (both owned and controlled by TMWA). In addition to the owned storage, as a result of TROA, TMWA can access additional storage capacity in certain federal lakes and reservoirs, including Lake Tahoe. As of June 30, 2023, TMWA had 38,000 acre feet stored in these TMWA owned and federally operated reservoirs.

The Truckee Meadows is no longer in a drought, and the water supply outlook is extremely positive. Lake Tahoe started the month of December 2022 0.5 feet below the natural rim and rose about 5.8 feet before peaking in Summer 2023. As of June 30, 2023, the total upstream reservoir storage was at 88% of capacity after three straight drought years. Because of the recovery this year, sufficient upstream storage in the system exists to ensure normal Truckee River system operations for the next two to three years, regardless of the types of winters the Truckee Meadows experiences. In fact, with the 38,000 acre feet of reservoir storage, TMWA will go into the upcoming winter with as much carry-over storage on the Truckee River system as is legally possible per TROA. TMWA will continue to utilize the provisions of TROA to maximize upstream storage opportunities and make the most efficient use of water resources for the region and is well positioned to continue to provide water to its customers.

A drought will inevitably occur again. Fortunately, when combining TMWA's existing POSW in Donner and Independence Lakes, the groundwater resources of the Honey Lake basin, the extensive upstream drought storage benefits of TROA, and aquifer storage and recovery groundwater recharge efforts, the TMWA service area is well positioned with regards to drought resiliency for many decades to come.

#### **Advanced Purified Water Program**

TMWA is confident in its ability to meet the community's potable water needs for decades to come. Regardless, staff and leadership are dedicated to preparing for potential needs that are beyond the horizon. In this spirit, TMWA is participating in a multi-organizational effort to study the feasibility of producing Category A+ Advanced Purified Water (APW). This research collaboration is known as OneWater Nevada and includes TMWA; City of Reno; City of Sparks; Washoe County; the University of Nevada, Reno; Truckee Meadows Water Reclamation Facility; the Western Regional Water Commission, and the Northern Nevada Water Planning

Commission. The OneWater Nevada Study is evaluating the feasibility of using treated effluent from regional water reclamation facilities and applying a combination of advanced water treatment steps with natural groundwater purification processes to allow for aquifer storage and recovery of the APW. The treatment approach is regulated to rigorous state and federal drinking water standards and may potentially create a future supplemental water supply for potable or other high-quality uses.

TMWA has contributed to the operation and funding of OneWater Nevada since the effort began in 2016. This participation includes the construction and operation of a small-scale pilot treatment facility at the Reno Stead Water Reclamation Facility (RSWRF), a hydrogeological study at American Flat, management of groundwater recharge and recovery facilities, and overall technical and operational support. Through an Interlocal Agreement (ILA) with City of Reno, a Basis of Design Report for the RSWRF American Flat APW Aquifer Storage and Recovery Project was completed in fiscal year 2021. Leveraging the information from this Report, TMWA and City of Reno have executed an ILA for a cost sharing agreement for construction of a two million gallon per day (MGD) APW treatment facility. This facility will take several years to build with construction activities expected to commence in Fall 2024, subject to final TMWA and City of Reno Board approval.

#### WATER QUALITY

TMWA's highest priority is the protection of public health through modern water treatment techniques and water quality monitoring efforts. TMWA's primary source of water is the Truckee River, which sources at Lake Tahoe and other tributaries. The Truckee River travels into Nevada through the Reno-Sparks Metropolitan area and terminates at Pyramid Lake, a distance of approximately 120 miles. The river's natural water quality is excellent; however, additional steps are taken to purify the water to meet safe drinking water standards that were set forth by the United States Department of Environmental Protection in the early 1990's. TMWA owns and operates the 90 MGD Chalk Bluff Water Treatment Plant, the 34.5 MGD Glendale Water Treatment Plant and the 4 MGD Mount Rose Water Treatment Plant. The Mount Rose Water Treatment Plant treats surface water from Whites Creek, a tributary of the Truckee River. Attesting to TMWA's commitment to the protection of public health, TMWA's Chalk Bluff Water Treatment Plant received the Presidents Award from the Partnership for Safe Water in 2015. This recognition exemplifies TMWA staff's experience, passion, and commitment to producing and delivering outstanding water quality to customers. TMWA has since requalified for this award on an annual basis.

TMWA spends approximately \$1 million annually monitoring water quality by analyzing nearly 15,000 samples covering approximately 20,000 constituents at over 300 locations throughout the TMWA water system to ensure compliance with all current drinking water standards promulgated by the United States Environmental Protection Agency and administered by the Nevada Division of Environmental Protection, Bureau of Safe Drinking Water.

#### **WATER CONSERVATION**

Efficient use of water within the Truckee Meadows extends this vital resource through periods of drought in this high desert climate. Therefore, water conservation has been, and will continually be, a high-priority at TMWA. Not only does conservation promote water-efficient behavior, such efforts also reduce peak-day demand and help defer future investments in costly improvements to infrastructure. The purpose of water conservation at TMWA is to promote smart use of water through several programs. During a drought, TMWA enhances its conservation efforts to ensure drought storage is sufficient over the drought period.

# **Water-Efficiency Codes**

TMWA's Rule 2 provides water-efficiency codes to which customers must adhere. First, customers must not use water excessively (i.e., no waste). Second, TMWA requires that its customers adhere to a three-day-a-week irrigation schedule. This watering restriction helps prevent overwatering as well as reduces peak-day demand. Next, TMWA also requires no irrigation on Mondays to allow its system to recharge. Finally, TMWA generally requires no irrigation between noon and 6 p.m. from Memorial Day to Labor Day. These water-efficiency codes have been successful in managing customer demands over time.

# The Water Meter Retrofit Program

Under TMWA's Water Meter Retrofit Program, unmetered services were retrofitted with a meter. Customers without meters pay a flat, monthly water rate: thus, they have no simple way to know their water usage and have less monetary incentive to conserve. Through a charge of \$1,830 for every acre-foot of new surface water demand, developers and others have provided funding for this program to retrofit meters in the system. Due to the program's success, TMWA estimates less than 650 water services do not have a meter installed. In fiscal year 2019, the Water Meter Retrofit Program was replaced by the Water Resource Sustainability Program. Further, the Water Meter Retrofit Program restricted fund balance was entirely depleted during fiscal year 2023.

#### **Water Pricing Structure**

TMWA has an inverted, tiered-rate billing structure in which customers are charged increasing rates based on the amount of water they use. This billing structure provides a "price signal" to customers who cross into a higher tier, thereby encouraging efficient use of water.

# Water Usage Review Program

The Water Usage Review Program assists TMWA customers with issues regarding their water meter or their water delivery system. When a water usage review is requested, TMWA staff will go onsite to check meter accuracy as well as detect for leaks in the customer's system. If a leak is detected, staff will work with the customer to attempt to identify the leak source. Staff will also review the usage history of the service to determine water usage behavior. Once completed, staff will notify the customer regarding any leaks that were detected, make recommendations on how to reduce water consumption, and teach customers how to check for leaks in the future.

#### **Water Watcher Program**

During the irrigation months (April to October), TMWA ramps up its conservation efforts by hiring additional full-time seasonal conservation consultants. These consultants are trained to monitor the TMWA service territory and ensure its water-efficiency codes are being adhered to. They also respond to water waste reports by the public. They provide customers with information about TMWA's water-efficiency codes and identify any leaks or sources of water waste in outdoor irrigation. This program not only promotes efficient use of water but also facilitates lower monthly bills.

# Landscape Retrofit Program

The Landscape Retrofit Program promotes water-efficiency measures on municipal landscapes. The program includes financial support of landscape augmentation projects by institutional irrigators. Projects supported under this program promote drought-tolerant landscapes and educational programs focused on smart landscaping practices.

# **Water Conservation Education Program**

TMWA has a strong educational program designed to teach customers about the benefits of conservation and techniques that can help them use water more responsibly. Educational initiatives include a free workshop series, direct communication (bill inserts, emails, in-person, etc.), public presentations and events, as well as, a multi-media campaign. TMWA also partners with other local organizations to provide grade school students in the Truckee Meadows with information regarding our water sources, water quality, and watershed protection.

#### **FINANCIAL INFORMATION**

#### **Internal Controls**

TMWA employs various internal controls for the safeguarding of assets against losses from unauthorized use or disposition. TMWA's management is responsible for establishing and maintaining a system of internal controls designed to meet these objectives. Internal controls are also used to ensure that accounting data are compiled to allow for the preparation of financial statements in accordance with GAAP. The internal control structure is designed to provide reasonable assurance that these objectives are met. When establishing or reviewing internal controls, management weighs the cost to implement such controls over the benefits derived from implementing such controls. TMWA's management is constantly looking for opportunities to improve or redesign internal controls. A key component of TMWA's internal controls is its budgetary controls.

#### **Budgetary Controls**

TMWA is legally required to prepare, present to the TMWA Board, and adopt an annual budget in conformance with Chapter 354 of the Nevada Revised Statutes. These statutes comprise the Local Government Budget and Finance Act, which stipulates that the Board be presented with a tentative budget by April 15 of each year, with formal adoption of the budget after a public hearing in May of each year. The adopted budget is then filed with the Nevada Department of Taxation.

TMWA is also required to prepare a Capital Improvement Plan for review and formal acceptance by the TMWA Board. This plan is a comprehensive compilation of all capital projects and capital outlays expected during the ensuing five fiscal years. TMWA's Board is kept informed of TMWA's financial performance throughout the fiscal year at scheduled Board meetings. The General Manager, as the chief administrative officer, is authorized to approve all expenses that are within the approved budget. This authority is conferred upon the General Manager by virtue of the TMWA Cooperative Agreement between the City of Reno, City of Sparks, and the County of Washoe. This arrangement allows for the efficient operation of TMWA. TMWA routinely prepares five-year financial forecasts in conjunction with the Capital Improvement Plan.

#### **BUDGET ANALYSIS AND VARIANCES**

Actual total operating revenues of \$113.1 million were \$6.3 million or 5.2% under the final budget for fiscal year ended June 30, 2023. Charges for water sales totaled \$107.1 million and 5.3% lower than budget. TMWA's water sales can fluctuate from budget based on weather conditions, especially during the spring and fall. During the first quarter of the fiscal year, higher precipitation led to lower water consumption. The second quarter brought hot and dry weather leading to slightly higher consumption than budget. However, a cooler and wetter spring led to lower water consumption in the second half of the fiscal year, ultimately leading to significantly lower than average water consumption.

