Addendum No. 3

IMPROVEMENT PLANS FOR DOUBLE DIAMOND WELL 3

PWP Bid No. WA-2016-221
September 1, 2016

The following information, clarifications, changes and modifications are by reference incorporated into the bid documents for the above referenced project. Any work item or contract provision not changed or modified will remain in full force and effect. The bid date and time schedule has changed as published in Addendum No. 1 to September 12, 2016, at 2:00 p.m.

Questions and Responses:

Question No. 1: I have a question regarding sheet #E11, Detail E20/E11, Note #1. RMC with plastic tape is not allowed as a substitute. It requires a RMC-PVC coupling/adaptor as called out in the detail. My supplier and myself cannot find this coupling/adaptor. can we get a brand name, supplier, and part #'s for this item.

Response to Question No. 1: The following are example part numbers for 1" conduit system that is mostly PVC-40 underground (PVC-40/RMC-PVC):

PVC-40 to RMC-PVC can be accomplished with a Terminal (Male) Adapter (1" model Cantex 5140105, or equal). The NPT Male end will then screw into the PVC coated RMC Coupling (1" model Permacoat CPL-100, or equal). The 90 degree elbow would then turn the conduit run up to vertical and have a second PVC coated RMC Coupling (1" model Permacoat CPL-100, or equal) that PVC coated RMC conduit would be added to bring the conduit out of the ground and at least 3" above grade / finish floor before going to RMC conduits (if exposed) or PVC-40 (if within an enclosure).

Question No 2: On sheet E4 It calls for Motion detectors but does not show a fixture location or quantities for exterior fixtures. The catalog numbers are in the specs but the print doesn't correspond.

Response to No 2: See ES/11 in equip schedule.

Question No. 3: Is the pump located inside a building?

Response to Question No. 3: Yes, it will be located inside a new building to be constructed in this contract.

Question No. 4: Do you have site pictures of the existing well?

Response to Question No. 4: Yes, but they are not for distribution. The site can be inspected in the field and Contractors are encouraged to visit the project location as part of their due diligence in preparing their bids.

Proposal Summary Modifications:

Replace the proposal summary with the attached. In item 12 of the bid schedule the “SWPPP Development” has been deleted, while for item 13 paving has been added.

Contract Drawing Modifications:

The following Contract plans shall be replaced with the attached:

C1 - Modified construction and access locations. Removed the re-construction of the existing access road, no longer required in this Contract.

C2 – Coordinated site work/improvements with adjacent proposed development (by-others). Added detail for sample line addition into existing SMP meter vault (see question 9 in Addendum 2). Added paved driveway and aggregate base to NDOT’s access road to west of building.

C3 – Coordinated site work/improvements with adjacent proposed development by-others. Removed detention basin and added DI with SD to connect to proposed SD by-others.

C4 - Coordinated site work/improvements with adjacent proposed development by-others. Removed detention basin and added DI with SD to connect to proposed SD by-others.

C5 – Deleted reconstruction of existing access road from Contract.

C6 – Added a check valve to the well pre-lube water supply line.

C7 – Added note to enlarge well casing connection to sole plate, see clarification 2 in Addendum 2.

D5 – Added a check valve to the well pre-lube water supply line.

D6 – Changed detail 3/D6 from a detention basin to a type 3R catch basin and changed detail 2/D6 from an aggregate base road section to a paved road section for the modified TMWA access driveway.

E1 – Updated/corrected some equipment model numbers and added the fiber enclosure. For “ES1” the requirement for the main breaker enclosure to be NEMA 3R is added, while the “Gen Breaker with Kirk Key Interlock” has been deleted.

E3 – Added the antenna mast to the Contract.

E5 – Added wall penetration for antenna mast conduit and fiber optic enclosure.

E11 – Added detail E104/E11 for the antenna mast.

I2 – Added missing pump room float switch and future SMP meter vault to well RTU communication plan.

Technical Specifications Modifications:

Section 0800 replace the following Articles and appendices with the attached:

Article 3 Permits – Construction storm water and dust requirements have been reduced due to the reduction in project acreage. NDOT permit conditions have changed as well. A run off control plan has been amended to the NDOT permit and is included with the Appendix B additions below.

Article 7 Project Milestones – The dates have been updated due to the extension of the bid date.

Appendix B – Amend the NDOT Permit Terms and Conditions with the attached (Permit No. 203913-15 Amendment #1), this amendment address the NDOT access road and run off control plan that shall be incorporated into the Contract. Note: The Appendices to the Supplementary Conditions are located at the end of all the Technical Sections (end of Section 16605), but are associated with Section 00800.

Addendum 3 – Updated Proposal Summary

**REVISED
BID PROPOSAL FORMS
SEPTEMBER 1, 2016**

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that I/We _____

as Principal, hereinafter called Contractor, and

a corporation duly organized or authorized to do business under the laws of the State of Nevada, as Surety, hereinafter called the Surety, are held and firmly bound unto Truckee Meadows Water Authority, a joint powers authority created pursuant to NRS Chapter 277, for the sum of
\$ _____ Dollars

(state sum in words)

for the payment whereof Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents. This bond shall be governed by the laws of the State of Nevada.

