

Proposed Rate Adjustment Meetings Scheduled

The Truckee Meadows Water Authority (TMWA) Board of Directors has scheduled several public meetings to discuss a potential rate adjustment.

This is the first proposed rate adjustment since June 2010. TMWA continues to monitor the effectiveness of our rate structures, and, as necessary, make adjustments that better reflect the costs associated with treating, delivering and maintaining the high quality water our customers currently receive. If approved, the adjusted rates will be implemented in February of 2012. Customers are encouraged to attend the following meetings for more information and to provide comments.