Total operating expenses of \$114.4 million were approximately \$1.3 million under the budget of \$115.7 million. Operating expenses before depreciation were \$1.5 million under budget or approximately 1.9% under. Salaries and wages were lower by \$2.3 million or 7.9% under and employee benefits were \$1.1 million higher or 8.3% over budget. Salaries and wages were lower due to position vacancies, and employee benefits were higher due to actuarial adjustments affecting both PERS and OPEB expenses. Both of those expenses are tied to annual actuarial valuations which consider the market value of the underlying investments. Due to poor investment performance, the valuations resulted in a large expense in the fiscal year. Service and supplies expenses were \$0.3 million or 0.7% under budget. Following the budget augmentation after the first half of the fiscal year related to electric power and chemical costs, services and supplies expense ended the year in line with budget.

Total net nonoperating revenues and expenses were \$0.7 million unfavorable to budget. This variance was primarily due to lower investment earnings, specifically a loss on the change in fair value of investments. This was caused by changing invested interest rates during the year and is not realized until the related investment matures or is sold.

Capital contributions of \$42.3 million were \$38.7 million under budget. The primary driver is lower contributions from other governments related to the American Flat APW project. This is timing related and is based on the actual spend on the project which is in the design phase. These contributions are expected in the fiscal year ended June 30, 2024. Also contributing to the variance are lower connection fees, which reflect a slow down in developer payments on water projects.

Total capital spending was approximately \$52.1 million for fiscal year 2023, which was approximately \$31.8 million less than the \$83.9 million planned in the final capital budget. The underspend is due to various projects having been deferred to future years.

As reflected in the Statement of Cash Flows, TMWA funded the operating budget, debt service requirements and capital spending from operating revenues, capital contributions and investment income. As of June 30, 2023, TMWA has approximately \$152.2 million of unrestricted cash and investments to fund future operations and capital projects.

TMWA complied with bond covenants during fiscal year 2023 with respect to funding cash reserves. TMWA's renewal and replacement reserve is fully funded at \$10 million. The operations and maintenance reserve fund, which TMWA is required to maintain at a balance equal to one-sixth of TMWA's revised final operating budget, contained \$8.9 million as of June 30, 2023. As of June 30, 2023, TMWA retained a \$11.1 million water rate stabilization reserve of which \$0.5 million is restricted and \$10.6 million is included as a reservation of unrestricted net position.

#### **ACKNOWLEDGMENTS**

The timely preparation of this report could not be done without the assistance of TMWA finance personnel, the management team and employees of TMWA. We would like to thank the Board, TMWA customers, and the development community for their commitment to the long-term operational and financial stewardship of TMWA.

Executive Director/CEO

#### **Independent Auditor's Report**

To the Board of Directors Truckee Meadows Water Authority Reno, Nevada

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the financial statements of the business-type activities, and the fiduciary activities of the Truckee Meadows Water Authority ("TMWA") as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise TMWA's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the fiduciary activities of TMWA, as of June 30, 2023 and 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of TMWA and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about TMWA's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of TMWA's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about TMWA's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of changes in net OPEB liability and related ratios, schedules of OPEB contributions, schedules of TMWA's share of net pension liability, and schedules of TMWA's pension contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the

information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise TMWA's basic financial statements. The schedule of revenues, expenses, and changes in net position – budget and actual, combining statement of fiduciary net position, and combining statement of changes in fiduciary net position are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of revenues, expenses, and changes in net position – budget and actual, combining statement of fiduciary net position are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2023, on our consideration of TMWA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of TMWA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering TMWA's internal control over financial reporting and compliance.

#### Financial Position

# Fiscal Year 2023 Summary

In the fiscal year ended June 30, 2023, total net position increased by approximately \$30.2 million, the result of operating loss and capital contributions offset by nonoperating expenses.

Unrestricted current assets decreased by \$19.2 million from June 30, 2022. Unrestricted cash and investments decreased \$17.0 million with cash from operating activities of \$38.4 million and unrestricted nonoperating contributions of \$21.5 million, offset by cash used for debt service \$32.3 million and acquisition and construction of capital assets of \$52.1 million. See the Statement of Cash Flows for additional information.

Restricted current assets decreased \$4.6 million from June 30, 2022. The Water Resource Sustainability Program fund increased \$0.8 million due to contributions collected related to water will-serve sales. When a surface water will-serve is sold to a customer, a fee is collected to fund this program. Current Bond Debt Service increased \$0.3 million due to principal payments due within the next year.

Long-term restricted and other assets decreased \$2.7 million, mainly due to a \$1.5 million reduction in restricted funds related to the consolidation of STMGID in 2015. Funds received from STMGID were restricted for use in the former STMGID service area and were depleted entirely in fiscal year ended June 30, 2023. Net other postemployment benefits (OPEB) asset decreased by \$2.9 million as result of the actuarial analysis and a lower return on investments held within the two OPEB trusts. See Note 12 to the financial statements for additional information on TMWA's OPEB plans.

Most of TMWA's net position is in capital assets. Capital assets, net of accumulated depreciation, increased by \$39.0 million in fiscal year 2023 as increases in capital assets from capital expenditures and contributions were greater than depreciation expense. Assets built by developers and contributed to TMWA were \$19.9 million. These assets are built to TMWA's standards and specifications. Depreciation expense was \$34.8 million.

Total current liabilities increased by \$3.8 million. This was primarily due to an increase of \$3.4 million in construction contract and retention payables, which are affected by the size and timing of active projects.

Long term debt decreased \$21.4 million, due to principal payments on debt of \$16.5 million and amortization of bond premiums of \$4.2 million.

Net pension liability increased by \$28.8 million as a result of an actuarial analysis performed for the Public Employees' Retirement System of the State of Nevada (PERS). See Note 11 to the financial statements for additional information on pensions.

#### Fiscal Year 2022 Summary

In the fiscal year ended June 30, 2022, total net position increased by approximately \$46.1 million, the result of operating income and capital contributions offset by nonoperating expenses.

Unrestricted current assets decreased by \$3.4 million from June 30, 2021. Unrestricted cash and investments decreased \$2.8 million with cash from operating activities of \$46.8 million and unrestricted nonoperating contributions of \$30.0 million, offset by cash used for debt service \$31.9 million and acquisition and construction of capital assets of \$40.8 million. See the Statement of Cash Flows for additional information.

Restricted current assets increased \$2.2 million from June 30, 2021. The Water Resource Sustainability Program fund increased \$1.4 million due to contributions collected related to water will-serve sales. When a surface water will-serve is sold to a customer, a fee is collected to fund this program. Current Bond Debt Service increased \$0.8 million due to principal payments due within the next year.

Long-term restricted and other assets decreased \$0.5 million, mainly due to a \$1.0 million reduction in restricted funds related to the consolidation of STMGID in 2015. Funds received from STMGID were restricted for use in the former STMGID service area and continue to decrease annually. Net other postemployment benefits (OPEB) asset increased by \$2.6 million as result of the actuarial analysis and a high return on investments held within the two OPEB trusts. See Note 12 to the financial statements for additional information on TMWA's OPEB plans.

Most of TMWA's net position is in capital assets. Capital assets, net of accumulated depreciation, increased by \$23.0 million in fiscal year 2022 as increases in capital assets from capital expenditures and contributions were greater than depreciation expense. Assets built by developers and contributed to TMWA were \$18.2 million. These assets are built to TMWA's standards and specifications. TMWA also put the Mt. Rose Water Treatment Plant into service in fiscal year 2022 and capitalized \$29.0 million of costs related to the project. Depreciation expense was \$33.6 million.

Total current liabilities decreased by \$0.4 million. This was primarily due to a reduction of \$1.2 million in construction contract and retention payables, which are affected by the size and timing of active projects.

Long term debt decreased \$20.9 million, due to principal payments on debt of \$15.4 million and amortization of bond premiums of \$4.4 million.

Net pension liability decreased by \$13.7 million as a result of an actuarial analysis performed for the Public Employees' Retirement System of the State of Nevada. See Note 11 to the financial statements for additional information on pensions.

# **Total Revenues for the Year Ended June 30, 2022**

### Results of Operations-Revenues

# Fiscal Year 2023 Summary

For fiscal year 2023, total operating revenues decreased \$1.5 million from fiscal year 2022. Water sales were \$107.1 million, \$1.1 million or 1.0% lower than in fiscal year 2022. Water sales were lower year over year due to lower consumption primarily due to cool temperatures and high precipitation in spring offset by a 2.5% rate increase in June 2022. Hydroelectric sales were \$0.3 million or 11.5% higher than fiscal year 2022 due to sustained river flows and plants being online for more time than in the prior year. Other operating revenue was \$0.7 million or 18.4% lower than the prior year due to lower revenues from construction water, new business engineering fees, and late fees.

Investment earnings were \$3.6 million in fiscal year 2023, \$1.6 million higher than fiscal year 2022 due to higher invested rates during the year.

For fiscal year 2023, capital contributions decreased by \$9.3 million. The main driver of the decrease was developer facility charges which were \$8.6 million less than 2022 and offset by developer infrastructure contributions which were \$1.7 million higher than 2022. A slowdown in construction in the area resulted in lower connection fees received from developers in fiscal year 2023. Grants were also \$2.1 million lower than fiscal year 2022 as only one grant award was received for the John Champion Park Restroom Installation Project under the Nevada Division of Environmental Protection's sub-grant agreement to One Truckee River.

#### Fiscal Year 2022 Summary

For fiscal year 2022, total operating revenues decreased \$0.8 million from fiscal year 2021. Water sales were \$108.2 million, \$1.6 million or 1.5% lower than in fiscal year 2021. Water sales were lower year over year due to lower consumption offset by two 2.5% rate increases in June 2021 and 2022. Hydroelectric sales were \$0.2 million or 7.1% lower than fiscal year 2021 due to low river flows in the late summer months of fiscal year 2022, which forced the plants to be taken offline. Other operating revenue was \$1.0 million or 35.7% higher than the prior year due to higher revenues from construction water, new business engineering fees, and late fees.

Investment earnings were \$2.0 million in fiscal year 2022, \$0.6 million lower than fiscal year 2021 due to lower invested rates during the year.

For fiscal year 2022, capital contributions increased by \$10.2 million. The main driver of the increase was developer infrastructure contributions which were \$8.0 million greater than fiscal year 2021. These contributions are infrastructure built by developers to TMWA's specifications and then dedicated to TMWA. They can vary from year to year depending on activity and the timing of project closeouts. Grants were also \$2.2 million higher than fiscal year 2021 primarily from the grant award TMWA received to repair the Glendale diversion, which was damaged in the 2017 flood event.

#### Results of Operations-Expenses

# Fiscal Year 2023 Summary

Operating expenses were \$114.4 million, \$15.8 million or 16.0% higher than fiscal year 2022. Spending on salaries and wages was \$2.6 million or 10.5% higher, due to Labor Market Index wage increases, step increases, and additions in headcount during the fiscal year. Employee benefits were \$6.4 million or 85.3% higher than prior year due mainly to higher pension expense related to Nevada PERS. Spending on services and supplies was \$5.5 million or 16.8% more than prior year primarily due to inflation and increased costs in power and chemicals.

Nonoperating expenses were \$9.1 million lower compared to prior year. Unrealized investment loss of \$1.6 million was the main driver for this decrease. In fiscal year 2022, TMWA had an unrealized investment loss of \$10.6 million included in nonoperating expenses.

#### Fiscal Year 2022 Summary

Operating expenses were \$98.6 million, \$0.4 million or 0.4% higher than fiscal year 2021. Spending on salaries and wages was \$1.6 million or 6.9% higher, due to wage increases and increases in headcount. Employee benefits were \$3.8 million or 33.6% lower than prior year due mainly to lower pension expense related to Nevada PERS. Spending on services and supplies was \$2.3 million or 7.5% more than prior year primarily due to inflation and increased costs in power, security, meter replacements, and vehicle fuel costs.

Nonoperating expenses were \$6.8 million higher compared to prior year. Unrealized investment loss of \$10.6 million was the main driver for this increase. In fiscal year 2021, TMWA had an unrealized investment loss of only \$2.4 million included in nonoperating expenses.

#### **CAPITAL ASSETS**

At June 30, 2023, TMWA's total capital assets were \$1,672.8 million before accumulated depreciation of \$588.9 million, for a net book value of \$1,083.9 million. Included in the total capital assets reported on the Statement of Net Position was \$63.8 million in construction work in progress.

At June 30, 2022, TMWA's total capital assets were \$1,599.0 million before accumulated depreciation of \$554.1 million, for a net book value of \$1,044.9 million. Included in the total capital assets reported on the Statement of Net Position was \$46.6 million in construction work in progress.

Detailed information about TMWA's capital assets can be found in Note 5 to TMWA's financial statements.

#### **LONG-TERM DEBT**

At June 30, 2023, TMWA had \$351.2 million in total reported debt outstanding. This amount reflects \$322.0 million in total outstanding principal indebtedness and \$29.1 million net bond

premium. Of the \$322.0 million in total reported debt outstanding, \$17.2 million was due within one year and is classified as short term indebtedness.

Total outstanding principal indebtedness of \$322.0 million as of June 30, 2023 reflects a decrease of \$16.5 million or 4.9% from total outstanding principal of \$338.5 million as of June 30, 2022. Total outstanding principal indebtedness of \$338.5 million as of June 30, 2022 reflects a decrease of \$15.4 million or 4.4% from total outstanding principal of \$353.9 million as of June 30, 2021.

During fiscal year 2023, TMWA maintained credit ratings from Standard and Poor's of AA+, outlook Stable and from Moody's of Aa2, outlook Stable. In March 2022, Fitch upgraded TMWA's credit rating to AAA, outlook Stable.

Detailed information about TMWA's indebtedness can be found in Note 7 to TMWA's financial statements.

#### **CONTACTING TMWA'S FINANCIAL MANAGEMENT**

This financial report was prepared for the benefit of the customers, bond investors, and the Board of Directors of the Truckee Meadows Water Authority. The Annual Comprehensive Financial Report was prepared to provide interested parties with a general overview of the Truckee Meadows Water Authority's accountability for the financial resources it manages. For questions or additional information, please contact the Truckee Meadows Water Authority's Finance Department at P.O. Box 30013, Reno, Nevada 89520-3013.

# **Note 1 - Summary of Significant Accounting Policies**

The financial statements of the Truckee Meadows Water Authority (TMWA) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental entities. A summary of the more significant accounting policies applied in the preparation of the accompanying basic financial statements follows.

# **Reporting Entity and Purpose**

TMWA is a Joint Powers Authority (JPA) formed in November 2000 under the Joint Powers Legislation of the State of Nevada, pursuant to a Cooperative Agreement among the City of Reno, Nevada, the City of Sparks, Nevada, and Washoe County, Nevada. TMWA was formed to purchase water assets (the Water System), undertake the water utility operations, and to develop, manage, and maintain supplies of water for the benefit of the Truckee Meadows communities. TMWA purchased the existing water system originally operated by Sierra Pacific Power Company (SPPCo), now known as NV Energy, Inc.

TMWA is governed by a seven-member Board of Directors (Board) appointed by:

- Reno City Council (3 seats)
- Sparks City Council (2 seats)
- Washoe County Commissioners (2 seats)

The cities and county representatives are not required to be elected officials. Modifications to the JPA were approved by the governing bodies in December 2009 which changed the at-large seat into a second seat for Washoe County. The amendments to the JPA were approved by the Attorney General's Office of the State of Nevada (State) effective February 3, 2010. The amendments were made in anticipation of the consolidation of TMWA and Washoe County's Community Services Department's water utility (WCWU) and the merger of another water utility named South Truckee Meadows General Improvement District (STMGID). The transfer of operations of WCWU and the merger of STMGID occurred on January 1, 2015 with TMWA as the continuing entity.

#### **Basis of Accounting**

TMWA's activities are accounted for as an enterprise fund (proprietary fund type). A fund is an accounting entity with a self-balancing set of accounts established to record the financial position and results of operations of the governmental entity. Activities of enterprise funds resemble activities of business enterprises; the purpose is to obtain and use economic resources to meet its operating objectives. TMWA's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recognized at the time they are earned, and expenses are recognized when the related liabilities are incurred.

A proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from an exchange transaction such as providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Nonoperating revenues and nonoperating expenses result from nonexchange transactions or ancillary services.

TMWA applies all applicable Governmental Accounting Standards Board (GASB) pronouncements in accounting and reporting for proprietary activities.

In accordance with GASB Statement No. 84, TMWA reports its two Other Postemployment Benefit (OPEB) Plans as a fiduciary fund. The OPEB Plans, which have a December 31 year-end, do not present the results of operations of TMWA or have a measurement focus. They are therefore not consolidated in TMWA's Statements of Net Position or Statements of Revenue, Expenses and Changes in Net Position.

# **Budgets and Budgetary Accounting**

TMWA adheres to the Local Government Budget and Finance Act (Act) incorporated within the Statutes of the State of Nevada. The Act and TMWA policy include the following major procedures to establish budgetary data:

- On or before April 15, TMWA's General Manager submits to the Board a tentative budget for the fiscal year commencing the following July 1.
- Public hearings on the tentative budget are held in May.
- Prior to June 1, at the public hearing, the Board indicates changes, if any, to be made to the tentative budget and adopts a final budget by the favorable vote of a majority of the members of the Board. The final budget must then be forwarded to the Nevada Department of Taxation for final approval.
- Any revisions that alter total appropriations must be approved in advance by the Board. Formal budgetary integration is employed as a management control device during the year.
- Budgets are adopted on a basis consistent with GAAP. Appropriations lapse at year-end.
- In accordance with State statute, actual expenses may not exceed the sum of operating and nonoperating appropriations.

#### **Cash and Investments**

Cash balances are, to the extent practical, invested as permitted by law. Monies that are not required for immediate obligations are invested.

Investments authorized by State statutes and TMWA's bond resolutions include, but are not limited to, U.S. Treasury instruments, U.S. government agency securities, agency issued mortgage backed securities (FNMA, FHLMC, GNMA), corporate notes meeting certain rating standards, money market mutual funds meeting certain criteria, certificates of deposit, repurchase agreements, commercial paper meeting certain standards, bankers acceptances, long-term forward sale contracts and guaranteed investment contracts meeting certain rating standards, the State's Local Government Investment Pools (LGIP), medium-term obligations of municipal issuers in the State that meet certain rating standards, and asset backed securities that meet certain rating standards. Investments are reported at fair value, including the investment with LGIP which is the same as TMWA's proportionate share of the pool's fair value.

The §501(c)(9) and §115 Other Postemployment Benefit (OPEB) Plans' net earnings from the State of Nevada Retirement Benefit Investment Fund (RBIF), an external investment pool, are based on the Trusts' original investment plus a monthly allocation of investment income (loss), including realized and unrealized gains and losses, which is the same as the value of the pool shares.

Restricted cash and investments are monies that are restricted by legal or contractual requirements.

# **Cash Equivalents**

Cash equivalents include short-term highly liquid investments (3 months or less at time of purchase) that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes of value.

#### **Accounts Receivable**

Accounts receivable is comprised of amounts due from TMWA's customers, net of an allowance for uncollectible accounts. Amounts due from TMWA's customers are comprised of amounts billed and an estimate of amounts earned but unbilled for water deliveries prior to fiscal year-end.

#### **Restricted Assets**

Certain proceeds of TMWA's water revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statements of Net Position because their use is limited by applicable bond covenants as follows:

- Current bond debt service used to segregate resources accumulated for debt service payments over the next twelve months.
- Future bond debt service used to report resources set aside to make up potential future deficiencies in the current bond debt service.
- Operations and maintenance used to report resources set aside to subsidize potential deficiencies from TMWA's operation that could adversely affect debt service payments.
- Renewal and replacement used to report resources set aside to subsidize potential deficiencies in cash flow for replacement of water facilities.
- Water rate stabilization used to report resources set aside to stabilize customer rates if significant water revenue fluctuations occur.

Certain assets of TMWA are classified as restricted assets on the Statements of Net Position because they were derived from contributions from developers to fund the water meter retrofit and water resource sustainability programs adopted under Title II of Public Law 101-618. Other assets of TMWA are classified as restricted assets on the Statements of Net Position because they are set aside to provide other postemployment benefits per the \$501(c)(9) Plan.

# **Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items have been classified as current.

#### **Capital Assets**

All purchased property, plant, and equipment is stated at cost. TMWA capitalizes all assets with a cost of at least \$5,000 and a useful life greater than one year. The cost of maintenance and repairs that do not increase productive capacity or materially extend the life of an asset are not capitalized. Developer contributed capital assets are recorded at acquisition value in the year of contribution to TMWA.

Depreciation is computed using the straight-line method over the assets' estimated useful lives (in years) as follows:

	Years	_	Years
Distribution mains	60-75	Canals	15-50
Plants	15-50	Reservoirs	20-75
Services	15-60	Vehicles	5-10
Pump stations	15-50	Furniture and fixtures	7-10
Tanks	65-75	Computer hardware and software	5-15
Wells	15-50	Equipment	5-10
Pressure reducing stations	15-60	Administration buildings	50
Hydroelectric facilities	20-80		

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the Statements of Net Position report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. TMWA's deferred outflows of resources include its deferred charge on refunding which results from the difference in the carrying value of refunded debt and its acquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. In addition, TMWA has deferred outflows of resources related to pensions and other postemployment benefits.

In addition to liabilities, the Statements of Net Position report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. TMWA has deferred inflows of resources related to leases, bond refundings, pensions and other postemployment benefits.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows and deferred inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of the State of Nevada (PERS) Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# **Other Postemployment Benefits**

For purposes of measuring TMWA's net OPEB liability (asset), deferred outflows and deferred inflows of resources, and OPEB expense, information about the fiduciary net position of TMWA's OPEB Plans and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by TMWA's OPEB Plans. For this purpose, TMWA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# **Compensated Absences**

Employees are permitted to accumulate earned but unused vacation and sick pay benefits. The liability for compensated absences is accrued as amounts are earned by employees to the extent it is likely TMWA will ultimately pay those benefits. The liability is included in current and noncurrent liabilities in the accompanying Statements of Net Position.

#### **Long-Term Debt**

Long-term debt is reported at face value, net of any premium or discounts, in the Statements of Net Position. Premiums and discounts are amortized using the effective interest method over the life of the related debt. Debt issuance costs are expensed in the period incurred.

#### **Classification of Revenues**

Operating revenues consist of water sales, hydroelectric sales, and miscellaneous fee income. Nonoperating revenues consist essentially of income derived from investments and reimbursement, if any, for nonoperating activities. Developer facility charges, will-serve contributions, and other contributions reflect payments primarily for water service. Developer infrastructure contributions are an estimation of the value of infrastructure built by developers and permanently dedicated to TMWA.

#### **Net Position**

Net Position is displayed in three classifications:

- Net investment in capital assets. This component represents TMWA's net position in its capital assets. It
  reflects the cost of capital assets, less accumulated depreciation and less the outstanding principal of
  related debt, excluding unspent proceeds.
- Restricted. This component reflects the carrying value of assets, less related liabilities, that are restricted by law or by other externally imposed restrictions, such as bond covenants. Assets restricted only by TMWA or Board imposed limitations are not included in the calculation.
- Unrestricted. This component represents the remaining net position balance that is available to support TMWA's operations and capital asset acquisition/construction.

When both restricted and unrestricted resources are available for use, it is TMWA's policy to use unrestricted resources first, then restricted resources as required.

#### Reclassifications

Certain amounts in the prior year statements have been reclassified for comparison purposes to conform to current year presentation. The reclassifications had no impact on the change in net position or total net position.

#### **Use of Estimates in Preparing Financial Statements**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

# **New Accounting Pronouncements**

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, which is effective for fiscal years beginning after June 15, 2022. The primary objective of this Statement is to improve financial reporting concerning subscription-based information technology arrangements. This Statement requires governments to report such arrangements as intangible assets and corresponding liabilities in their statements of net position. The adoption of this guidance in the fiscal year ended June 30, 2023, did not have a material impact on TMWA's financial statements.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*, which is effective for fiscal years beginning after December 15, 2023. The primary objective of this Statement is to create a more consistent model for accounting for compensated absences that can be applied to all types of compensated absence arrangements. This Statement requires governments to apply specific criteria in determining the liability to record in their statements of net position. TMWA is currently evaluating the effect the adoption of this GASB will have on its financial statements in the fiscal year ended June 30, 2024.

# Note 2 - Compliance with Nevada Revised Statutes and the Nevada Administrative Code

TMWA conformed to all significant statutory constraints on its financial administration during the year.

# Note 3 - Accounts Receivable, Net

Accounts receivable, net consisted of the following:

	<u>Ju</u>	ine 30, 2023	June 30, 2022		
Billed amounts	\$	5,887,249	\$	7,302,435	
Earned, but unbilled amounts		7,716,936		8,336,557	
		13,604,185		15,638,992	
Allowance for uncollectible accounts		(174,721)		(243,675)	
Accounts receivable, net	\$	13,429,464	\$	15,395,317	

#### **Note 4 - Cash and Investments**

In accordance with State statutes, TMWA's cash is deposited with insured banks. All money deposited by TMWA that is not within the limits of insurance must be secured by collateral. TMWA's deposits are collateralized by the Office of the State Treasurer/Nevada Collateral Pool.

The OPEB Plans' bank balances are covered by the Federal Deposit Insurance Corporation. Under the Plans' investment policies, the Plans' assets are limited to investments in the State of Nevada RBIF, and any investment authorized pursuant to Nevada Revised Statute (NRS) 355.170. The Plans invest their assets in the RBIF as allowed by the NRS 287.017 and the Nevada Administrative Code. The RBIF was established pursuant to NRS 355.220 and is administered by the Retirement Benefits Investment Board as an unrated external investment pool. The RBIF is not registered with the Securities and Exchange Commission as an investment company. Each participant acts as fiduciary for its particular share of the RBIF and is allocated earnings and expenses according to its proportional share in RBIF. Bank of New York, Mellon determines the fair value of the RBIF monthly.

As of June 30, 2023, TMWA had the following cash and investments maturities:

Total Cash and Investments	\$	1,778,019	\$ 	\$		\$	1,778,019	

Nevada Revised Statutes (NRS 355.170) set forth acceptable investments for Nevada governments. On September 20, 2017, the TMWA Board adopted an investment policy which extended TMWA's investment period from two years to five years. Nevada Revised Statutes and TMWA's investment policy set portfolio component thresholds to further limit its exposure to certain risks as set forth below.

#### **Interest Rate Risk**

Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from a rise in interest rates. This risk can be mitigated by diversification of durations of fixed rate investments held in the investment portfolio. As a means of limiting TMWA's exposure to this risk, TMWA constantly monitors the bond futures market and ladders investments accordingly to maximize investment returns while balancing the investment maturities with spending requirements. TMWA follows State statute limits of investment in obligations of an agency of the United States or a corporation sponsored by the United States government to those maturing within five years from the date of purchase.

#### **Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations and is a function of the credit quality ratings of investments. TMWA follows State statute for reducing exposure to investment credit risk by investing in U.S. Agencies securities; "AAA" rated money market mutual funds that invest in securities issued by the U.S. Government or agencies of the U.S. Government, and the State of Nevada Local Government Pooled Investment Fund (LGIP). TMWA has a debt reserve fund with LGIP, which is an unrated external investment pool with investment duration of 113 days at June 30, 2023, and 125 days at June 30, 2022.

At June 30, 2023, using Standard & Poor's rating scale, TMWA's investments were rated as follows:

S&P Rating	U.S. Treasuries	U.S. Agencies	LGIP	Money Market Mutual Funds	Certificates of Deposit	Corporate Notes	Total	
AAA	\$ —	\$ —	\$ —	\$ 543,103	\$ —	\$ 1,245,337	\$ 1,788,440

# **Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Securities held by TMWA or by TMWA's custodians are diversified to eliminate risk of loss from overconcentration of assets in a specific maturity, a specific issuer, or a specific class of securities.

At June 30, 2023 and 2022, the following investments by issuer exceeded 5% of TMWA's total investments:

	June 30, 2023						
U.S. Treasuries	\$	51,920,446	26 %				
Federal National Mortgage Association		33,408,276	17 %				
Federal Home Loan Banks		29,208,141	15 %				
Federated Hermes Treasury Obligations		23,353,030	12 %				
Federal Farm Credit Bank		13,890,905	7 %				
	June 30, 2022						
U.S. Treasuries	\$	42,223,874	20 %				
Federal National Mortgage Association		41,670,375	20 %				
Federal Home Loan Bank		28,076,563	13 %				
Tederal Home Loan Bank		20,070,303	/ -				
Federated Hermes Treasury Obligations		20,862,354	10 %				
		, ,					

#### **Investments Measured at Fair Value**

TMWA categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. TMWA does not have any investments that are measured using Level 3 inputs.

TMWA had the following recurring fair value measurements as of June 30, 2023:

			Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)			Significant Other servable Inputs (Level 2)	
Investments by fair value level						
U.S. Treasuries	\$ 51,920,446	\$	51,920,446	\$	_	
U.S. Agencies	85,897,376		_		85,897,376	
Certificates of Deposit	4,118,909		_		4,118,909	
Corporate Notes	 30,012,335				30,012,335	
	171,949,066	\$	51,920,446	\$	120,028,620	
LGIP	2,404,342					
Money Market Mutual Funds*	31,381,893					
	\$ 205,735,301					

TMWA had the following recurring fair value measurements as of June 30, 2022:

				Fair Value Mea	sureme	urements Using	
		Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)			Significant Other servable Inputs (Level 2)	
Investments by fair value level							
U.S. Treasuries	\$	42,223,874	\$	42,223,874	\$	_	
U.S. Agencies		104,674,294		_		104,674,294	
Certificates of Deposit		8,186,868		_		8,186,868	
Corporate Notes		33,241,835				33,241,835	
		188,326,871	\$	42,223,874	\$	146,102,997	
LGIP		2,337,315					
Money Market Mutual Funds*		35,281,891					
	\$	225,946,077					

<sup>\*</sup>Money market mutual funds are not held primarily for the purpose of income or profit and have remaining maturities at time of purchase of one year or less. Therefore, the money market mutual funds are recorded at amortized cost.

The following is a description of the valuation methodologies used by TMWA for its Level 2 assets:

U.S. Agencies – Valued using matrix pricing and market corroborated pricing models.

Certificates of Deposit - Valued using interactive date pricing and reference data.

Corporate Notes - Valued using institutional bond quotes based on various market and industry inputs.

# Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2023 follows:

#### Note 6 - Leases

TMWA has an agreement to lease a portion of its facilities to a third party. The agreement term began in 1998 and allowed for five 5-year renewal terms after the initial term expired in 2003. TMWA foresees continuing the lease through 2028. Rent was \$6,000 for the first year and is increased based on CPI every five years with the renewal of the lease. TMWA used a borrowing rate of 3.17% to recognize this lease under GASB 87, *Leases*. During the fiscal year ended June 30, 2023, TMWA recognized \$9,729 in lease revenue and \$1,581 in interest revenue related to this agreement. At June 30, 2023, TMWA reported \$48,188 in lease receivables and \$44,591 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement. During the fiscal year ended June 30, 2022, TMWA recognized \$9,729 in lease revenue and \$1,850 in interest revenue related to this agreement. At June 30, 2022, TMWA reported \$57,871 in lease receivables and \$54,321 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement.

TMWA has an agreement to lease a portion of its facilities to a third party. The agreement term began in 1998 and allowed for five 5-year renewal terms after the initial term expired in 2003. TMWA foresees continuing the lease through 2028. Rent was \$4,000 for the first year and is increased based on CPI every five years with the renewal of the lease. The third amendment to the agreement also added \$3,000 per year to the base rent. TMWA used a borrowing rate of 3.17% to recognize this lease under GASB 87, *Leases*. During the fiscal year ended June 30, 2023, TMWA recognized \$7,859 in lease revenue and \$1,514 in interest revenue related to this agreement. At June 30, 2023, TMWA reported \$44,501 in lease receivables and \$43,224 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement. During the fiscal year ended June 30, 2022, TMWA recognized \$8,149 in lease revenue and \$988 in interest revenue related to this agreement. At June 30, 2022, TMWA reported \$29,297 in lease receivables and \$28,522 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement.

TMWA has an agreement to lease a portion of its facilities to a third party. The agreement term began in 2000 and allowed for three 5-year renewal terms after the initial term expired in 2005. A first amendment to the agreement extended the term for another five years to 2025 and allows for two 5-year renewal terms after the contract expires in 2025. Rent was \$13,800 for the first year and was originally increased based on CPI every five years with the renewal of the lease. The first amendment to the agreement added \$3,600 per year to the base rent and specified that the yearly rent will increase by 10% upon the commencement of each extension term. TMWA used a borrowing rate of 2.78% to recognize this lease under GASB 87, *Leases*. During the fiscal year ended June 30, 2023, TMWA recognized \$19,936 in lease revenue and \$8,196 in interest revenue related to this agreement. At June 30, 2023, TMWA reported \$263,572 in lease receivables and \$249,195 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement. During the fiscal year ended June 30, 2022, TMWA recognized \$19,995 in lease revenue and \$8,515 in interest revenue related to this agreement. At June 30, 2022, TMWA reported \$278,163 in lease receivables and \$269,936 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement.

TMWA has an agreement to lease a portion of its land's air space to a third party. The agreement term began in 2007 and allowed for two 5-year renewal terms after the initial term expired in 2014. TMWA foresees continuing the lease through 2024. Rent was \$3,000 for the first year and is increased 2.5% each year. TMWA used a borrowing rate of 2.37% to recognize this lease under GASB 87, *Leases*. During the fiscal year ended June 30, 2023, TMWA recognized \$3,407 in lease revenue and \$89 in interest revenue related to this agreement. At June 30, 2023, TMWA reported \$0 in lease receivables and \$2,271 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement. During the fiscal year ended June 30, 2022, TMWA recognized \$3,409 in lease revenue and \$213 in interest revenue related to this agreement. At June 30, 2022, TMWA reported \$4,355 in lease receivables and \$5,681 in deferred inflows of resources, which will be recognized as revenue over the term of the lease, related to this agreement.

# **Note 7 - Long-Term Liabilities**

# **Long-Term Debt**

On June 8, 2005, TMWA entered into a loan contract with the State of Nevada Drinking Water State Revolving Fund (DWSRF) to fund TMWA's Arsenic Mitigation Project. TMWA made draws on this contract as construction proceeded, totaling \$4,669,565. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan will be payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds, and any future senior lien bonds.

On August 15, 2006, TMWA began an inaugural Tax-Exempt Commercial Paper (TECP) program that originally authorized the issuance of up to \$160,000,000 in TECP notes. The first draw was on August 16, 2006 for \$30,000,000, and a second draw was on December 5, 2006 for \$13,000,000. The proceeds from the first two draws were used solely to purchase water rights for future sale of will-serve commitments to developers. A third draw was made on February 15, 2008 for \$25,000,000 to fund certain construction projects on an interim basis. A fourth draw was made on June 28, 2011 for \$11,400,000 for the purpose of redeeming the remaining outstanding Series 2001A Bonds which were callable on July 1, 2011. TMWA redeemed the \$11,400,000 issued in the fourth draw on December 10, 2012. TMWA issued a fifth draw for \$27,000,000 on December 17, 2014 to refund, on an advanced basis, \$26,100,000 in Washoe County water obligations to effect the water utility consolidation between Washoe County and TMWA with proceeds transferred to escrow on the date of issuance. The funds in escrow were distributed to the Washoe County bondholders as of July 1, 2015, the call date of the bonds. On various dates in fiscal year 2016, TMWA redeemed \$7,200,000. On September 7, 2016, TMWA redeemed \$4,400,000, and on September 5, 2017, TMWA redeemed \$9,200,000. On May 15, 2018 TMWA redeemed \$44,200,000 as part of the Series 2018 Water Revenue Refunding (see below). This left an outstanding balance of \$30,000,000 as of June 30, 2018. On September 4, 2018, TMWA redeemed \$6,500,000, on October 2, 2019, TMWA redeemed \$5,000,000. and on March 3, 2020, TMWA redeemed \$2,500,000. This left an outstanding balance of \$16,000,000 as of June 30, 2020. In the first half of fiscal year 2021, TMWA redeemed \$3,000,000 of the \$16,000,000 outstanding. The remaining \$13,000,000 was redeemed in June 2021 as part of the 2021 Subordinate Water Refunding Bonds (see below). TMWA has remaining authorization to issue \$53,600,000 as of June 30, 2023.

On July 25, 2009, TMWA entered into a loan contract with the DWSRF, the 2009A DWSRF Loan, to partially fund TMWA's Mogul Bypass Siphon Project. The loan was provided through the American Recovery and Reinvestment Act (ARRA) stimulus funding provided by the federal government. TMWA made draws on this contract as construction proceeded, totaling \$2,401,120. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan will be payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the senior lien 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, and any future senior lien bonds.

On February 11, 2010, TMWA entered into a loan contract with DWSRF, the 2010A DWSRF Loan, to fund TMWA's Glendale Water Treatment Plant Diversion Project. Total construction costs for the Glendale Diversion Project were less than expected. Consequently, TMWA requested and was granted that the remaining loan authorization be able to fund final improvements on the Highland Canal. During fiscal year 2013, the loan was finalized in the total amount of \$4,381,614. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan are payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the,

senior lien 2015A Refunding Bonds the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds as well as any future senior lien bonds.

On December 31, 2014, TMWA entered into a loan contract with the DWSRF, to transfer the remaining loan balance of the Washoe County Water Utility 2005 DWSRF loan to TMWA. The transfer was in conjunction with the transfer of operations of the Washoe County Water Utility into TMWA on January 1, 2015. The loan contract was entered into by the Washoe County Water Utility to construct the Longley Lane Water Treatment Facility, a facility that was transferred to TMWA. The loan balance of \$9,109,437 was transferred to TMWA under the same terms that existed with Washoe County as the TMWA 2014 DWSRF loan. The original balance of the loan was \$14,162,268. The loan constitutes a special limited obligation of TMWA, and the principal and interest on the loan are payable solely from and secured by an irrevocable pledge of the net revenues, derived from the operation of the Water System. When it was transferred this loan had a remaining term of 10 years. This loan is subordinate to the senior lien 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds as well as any future senior lien bonds.

On April 14, 2015, TMWA issued \$28,750,000 in Series 2015A Refunding Bonds which constitute special limited obligations of TMWA. These bonds were sold to refund on a current basis \$33,050,000 in maturities of the Series 2005A Bonds. The proceeds of the refunding bond issue were placed in an irrevocable trust for the purpose of generating financial resources to defease the callable portion of the Series 2005A Bonds. The Series 2005A refunded bonds are considered to be defeased and the liability has been removed from TMWA's Statement of Net Position. The net carrying amount of the old debt exceeded the reacquisition price by \$140,645. The unamortized balance is being amortized as a component of interest income over the remaining life of the old and new debt, which has the same remaining life. This current refunding was undertaken to reduce total debt service payments over approximately 21 years by \$6,563,813 and resulted in an economic gain of \$4,575,309. The funds held in the irrevocable trust were distributed to 2005A bondholders as of July 1, 2015, the call date of the 2005A Bonds.

On July 30, 2015, TMWA entered into a loan contract with the DWSRF, the 2015B DWSRF Loan, to fund TMWA's surface and groundwater supplies in the North Valleys particularly the Stead area, Lemmon Valley area, and North Virginia Corridor. TMWA made draws on this contract as construction proceeded, totaling \$8,971,562. The loan constitutes a special limited obligation of TMWA and the principal and interest on the loan are payable solely from and secured by an irrevocable pledge of the net revenues derived from the operation of the Water System. This loan has a term of 20 years. This loan is subordinate to the senior lien 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds, the 2018 Refunding Bonds as well as any future senior lien bonds. This loan is also subordinate to the 2005 DWSRF Bonds, the 2009A DWSRF ARRA Bonds, the 2010A DWSRF Bonds, the 2014 DWSRF Bonds, and the 2015B DWSRF Bonds.

On April 12, 2016, TMWA issued \$124,790,000 in Series 2016 Water Revenue Refunding Bonds which constitute special limited obligations of TMWA. These bonds were sold to refund \$148,015,000 in maturities of the Series 2006 Bonds. The proceeds of the refunding bond issue were used to purchase U.S. Government securities that were placed in an irrevocable trust for the purpose of generating financial resources for the future debt service payments of the refunded Series 2006 Bonds. As a result, the refunded bonds were considered to be defeased and the liability has been removed from TMWA's Statement of Net Position. The reacquisition price exceeded the net carrying amount of the old debt by \$3,092,808. The unamortized balance is being amortized as a component of interest expense over the original life of the old debt, which has a shorter remaining life in comparison to the remaining life of the refunding bonds. This current refunding was undertaken to reduce total debt service payments over 22 years by \$4,332,501, and resulted in an economic gain of \$15,025,124. The funds in the irrevocable trust were distributed to 2006 bondholders as of July 1, 2016, the call date of the 2006 Bonds.