WHEREAS, the Principal has submitted a bid, identified as **PWP No: WA-2016-221** and titled **"Improvement Plans for Double Diamond Well 3."**

NOW, THEREFORE if Truckee Meadows Water Authority shall accept the bid of the Principal and the Principal shall enter into a contract with Truckee Meadows Water Authority in Accordance with the terms of such bid, and give such bond or bonds as may be specified in the bidding or Contract Documents with good and sufficient surety for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof, or in the event of the failure of the Principal to enter such Contract and give such bond or bonds, if the Principal shall pay to Truckee Meadows Water Authority the difference not to exceed the penalty hereof between the amount specified in said bid and such larger amount for which Truckee Meadows Water Authority may in good faith contract with another party to perform work covered by said bid or an appropriate liquidated amount as specified in the Invitation for Bids then this obligation shall be null and void, otherwise to remain in full force and effect.

BID SCHEDULES
(Cont)

REVISED BID SCHEDULES – SEPTEMBER 1, 2016

PWP #: PWP-WA-2016-221

BID TITLE: Improvement Plans for Double Diamond Well 3

NOTICE: No substitution or revision to this Bid Schedule form will be accepted. Truckee Meadows Water Authority will reject any Bid that is received that has changes or alterations to this document. Although the Prevailing Wages are provided in this bid document, the bidder is responsible to verify with the Labor Commissioner if any addendums have been issued. If different, the successful bidder will be required to provide the current Prevailing Wages used in preparation of their bid within 24 hours of bid submission.

PRICES must be valid for 30 calendar days after the bid opening.

A COPY OF THE "CERTIFICATE" of eligibility to receive a preference in bidding on public works issued to him/her by the State Contractors' Board and (if claiming Locals Preference) the Local's Preference Affidavit (provided above) must be submitted with his/her bid to the Contracts Division for the preference to be considered. These Statutes do not apply to projects expected to cost less than \$250,000.

COMPLETION of this project is expected **PURSUANT TO CONTRACT DOCUMENTS**.

BIDDER acknowledges receipt of _____ Addendums.

Item pricing on this schedule is for use in preparing the schedule of values that will be used as a basis for partial payment during construction and for internal TMWA use. Item descriptions are not intended to be all inclusive. Bidders shall include costs for work not specifically mentioned in the most appropriate item.

Refer to Article 7 of the General Conditions for a list of items that may be included in the mobilization bid item. TMWA reserves the right to perform extra work using time and expense or negotiated lump sum procedures.

The Contract Sum will be adjusted (increased or decreased) for actual quantities per unit price items. Lump sum items will not be adjusted.

Compliance with all permit and environmental requirements is incidental to the Work. No separate bid item, or additional payment provisions, shall be made for operational constraints or conditions placed on the Work by permitting agency requirements.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS PRIMARY COVERED TRANSACTIONS

1. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal, State or Local department or agency.
 - b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or Local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property.
 - c) Are not presently indicted for or otherwise criminally or civilly charged by a government entity (Federal, State or Local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
 - d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or Local) terminated for cause or default.
2. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Addendum 3 – Updated Articles in the Supplementary Conditions

Section 00800
SUPPLEMENTARY CONDITIONS

ARTICLE 3: PERMITS

3.01 General

- A. Refer to Article 6.06 “Permits” of the General Conditions for requirements governing responsibility for obtaining permits and paying permit fees.

3.02 Construction Site Stormwater Permit

- A. Refer to Article 6.14 “Construction Site Stormwater Control” of the General Conditions for additional requirements.
- B. The estimated area of land that will be disturbed by the Project is less than one acre therefore the Contractor is not required to prepare a SWPPP or file a NOI with NDEP. The Contractor shall limit the total project disturbed area to less than one acre within the limits of the easements, well site parcel and construction staging areas. Areas shown on the plans for staging and access are not the intended limits of the areas that can be disturbed, but show the boundary in which the Contractor shall need to limit operations within and identify location(s) for staging. The Contractor shall be required to identify and establish boundaries for the areas they elect to limit their operations for staging prior to mobilization and limit these areas to maintain a total project site disturbance of less than or equal to one acre.
- C. The Nevada Department of Transportation (NDOT) Conditions of Approval for this project shall require the Contractor to comply with the approved Runoff Control Plan (RCP). See item 3.06 below.

3.03 Dust Control Permit

- A. Refer to Article 6.15 “Dust Control” of the General Conditions for additional requirements.
- B. The estimated area of land that will be disturbed by the Project is less than one acre. Therefore TMWA will not obtain a dust control permit from the Washoe County Health District.

3.04 City of Reno Permits

- A. TMWA has obtained the terms and conditions for at City of Reno Encroachment and Excavation Permit for this Project and will pay the required fee.
- B. The Contractor shall sign and obtain the final Encroachment and Excavation Permit and comply with all requirements contained therein.

- C. A copy of the terms and conditions is included as Appendix A to these Supplementary Conditions.

3.05 Building Permit

- A. The Contractor is responsible for signing and picking up the building permit at the City of Reno Building Department office. TMWA will provide a check for the permit fee.
- B. Deleted.
- C. City of Reno Building Permit Number BLD16-0819.