On April 11, 2017, TMWA issued \$147,415,000 in Series 2017 Water Revenue Refunding Bonds which constitute special limited obligations of TMWA. These bonds were sold to refund \$214,290,000 in maturities of the Series 2007 Bonds. The proceeds of the refunding bond issue along with \$32,865,308 from TMWA's cash balances were used to purchase U.S. Government securities that were placed in an irrevocable trust for the purpose of generating financial resources for the future debt service payments of the refunded Series 2007 Bonds. As a result, the refunded bonds were considered to be defeased and the liability has been removed from TMWA's Statement of Net Position. The reacquisition price exceeded the net carrying amount of the old debt by \$289,903. The unamortized balance is being amortized as a component of interest income over the remaining life of the old and new debt, which has the same remaining life. This current refunding was undertaken to reduce total debt service payments over 14 years by \$15,301,534, and resulted in an economic gain of \$15,948,105. The funds in the irrevocable trust were distributed to 2007 bondholders as of July 1, 2017, the call date of the 2007 Bonds.

On May 15, 2018, TMWA issued \$38,835,000 in Series 2018 Water Revenue Refunding Bonds which constitute special limited obligations of TMWA. The proceeds of the bond issue of \$44,601,977 were used to refund or redeem \$44,200,000 in maturities of TECP (see above). This transaction was executed to provide a fixed rate of interest expense over the life of the refunding, which was effected by replacing variable rate TECP debt with fixed rate bonds.

On June 3, 2021, TMWA issued \$13,000,000 in Series 2021 Subordinate Water Revenue Refunding Bonds which constitute special limited obligations of TMWA. The Bonds were sold pursuant to a Continuing Covenant Agreement as a Direct Purchase to Wells Fargo Municipal Capital Strategies, LLC. The proceeds of the bond issue of \$13,000,000 were used to refund or redeem \$13,000,000 in maturities of TECP (see above). This transaction was executed to provide a fixed interest rate over the life of the refunding, which was effected by replacing variable rate TECP debt with fixed rate bonds. The provisions of the loan agreement require level, annual debt service for full repayment of the bonds through fiscal year 2028. This loan is subordinate to the senior lien 2015A Refunding Bonds, the 2016 Refunding Bonds, the 2017 Refunding Bonds and the 2018 Refunding Bonds.

The following schedules summarize the changes in long-term debt obligations as of June 30, 2023:

	Final Maturity Date	Authorized	Balance July 1, 2022	Additions	Deletions	Balance June 30, 2023	Due in 2023-2024

# **Compensated Absences**

The following schedules summarize the changes in the compensated absences liability as of June 30, 2023 and 2022:

	Beginning Balance	Increases	Decreases	Ending Balance	Oue Next scal Year
2023 Compensated absences liability	\$ 3,309,672	\$ 3,079,140	\$ 2,677,292	\$ 3,711,520	\$ 631,564
2022 Compensated absences liability	\$ 3,524,440	\$ 2,952,403	\$ 3,167,171	\$ 3,309,672	\$ 525,397

#### **Note 8 - Net Position**

#### **Restricted Net Position**

TMWA records the following restrictions of net position:

<u>Restricted in accordance with bond covenants</u>: TMWA's bond covenants require certain restrictions of TMWA's net position for operations and maintenance, debt service, renewal and replacement, and water rate stabilization.

<u>Restricted for water meter retrofit program</u>: This restriction was created to segregate the portion of net position derived from contributions made by developers to fund the water meter retrofit program. The restricted balance of \$5,711,052 as of June 30, 2022 was entirely depleted during the fiscal year ended June 30, 2023.

<u>Restricted for water resource sustainability</u>: This restriction replaced the water meter retrofit program in January 2019 and was created to segregate the portion of net position derived from contributions made by developers to fund certain projects that are intended to benefit TMWA's long-term water resources sustainability.

Restricted in accordance with the STMGID merger agreement: The merger agreement with STMGID required that certain funds transferred to TMWA by STMGID may only be used for three purposes: a) payment of contingent liabilities b) construction of facilities to move surface water into the STMGID water utility, and c) replacement, rehabilitation and/or repair of the STMGID facilities. The restricted balance of \$1,544,050 as of June 30, 2022 was entirely depleted during fiscal year ended June 30, 2023.

Restricted for net other postemployment benefits: This restriction was created to segregate the portion of net position related to TMWA's net other postemployment benefit asset in the §501(c)(9) Plan. See Note 12 for additional information.

# **Board Designation**

On September 19, 2018, the Board adopted a resolution to designate 3% of total projected water sales for the most recent three year forecast as a rate stabilization fund. This amount was \$11,126,919 and \$10,422,851 as of June 30, 2023 and 2022, respectively. This designation is not reflected as restricted net position but is considered a designated portion of unrestricted net position.

# **Note 9 - Contingent Liabilities**

#### Mt. Rose Fan Domestic Well Program

As part of the transfer of operations with the Washoe County water utility, TMWA also agreed to continue Washoe County's Mt. Rose-Galena Fan Domestic Well Mitigation Program, which provides for the reimbursement of specific well deepening costs or water system connection charges, incurred by property owners within the program area, whom experienced or will experience an "unreasonable adverse effect" as a result of municipal groundwater pumping. TMWA's continuation of the program provides continuity for domestic well owners in the specific program and provides protection of shared groundwater resources in the program area. TMWA's budget includes projected costs for administering the domestic well mitigation plan.

#### Litigation

From time to time, TMWA is named as a party to various lawsuits, claims, or other legal and regulatory proceedings that arise in the ordinary course of TMWA's business. TMWA accrues reserves when a loss is probable, and the amount of such loss can be reasonably estimated. Management does not believe that the outcome of these proceedings, individually and collectively, will have a material effect on TMWA's financial position.

# Note 10 - Risk Management

TMWA is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. TMWA is responsible for group health insurance premiums payable to the City of Reno for coverage in the City's self-funded health insurance program. All other significant risks are covered by commercial insurance purchased from independent third parties. There have been no settlements in excess of insurance coverage for the past three years.

# Note 11 - Defined Benefit Pension Plan and Other Employee Benefits

# **Defined Benefit Pension Plan**

#### Plan Description

TMWA contributes to the Public Employees' Retirement System of the State of Nevada (PERS). PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system. PERS was established by the Nevada Legislature in 1947, effective July 1, 1948. PERS is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

# Benefits Provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering PERS on or after January 1, 2010 and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering PERS on or after January 1, 2010, there is a 2.5% multiplier. Members entering PERS on or after July 1, 2015 have a 2.25% multiplier. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

#### Vesting

Members entering PERS prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, or at any age with thirty years of service. Members entering PERS on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with ten years of service, or any age with thirty years of service. Members entering PERS on or after July 1, 2015 are eligible for retirement at age 65 with five years of service, or at age 62 with ten years of service, or at age 55 with thirty years of service, or at any age with thirty-three and a third years of service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Members become fully vested as to benefits upon completion of five years of service.

#### Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans.

Contributions are shared equally by employer and employee. Employees can take a reduced salary and have contributions made by the employer (EPC) or can make contributions by a payroll deduction matched by the employer. TMWA contributes under the employer-pay option.

PERS' basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund PERS on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

The employer-pay contribution (EPC) rate was 29.75% and 29.75% for fiscal years June 30, 2023 and 2022, respectively. As of July 1, 2023, the EPC rate increased to 33.50%. TMWA's contributions were \$3,819,668 and \$3,496,584 for the years ended June 30, 2023 and 2022, respectively.

# PERS Investment Policy

PERS' policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of PERS.

The following was the PERS Board adopted policy target asset allocation as of June 30, 2022:

	Target Allocation	Long-Term Geometric Expected Real Rate of Return
Domestic Equity	42%	5.50%
International Equity	18%	5.50%
Domestic Fixed Income	28%	0.75%
Private Markets	12%	6.65%

The following was the PERS Board adopted policy target asset allocation as of June 30, 2021:

	Target Allocation	Long-Term Geometric Expected Real Rate of Return
Domestic Equity	42%	5.50%
International Equity	18%	5.50%
Domestic Fixed Income	28%	0.75%
Private Markets	12%	6.65%

#### *Net Pension Liability*

At June 30, 2023, TMWA reported a liability for its proportionate share of the net pension liability of \$57,394,508. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

At June 30, 2022, TMWA reported a liability for its proportionate share of the net pension liability of \$28,552,406. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

TMWA's proportion of the net pension liability was based on TMWA's share of contributions in PERS pension plan relative to the total contributions of all participating PERS employers and members. At June 30, 2022 and 2021, TMWA's proportion was 0.3179 and 0.3131 percent, respectively, representing an increase of 0.0048 percent and an increase of 0.0102 percent from its proportion measured at June 30, 2021 and 2020, respectively.

# Pension Liability Discount Rate Sensitivity

The following presents the net pension liability of TMWA measured as of June 30, 2022 and 2021, calculated using the discount rate of 7.25%, and what TMWA's net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the discount rates used in each year's valuation:

	1% Decrease in Discount Rate (6.25%)		Discount Rate (7.25%)		1% Increase in Discount Rate (8.25%)	
Net Pension Liability, June 30, 2022	\$	88,119,345	\$	57,394,508	\$	32,041,907
	1% Decrease in Discount Rate (6.25%)		D	viscount Rate (7.25%)		% Increase in iscount Rate (8.25%)
Net Pension Liability, June 30, 2021	\$	56,846,925	\$	28,552,406	\$	5,211,743

# Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the PERS ACFR, available on the PERS website, www.nvpers.org.

#### Actuarial Assumptions

TMWA's June 30, 2023 net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. TMWA's June 30, 2022 net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	June 30, 2022	June 30, 2021
Inflation Rate	2.50%	2.50%
Payroll Growth	3.50% including inflation	3.50% including inflation
Investment Rate of Return	7.25%	7.25%
Productivity Pay Increase	0.50%	0.50%
Projected Salary Increases	4.20% to 9.10%, depending on service. Rates include inflation and productivity increases.	4.20% to 9.10%, depending on service. Rates include inflation and productivity increases.
Consumer Price Index	2.50%	2.50%
Other Assumptions	Same as those used in the June 30, 2022 funding actuarial valuation	Same as those used in the June 30, 2021 funding actuarial valuation

For the year ended June 30, 2022, mortality rates for non-disabled regular members were based on the Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 15% for females, projected generationally with the two-dimensional monthly improvement scale MP-2020. Mortality rates for disabled regular members were based on the Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 20% for males and 15% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

For the year ended June 30, 2021, mortality rates for non-disabled regular members were based on the Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 15% for females, projected generationally with the two-dimensional monthly improvement scale MP-2020. Mortality rates for disabled regular members were based on the Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 20% for males and 15% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2022 and 2021 valuations were based on the results of the experience review issued September 10, 2021.

The projection of cash flows used to determine the discount rate of 7.25% assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2022 and June 30, 2021.

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the years ended June 30, 2023 and 2022, TMWA recognized pension expense of \$10,619,665 and \$4,812,879, respectively.

At June 30, 2023, TMWA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows f Resources	Deferred Inflows Resources
Differences between expected and actual experience	\$ 7,431,641	\$ 41,001
Changes in assumptions or other inputs	7,372,725	
Net difference between projected and actual earnings on pension plan investments	700,249	_
Changes in TMWA's proportion and differences between TMWA's contributions and TMWA's proportionate contributions	2,918,918	116,374
TMWA contributions subsequent to the measurement date	3,819,668	
	\$ 22,243,201	\$ 157,375

Deferred outflows of resources of \$3,819,668 resulted from TMWA contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2024.

At June 30, 2022, TMWA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,162,740	\$ 200,941
Changes in assumptions or other inputs	9,479,892	
Net difference between projected and actual earnings on pension plan investments	_	23,297,856
Changes in TMWA's proportion and differences between TMWA's contributions and TMWA's proportionate contributions	3,807,433	211,760
TMWA contributions subsequent to the measurement date	3,496,584	
	\$ 19,946,649	\$ 23,710,557

Deferred outflows of resources of \$3,496,584 resulted from TMWA contributions subsequent to the measurement date and were recognized as a reduction of the net pension liability in the year ended June 30, 2023.

The average of the expected remaining service lives of all employees that are provided with pensions through PERS (active and inactive employees) determined at July 1, 2021 (the beginning of the measurement period ended June 30, 2022) is 5.7 years.

Other estimated amounts reported by TMWA as deferred outflows of resources and deferred inflows of resources related to pensions at June 30, 2023 will be recognized in pension expense as follows:

2024	\$ 3,386,531
2025	2,754,678
2026	2,618,272
2027	8,262,978
2028	1,243,699

#### Additional Information

The PERS ACFR includes additional information including information supporting the schedule of employer allocations and the schedule of pension amounts by employer. This report is available on the PERS website at www.nvpers.org under Quick Links – Publications.

# **Deferred Compensation Plans**

All employees of TMWA are eligible to participate in a Section 457 Deferred Compensation Plan, monies of which are maintained in a trust, separate from the general assets of TMWA. In addition to the Section 457 Deferred Compensation Plan, all employees are eligible to participate in a Section 401(a) Money Purchase Retirement Plan, monies of which are maintained in a trust, separate from the general assets of TMWA. For the years ended June 30, 2023 and June 30, 2022, TMWA had matching contributions totaling \$1,700,290, and \$1,550,717, respectively.

# Note 12 - Other Postemployment Benefit (OPEB) Plans

TMWA has two Other Postemployment Benefit (OPEB) Plans referred to as the §501(c)(9) and §115 plans. The §501(c)(9) plan was established for the benefit of transferred employees from Sierra Pacific Power Company and all subsequent new hires until the plan closed, effective December 13, 2018. The §115 Plan plan was formed to provide postemployment benefits for employees who transferred from Washoe County as a result of the water utility consolidation. Both plans reference the Internal Revenue Code sections under which the plans were formed. Both plans' investments are held by the Nevada Retirement Benefits Investment Board.

Census data as of June 30, 2023 for both plans is as follows:

	§501(c)(9) Plan	§115 Plan
Retirees currently receiving benefits	70	7
Retirees entitled to, but not yet receiving benefits	2	3
Active plan members	153	12
Total	225	22

Census data as of June 30, 2022 for both plans is as follows:

	§501(c)(9) Plan	§115 Plan
Retirees currently receiving benefits	62	7
Retirees entitled to, but not yet receiving benefits	1	1
Active plan members	161	14
Total	224	22

#### Plan Descriptions, Eligibility Information and Funding Policies

# §501(c)(9) Plan

Plan Description. The §501(c)(9) plan known as the Truckee Meadows Water Authority Post-Retirement Medical Plan and Trust (Plan), is a single-employer defined benefit OPEB plan that was established to provide eligible TMWA employees with postemployment health benefits. The Plan was amended to provide post-retirement life insurance benefits in July 2011. Pursuant to Nevada State Administrative Regulations, adopted in September 2008, the Plan is governed by not less than three, but not more than five trustees. Four trustees were appointed by the TMWA Board: two from non-represented employees and two from represented employees. The Plan issues a financial report that includes the financial statements and required supplementary information. That report may be obtained by contacting TMWA in writing at P.O. Box 30013, Reno, NV 89520-3013.

Eligibility. Effective December 13, 2018, the Board adopted a resolution to close the Plan to employees hired after December 13, 2018. Existing employees and plan participants currently receiving benefits were not impacted by this resolution. There are three employee classifications eligible for benefits: a pre-January 1, 1998 collective bargaining unit group, a post-December 31, 1997 collective bargaining unit group, and a group for management, professional, and administrative (MPAT) personnel hired prior to December 14, 2018. Eligibility requirements benefit levels, employee contributions, and employer contributions are amended through TMWA's collective bargaining agreements for its represented employees and by the TMWA Board with respect to MPAT employees.

Employees must have at least ten years of service to be eligible for benefits and must be at least 55 years of age. The pre-January 1, 1998 group of represented employees will receive a subsidy as a percentage of the total health premium, dependent upon years of service and age of retirement, with a maximum subsidy of 85% with 20 years

of credited service. Employees with 20 or more years of service electing the Medicare Risk Contract would pay nothing towards health premiums. For this group, dependents are also covered. The post-December 31, 1997 group of represented employees will receive a total subsidy of \$1,250 times years of service towards health care premiums. This amount does not grow with interest and once exhausted a retiree may convert to COBRA, but only for the 18 month continuation period.

For MPAT employees, the annual subsidy is \$235 times years of service, up to 30 years, prorated for each month of retirement while under the age of 65. On or after the age of 65, the subsidy is \$105 times years of service prorated for each month of retirement while age 65 and older. If an MPAT employee retires and draws benefits before age 62, the subsidy is reduced by 5% for each full year retirement precedes age 62.

There is no extra subsidy for spousal or dependent coverage except continuation benefits provided for under COBRA. Retirees are responsible for the remaining portion of premiums.

<u>Funding Policy.</u> Beginning in fiscal year 2011, the plan has funded retiree benefits through its Voluntary Employee Benefit Association (VEBA) that TMWA established as an irrevocable trust for funding of the postemployment health benefits. TMWA funds the plan based on the actuarially determined contribution (ADC) each year.

# §115 Plan

Plan Description. On December 17, 2014, TMWA formed The Truckee Meadows Water Authority OPEB Trust Fund (§115 Plan), a single-employer defined benefit OPEB plan that was established to provide certain eligible TMWA employees with postemployment health benefits. This specific plan was formed to provide postemployment benefits to qualified transferred Washoe County employees as a result of the water utility transfer of operations. STMGID had no employees and was contractually operated by Washoe County. The §115 Plan is a closed plan that will provide future benefits to the remaining eligible transferred employees and no new beneficiaries can be enrolled in this plan. The Plan issues a financial report that includes the financial statements and required supplementary information. That report may be obtained by contacting TMWA in writing at P.O. Box 30013, Reno, NV 89520-3013.

<u>Eligibility</u>. There are two employee classifications eligible for benefits in this plan: Tier I and Tier II classifications.

For Tier I retirees that have at least ten years but less than 15 years of combined full-time employment with Washoe County and/or TMWA, the maximum benefits payable by the §115 Plan will be 50% of the premium for coverage of such retiree under the benefit plans. For Tier I employees that have at least fifteen years but less than twenty years of combined full-time employment with Washoe County and/or TMWA, the maximum benefits payable by the §115 Plan will be 75% of the premium for coverage of such retiree under the benefit plans. For Tier I employees that have at least twenty years of combined full-time employment with Washoe County and/or TMWA, the maximum benefits payable by the §115 Plan will be 100% of the premium for coverage of such retiree under the benefit plans.

Tier I retirees who have attained the Medicare Eligibility Age (currently age 65) during a plan year must enroll in and pay the cost of Medicare Part "A" and Medicare Part "B" or Medicare Part "C" coverage, and the §115 Plan will become the secondary payer regardless of whether the retiree enrolls in the Medicare program or not. The Medicare Eligibility Age is currently defined as age 65 but will be changed if Medicare changes the eligibility age.

For Tier II retirees the maximum benefits to be paid by the §115 Plan who have not attained Medicare Eligibility Age (currently age 65) is to be the same amount as the premium paid for group health coverage by an employer for coverage of non-state employees under the Nevada State Public Employee Benefit Plan (PEBP) Retiree Health Insurance plan. The 2003 Nevada Legislature passed legislation (AB 286) that afforded public employees of Nevada political subdivisions the opportunity to enroll, upon their retirement in the PEBP Retiree Health Insurance Plan and obligated public employers of enrolled retirees to pay a portion of the medical premium on the retiree's behalf (the Subsidy). Tier II Retirees are entitled to receive the Subsidy from the §115 Plan towards their coverage under the employer Benefit Plans rather than the PEBP Retiree Health Plan.

Tier II retirees who have attained the Medicare Eligibility Age (currently age 65) or older will instead receive benefits equal to the equivalent of the State of Nevada's Medicare Exchange Retiree HRA Contribution Subsidy based upon the combined years of service with Washoe County and/or TMWA and must elect Medicare. The Medicare Eligibility Age is currently defined as age 65 but will be changed if Medicare changes the eligibility age.

In order to receive the benefits described, the Tier II employee must be an employee of TMWA immediately prior to drawing their retirement benefits.

<u>Funding Policy</u>. The plan funds retiree benefits through an irrevocable trust for funding of the postemployment health benefits. TMWA funds the §115 Plan based on the ADC each year.

# **OPEB Expense and Net Position**

Total OPEB Expense (Benefit) recognized for fiscal years June 30, 2023 and 2022 is below:

	<u>§50</u>	01(c)(9) Plan	§115 Plan	Total
2023	\$	(445,238)	\$ 60,120	\$ (385,118)

# **Actuarial Valuation Assumptions**

The total OPEB liability as of December 31, 2022 and 2021 was determined using the following actuarial assumptions.

Healthcare trend rate (both plans) - TMWA plan medical premiums and per capita claims costs are assumed to increase at the following rates:

Effective January 1	Premium Increase	Effective January 1	Premium Increase				
2022	Actual	2050-2059	4.6%				
2023	5.8%	2060-2066	4.5%				
2024	5.6%	2067-2068	4.4%				
2025	5.4%	2069-2070	4.3%				
2026-2027	5.2%	2071	4.2%				
2028-2029	5.1%	2072-2073	4.1%				
2030-2038	5.0%	2074-2075	4.0%				
2039	4.9%	2076	3.9%				
2040-2043	4.8%	Thereafter	3.9%				
2044-2049	4.7%						

# Additional significant assumptions are listed below for each plan:

Assumption	§501(c)(9) Plan	§115 Plan					
Valuation Date	December 31, 2021	December 31, 2021					
Funding Method	Entry Age Normal Cost, level percent of pay	Entry Age Normal Cost, level percent of pay					
Asset Valuation Method	Fair value of assets	Fair value of assets					
Mortality	MacLeod Watts Scale 2022 applied generationally from 2010	MacLeod Watts Scale 2022 applied generationally from 2010					
Long-Term Return on Assets and Discount Rate	6.0% net of plan investment and trust expenses	6.0% net of plan investment and trust expenses					
Participants Valued	Only current active employees and retired participants and covered dependents are valued. No future entrants are considered in this valuation.	Only current active employees and retired participants and covered dependents are valued. No future entrants are considered in this valuation.					
Salary Increase	3.0% per year; since benefits do not depend on salary, this is used to allocate the cost of benefits between service years.	3.0% per year; since benefits do not depend on salary, this is used to allocate the cost of benefits between service years.					
General Inflation Rate	2.5% per year	2.5% per year					
Medicare Eligibility	Absent contrary data, all individuals are assumed to be eligible for Medicare Parts A and B at 65. Retirees over age 65 who are not eligible for Medicare are assumed to remain ineligible.	Absent contrary data, all individuals are assumed to be eligible for Medicare Parts A and B at 65.					
Employer Cost Sharing	<b>IBEW Pre - 1998 Hires</b> : Increases in the PRMPT-paid portion of healthcare premiums are assumed to increase at the same rates as medical trend (described above).	<b>Tier 1</b> : Increases in the Trust-paid portion of healthcare premiums are assumed to increase at the same rates as medical trend (described above).					
	<b>IBEW Post-1997 Hires</b> : The \$1,250 service multiplier is assumed to remain fixed at its current level in all future years. Retirees are expected to exhaust the lifetime allowance 4 years following retirement.	<b>Tier 2</b> : The TMWA subsidy provided prior to age 65 is assumed to increase at the same rates as medical trend. The subsidy provided at ages 65 and above is assumed to increase by 4.5% per year.					
	MPAT: The \$235 (pre-65) and \$105 (post-65) service multipliers are assumed to remain fixed at their current level in all future years.						

GASB Statement No. 75 allows reporting liabilities as of any fiscal year end based on: (1) a *valuation date* no more than 30 months plus 1 day prior to the close of the fiscal year end; and (2) a *measurement date* up to one year prior to the close of the fiscal year. The following dates were used for this report:

Fiscal Year End	June 30, 2023
Measurement Date	December 31, 2022
Measurement Period	January 1, 2022 to December 31, 2022
Valuation Date	December 31, 2021
Fiscal Year End	June 30, 2022
Measurement Date	December 31, 2021
Measurement Period	January 1, 2021 to December 31, 2021

Valuation Date December 31, 2021

The discount rates used for the fiscal years ended June 30, 2023 and 2022 is 6.0%. The Healthcare Cost Trend Rate for the fiscal years ended June 30, 2023 and 2022 was assumed to start at 5.8% (increase effective January 1, 2023) and grade down to 3.9% for years 2076 and later. The impact of a 1% increase or decrease in these assumptions is shown in the charts below.

# **OPEB Plans Fiduciary Net Position**

Detailed information about the OPEB plans fiduciary net position are available in separately issued financial statements and can be requested by contacting TMWA's Finance Department at P.O. Box 30013, Reno, NV 89509-3013.

# **Note 13 - Commitments**

TMWA has committed \$800,000 as a contribution to the Truckee River Fund of the Community Foundation of Western Nevada for the purposes of water shed protection and enhancements to the Truckee River that will benefit the water customers of TMWA. This payment was made in July 2023.

TMWA has committed \$500,000 as a contribution to the National Forest Foundation for the purpose of funding a forest-thinning project east of Stampede Reservoir, where TMWA stores water. The project aims to mitigate the risk of catastrophic fire in the area, which would ultimately threaten TMWA's water supply and quality. TMWA made a \$250,000 payment in August 2022 and made the final \$250,000 payment in July 2023.

Truckee Meadows Water Authority Notes to Financial Statements June 30, 2023 and 2022

Under a Water Resource Purchase Agreement effective March 2022, TMWA committed to purchasing 400 acrefeet of water rights from Fish Springs Ranch, LLC for a total purchase price of \$10 million. The purchase price is payable in ten \$1 million tranches over 10 years. The first payment was made in November 2022.

<sup>(1)</sup> Effective December 13, 2018, the Board adopted a resolution to close the Plan to employees hired on or after December 13, 2018.

<sup>(2)</sup> In 2022, mortality tables were updated from MacLeod Watts Scale 2018 to MacLeod Watts Scale 2022. The healthcare cost trend rate was assumed to start at 5.8% (increase effective January 1, 2023) and grade down to 3.9% for years 2076 and later. Previously, the healthcare cost trend rate was assumed to start at 7.0% (increase effective January 1, 2021) and grade down to 4.0% for years 2076 and later. In 2020, mortality tables were updated from MacLeod Watts Scale 2017 to MacLeod Watts Scale 2018; and the medical trend model was updated from combined sources, Nevada Public Employee Benefit Plan along with other healthcare trends, to the Getzen healthcare trend model.

\*Historical information is required only for measurement periods for which GASB Statement No. 68 is applicable. Future years' information will be disclosed up to 10 years as information becomes available.

Beginning in 2018, contributions reflect employer-paid contributions only due to GASB Statement No. 82, which classifies contributions as member contributions for the purposes of GASB Statement No. 68 if they are made by an employer to satisfy what are actually deemed to be member contribution requirements.

## Statistical Section Truckee Meadows Water Authority

This part of the Truckee Meadows Water Authority Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the TMWA's overall financial health.

Section Contents	Schedule No.
Financial Trends	1-6
These schedules contain trend information to help the reader understand how TMWA's financial performance and well-being have changed over time.	
Revenue Capacity	7-8
These schedules contain information to help the reader assess the factors affecting the TMWA's ability to generate its water sales and other revenues.	
Debt Capacity	9
This schedule presents information to help the reader assess the affordability of the TMWA's current levels of outstanding debt, and its ability to issue additional future debt.	
Demographic and Economic Information	10-12
These schedules offer demographic and economic indicators to help the reader understand the environment within which the TMWA's financial activities take place and to help make comparisons over time and with other utilities.	
Operating Information	13-17
These schedules contain information about the TMWA's operations and resources to help the reader understand how the TMWA's financial information relates to the services it provides and the activities it performs.	
Debt Ratios	18-19
These schedules contain information about changes in the TMWA's debt and its debt in relation to service connections.	
Sources: Unless otherwise noted the information in these schedules is derived from the	

Annual Comprehensive Financial Reports for the relevant year.

<sup>\*</sup> Fiscal Year 2015 reflects the first year of the water utility consolidation as discussed in Note 1 of the Financial Statements.

<sup>(1)</sup> Includes retail residential, commercial, irrigation water sales, and wholesale water sales net of bad debt expense.

<sup>(2)</sup> Reflects hydroelectric revenues, other miscellaneous operating revenues from fees and charges, as well as gross investment income.

<sup>(3)</sup> Includes water supply, treatment, distribution, hydroelectric power plant maintenance, customer service, water resource planning, conservation programs, administration, and inspection services. Wages and salaries, employee benefits, and services and supplies comprise these expenses.

<sup>(4)</sup> The Authority is required to pay property taxes on water rights and storage facilities located in California.

<sup>(5)</sup> This schedule does not include the payments on the DWSRF loan or the 2021 Refunding Bonds, which are subordinate to the 2015-A, 2016, 2017 and 2018 Refunding Bonds.

<sup>(6)</sup> TMWA's bond covenants require a minimum coverage of 1.25x total principal and interest payments. In fiscal years 2017, 2018 and 2019, TMWA deferred principal payments on debt which increased the debt coverage ratio.

Note: Each of the years reflect respective 4th quarter calendar year information. Nevada Revised Statutes Chapter 612 stipulate that actual employment for individual employers may not be published. The Nevada Department of Employment Training and Rehabilitation outsources the publication of this information to Infogroup. Infogroup publishes employee counts in ranges of 5,000. The number of employees are estimated using the midpoint.

## Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors
Truckee Meadows Water Authority
Reno, Nevada

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the fiduciary activities of the Truckee Meadows Water Authority ("TMWA"), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise TMWA's basic financial statements, and have issued our report thereon dated November 20, 2023.

## **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered TMWA's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of TMWA's internal control. Accordingly, we do not express an opinion on the effectiveness of TMWA's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether TMWA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **Auditor's Comments**

To the Board of Directors
Truckee Meadows Water Authority
Reno, Nevada

In connection with our audit of the financial statements of the Truckee Meadows Water Authority ("TMWA") as of and for the year ended June 30, 2023, and the related notes to the financial statements, nothing came to our attention that caused us to believe that TMWA failed to comply with the specific requirements of Nevada Revised Statutes cited below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding TMWA's noncompliance with the requirements of Nevada Revised Statutes cited below, insofar as they relate to accounting matters.

### **Statute Compliance**

The required disclosure on compliance with Nevada Revised Statutes and the Nevada Administrative Code is contained in Note 2 to the financial statements.

## **Progress on Prior Year Statute Compliance**

There were no potential statute violations reported in the June 30, 2022 audit report.

### **Prior Year Recommendations**

The significant deficiency noted in the prior year was remediated during the year ended June 30, 2023.

#### **Current Year Recommendations**

Esde Sailly LLP

There were no findings for the year ended June 30, 2023.