3.06 Nevada Department of Transportation (NDOT) Occupancy Permit

- A. Interstate 580 (I-580) is NDOT right of way and dictates that portions of the work shall be done in accordance with NDOT permit conditions and standards. TMWA has submitted for an NDOT permit for the placement of the proposed improvements in this Contract adjacent to NDOT right of way. There is no fee for this permit.
- B. NDOT Permit 203913
- C. The Contractor shall abide by all terms and conditions included in the NDOT permit referenced above.
- D. Deleted.
- E. The NDOT permit conditions are included in Appendix B of this section.

ARTICLE 7: PROJECT MILESTONES

7.01 General

- A. Refer to Article 3 of the Agreement, the Definitions contained in the General Conditions and Article 2.05 of the General Conditions for additional information.
- B. Time is of the essence on this construction Contract and the Work shall be one hundred percent (100%) complete no later than the date specified in the Agreement. As defined in the Agreement, the Time of Completion is based on a specific number of calendar days after the date of the Notice to Proceed (NTP).
 - 1. Substantial Completion is defined as completion of all work required so the facility is functional for its intended use. This includes the well building and all site work (includes exterior concrete flatwork and final on-site pavement for new well facility), and the new well pump shall be tested/accepted and placed into service. Site access for TMWA maintenance and all fencing/site security is required to be completed. The Contractor shall be responsible for

site security until one hundred percent completion is obtained and the Notice of Completion is issued.

2. One Hundred Percent Completion includes the completion of landscaping, sample lines at Double Diamond Well 1, 14-in water main abandonment under I-580, TMWA access road improvements, final pavement patches within the Renown Access Road, permit close-out items, and minor punch list. One hundred percent completion shall require the Notice of Completion to be issued as stipulated in Article 6 of these Supplementary Conditions.

- C. The date of the NTP begins the Contract Time. Contract Time is defined in the General Conditions. Contractor shall not move onto, store materials, or perform any work at the site prior to the Notice to Proceed. Any mobilization of labor, material or equipment by Contractor prior to TMWA issuing the Notice to Proceed is done at the sole risk and expense of the Contractor, and shall not modify the Contract Time.

The allotted Contract Time includes all preliminary Work tasks including permits, surveying, potholing, submittals, etc.

The tentative overall project schedule is shown below. The actual project schedule may be slightly different depending upon whether the milestones below are met.

Re: **Permit No. 203913-15 Amendment #1**

Dear Permittee:

Enclosed is your copy of the approved Amendment 1 to the Additional Terms and Conditions for your encroachment permit.

Please make a note that as of January 1, 2002 all Category 1 & 2 Traffic Control Devices used on NDOT roadways must be National Cooperative Highway Research Program (NCHRP) Report 350 compliant. Non-compliance will result in the immediate closure of the project site.

If you have any questions or need additional information, contact the permit office at 834-8330.

Sincerely,

Steven R. Smith

**AMENDED ADDITIONAL TERMS AND CONDITIONS
AMENDMENT NO. 2**

PERMITTEE: TMWA
PERMIT # 203913-15

IRWIN SYSTEM ID # 205247-16

1. Amend permit to allow placement of Maintenance access road within the Control of Access to facilitate construction of TMWA well pump house in shared easement. As agreed to by NDOT HQ ROW and District II Maintenance.
2. Place 12' wide, 6" of Type 2 Class B aggregate base for access road.

All other terms and conditions of the permit are still in effect.

This Right-of-Way Occupancy Permit is granted to the PERMITTEE in accordance with the provisions of Chapter 408 N.R.S. and subject to the TERMS AND CONDITIONS stipulated to perform the work described.

Dated this 25th day of August, 2016

Runoff Control Plan

Work Description:

This project will consist of the following items of work within the Nevada Department of Transportation right-of-way:

1. Removing 180 LF chain link fence
2. Placing and compacting 2,500 SF 6" Type 2 Class B aggregate base
3. Constructing 190 LF 6' tall chain link fence
4. Materials and equipment will not be staged or stored within NDOT rights of way.

All the above work to be done in accordance with the accompanying plans entitled *Improvement Plans for Double Diamond Well 3*.

Project Location:

See the attached plan set entitled *Improvement Plans for Double Diamond Well 3* (Reno, Washoe County, Nevada) for the location of the project. Project work is adjacent to IR580 at the northbound South Meadows Parkway off-ramp (Exit 60) from HES "X" 139+50 205' RT to HES "X" 140+45 246' RT (WA 18.25).

Temporary Stormwater Pollution Control Measures:

Prior to the commencement of the above described work, straw wattles and silt fencing will be placed at the project limits as required, and inlet protection via gravel bags will be placed at all catch basins within project boundary. These will be maintained and monitored on a weekly basis, and replaced as needed, until completion of the project.

Permanent Stormwater Pollution Control Measures:

None for this project.

Responsible Party:

The contractor will be responsible for placement, monitoring, and inspection of stormwater pollution control measures on this project. The contractor can be contacted through Ryan Dixon. Ryan Dixon's contact information is:
